Development of an Algorithm for the Taktline Layout of Synchronized Job Shop Production Antonia Fels, 2019-03-11 In job shop production the change towards synchronized job shop production which is based on the concept of so called taktlines has been shown to enhance efficiency In this dissertation an algorithm for the taktline layout is developed following a multi objective approach The algorithm consists of two sequential discrete optimizations problems namely a modified Substring Cover Problem and a partitioning Cluster Analysis including a Multiple Sequence Alignment For an overall validation real world data from tool manufacturers are subject to the proposed algorithm

Bioinformatics Algorithms Miguel Rocha, Pedro G. Ferreira, 2018-06-08 Bioinformatics Algorithms Design and Implementation in Python provides a comprehensive book on many of the most important bioinformatics problems putting forward the best algorithms and showing how to implement them The book focuses on the use of the Python programming language and its algorithms which is quickly becoming the most popular language in the bioinformatics field Readers will find the tools they need to improve their knowledge and skills with regard to algorithm development and implementation and will also uncover prototypes of bioinformatics applications that demonstrate the main principles underlying real world applications Presents an ideal text for bioinformatics students with little to no knowledge of computer programming Based on over 12 years of pedagogical materials used by the authors in their own classrooms Features a companion website with downloadable codes and runnable examples such as using Jupyter Notebooks and exercises relating to the book

Real-World Algorithms Panos Louridas, 2017-03-17 An introduction to algorithms for readers with no background in advanced mathematics or computer science emphasizing examples and real world problems Algorithms are what we do in order not to have to do something Algorithms consist of instructions to carry out tasks usually dull repetitive ones Starting

from simple building blocks computer algorithms enable machines to recognize and produce speech translate texts categorize and summarize documents describe images and predict the weather A task that would take hours can be completed in virtually no time by using a few lines of code in a modern scripting program This book offers an introduction to algorithms through the real world problems they solve The algorithms are presented in pseudocode and can readily be implemented in a computer language The book presents algorithms simply and accessibly without overwhelming readers or insulting their intelligence Readers should be comfortable with mathematical fundamentals and have a basic understanding of how computers work all other necessary concepts are explained in the text After presenting background in pseudocode conventions basic terminology and data structures chapters cover compression cryptography graphs searching and sorting hashing classification strings and chance Each chapter describes real problems and then presents algorithms to solve them Examples illustrate the wide range of applications including shortest paths as a solution to paragraph line breaks strongest paths in elections systems hashes for song recognition voting power Monte Carlo methods and entropy for machine learning Real World Algorithms can be used by students in disciplines from economics to applied sciences Computer science majors can read it before using a more technical text

Combinatorial Pattern Matching Alberto Apostolico, 2005-06-02 This book constitutes the refereed proceedings of the 16th Annual Symposium on Combinatorial Pattern Matching CPM 2005 held in Jeju island Korea on June 19 22 2005 The 37 revised full papers presented were carefully reviewed and selected from 129 submissions They constitute original research contributions in combinatorial pattern matching and its applications Among the application fields addressed are computational biology bioinformatics genomics proteinomics data compression Sequence Analysis and Graphs information retrieval data analysis and pattern recognition
