Marine Painting Manual A.M. Berendsen, 2013-06-29 It is a pleasure to introduce to the reader this new
 Marine Painting Manual The previous edition entitled Ship Painting Manual was published in 1975 Since then a number of
 new technological developments have taken place Also standards with regard to safety health and the environment have
 become more severe These changes called for a thoroughly revised and updated Marine Painting Manual I believe that the
 editor should be congratulated on having completed this task in such a commendable way I hope that this new volume will
 find as enthusiastic a response among those concerned with maritime affairs as its predecessor did some fifteen years ago Dr
 Jan Raat Director Netherlands Foundation for the Co ordination of Maritime Research The Marine Painting Manual sets out
 to provide clear guidelines for the effective protection of marine structures ocean going vessels and offshore platforms
 Painting is a high cost procedure and is a crucial factor in determining the life and subsequent maintenance of steel

structures in the marine environment The book is a follow up to the Ship Painting Manual published in 1975 It has been completely revised partly rewritten and an additional chapter on offshore structures included The present volume contains detailed and up to date information on all aspects of the preparation and painting for the protection of marine structures
