Dharma and Halacha Ithamar Theodor, Yudit Kornberg Greenberg, 2018-08-15 In recent decades there has been a rising interest among scholars of Hinduism and Judaism in engaging in the comparative studies of these ancient traditions Academic interests have also been inspired by the rise of interreligious dialogue by the respective religious leaders Dharma and Halacha Comparative Studies in Hindu Jewish Philosophy and Religion represents a significant contribution to this emerging field offering an examination of a wide range of topics and a rich diversity of perspectives and methodologies within each tradition and underscoring significant affinities in textual practices ritual purity sacrifice ethics and theology Dharma refers to a Hindu term indicating law duty religion morality justice and order and the collective body of Dharma is called Dharma shastra Halacha is the Hebrew term designating the Jewish spiritual path comprising the collective body of Jewish religious laws ethics and rituals Although there are strong parallels between Hinduism and Judaism in topics such as textual practices and mystical experience the link between these two religious systems i e Dharma and Halacha is especially compelling and provides a framework for the comparative study of these two traditions The book begins with an introduction

to Hindu Jewish comparative studies and recent interreligious encounters Part I of the book titled Ritual and Sacrifice encompasses the themes of sacrifice holiness and worship Part II titled Ethics is devoted to comparing ethical systems in both traditions highlighting the manifold ways in which the sacred is embodied in the mundane Part III of the book titled Theology addresses common themes and phenomena in spiritual leadership as well as textual metaphors for mystical and visionary experiences in Hinduism and Judaism The epilogue offers a retrospective on Hindu Jewish encounters mapping historic as well as contemporary academic initiatives and collaborations

A Hindu-Jewish Conversation Rachel Fell McDermott, Daniel F. Polish, 2024-02-15 A Hindu Jewish Conversation Root Traditions in Dialogue is a historical theological and phenomenological engagement of the Hindu and Jewish traditions two root traditions that give rise to other in some ways very different types of religious traditions Rachel Fell McDermott and Daniel F Polish explore conceptions of the divine which are frequently cited as the most serious obstacle to a serious theological engagement between the two traditions differences in attitude towards heroes saints and holy people the religious resources and challenges experienced by Hindu and Jewish women what can be learned about Hindu and Jewish spiritual outpouring by comparing Hindu devotional poetry and the Book of Psalms the ways in which the two traditions address the fraught question of theodicy or why bad things happen to good people the status of the land and nationalist claims on it and the uncomfortable question of caste and its possible social parallels in the Jewish tradition The authors weave considerations of these topics into an ongoing conversation that offers students of both traditions new ways of thinking both about their intersections and about the history of religion in general A coda explores these same issues by recounting an actual series of discussions convened between Hindu and Jewish practitioners

The Georgetown Companion to Interreligious Studies Lucinda Mosher, 2022 The Georgetown Companion to Interreligious Studies is a comprehensive authoritative creative and cutting edge anthology of fifty essays that taken as a group provide insight into and food for further thought about sub categories of a field of academic inquiry that has developed rapidly in recent decades Interreligious Studies is an academic field in which scholars deliberately draw on at least one other religion in addition to their home tradition when reflecting on worldview questions an arena in which at least one religious discourse is involved with some other discourse Hence Interreligious Studies is inherently multi disciplinary bringing together the study of religion s with methodologies from the fields of anthropology sociology psychology political science history women s studies ecology and more Interreligious Studies gives pride of place to relational intersectional and dialogical approaches as it seeks theoretical and practical insights through the examination of how religions relate to each other to their own internal diversity to various social systems to society at large A recent assessment of Interreligious Studies programs in universities and theological schools indicates that they make wide but not exclusive use of comparative and critical methods that their purposes include cultivation of religious literacy promotion of dialogue fostering of citizenship and professional preparation for leadership in multireligious contexts
