Beyond Individualism The Challenge Of Inclusive Communities Religion Culture And Public Life:

Beyond Individualism George Rupp, 2015-09-01 In many places around the world relations between ethnic and religious groups that for long periods coexisted more or less amicably are now fraught with aggression and violence This trend has profound international implications threatening efforts to narrow the gap between rich and poor Underscoring the need for sustained action George Rupp urges the secular West to reckon with the continuing power of religious conviction and embrace the full extent of the world's diversity While individualism is a powerful force in Western cultures and a cornerstone of Western foreign policy it elicits strong resistance in traditional communities Drawing on decades of research and experience Rupp pushes modern individualism beyond its foundational beliefs to recognize the place of communal practice in our world Affirming the value of communities and the productive role religion plays in many lives he advocates new solutions to such global challenges as conflicts in the developing world income inequality climate change and mass migration

Love and Forgiveness for a More Just World Hent de Vries, Nils F. Schott, 2015-11-03 One can love and not forgive or out of love decide not to forgive Or one can forgive but not love or choose to forgive but not love the ones forgiven Love and forgiveness follow parallel and largely independent paths a truth we fail to acknowledge when we pressure others to both love and forgive Individuals in conflict sparring social and ethnic groups warring religious communities and insecure nations often do not need to pursue love and forgiveness to achieve peace of mind and heart They need to remain attentive to the needs of others an alertness that prompts either love or forgiveness to respond By reorienting our perception of these enduring phenomena the contributors to this volume inspire new applications for love and forgiveness in an increasingly globalized and no longer quite secular world With contributions by the renowned French philosophers Jacques Derrida and Jean Luc Marion the poet Haleh Liza Gafari and scholars of religion Leora Batnitzky Nils F Schott Hent de Vries psychoanalysis Albert Mason Orna Ophir Islamic and political philosophy Sari Nusseibeh and the Bible and literature Regina Schwartz this anthology reconstructs the historical and conceptual lineage of love and forgiveness and their fraught relationship over time By examining how we have used and misused these concepts the authors advance a better understanding of their ability to unite different individuals and emerging groups around a shared engagement for freedom and equality peace and solidarity

Holy Wars and Holy Alliance Manlio Graziano, 2017-04-11 Religions are reemerging in the social political and economic spheres previously occupied and dominated by secular institutions and ideologies In the wake of crises exposing the limits of secular modernity religions have again become significant players in domestic and international politics At the same time the Catholic Church has sought a holy alliance among the world's faiths to recentralize devout influence an important albeit little noticed evolution in international relations Holy Wars and Holy Alliance explores the nation state's current crisis in order to better understand the religious resurgence's implications for geopolitics Manlio Graziano looks at how the Catholic Church promotes dialogue and action linking world religions and examines how it has

used its material financial and institutional strength to gain power and increase its profile in present day international politics Challenging the idea that modernity is tied to progress and secularization Graziano documents the return or the revenge of God in all facets of life He shows that tolerance pluralism democracy and science have not triumphed as once predicted To fully grasp the destabilizing dynamics at work today he argues we must appreciate the nature of religious struggles and political holy wars now unfolding across the international stage

Relativism and Religion Carlo Invernizzi Accetti, 2015-11-10 Moral relativism is deeply troubling for those who believe that without a set of moral absolutes democratic societies will devolve into tyranny or totalitarianism Engaging directly with this claim Carlo Invernizzi Accetti traces the roots of contemporary anti relativist fears to the antimodern rhetoric of the Catholic Church and then rescues a form of philosophical relativism for modern pluralist societies arguing that this viewpoint provides the firmest foundation for an allegiance to democracy In his analyses of the relationship between religious arguments and political authority and the implications of philosophical relativism for democratic theory Accetti makes a far ranging contribution to contemporary debates over the revival of religion in politics and the conceptual grounds for a commitment to democracy He presents the first comprehensive genealogy of anti relativist discourse and reclaims for English speaking readers the overlooked work of Hans Kelsen on the connection between relativism and democracy By engaging with contemporary attempts to replace the religious foundation of democratic values with a neo Kantian conception of reason Accetti also makes a powerful case for relativism as the best basis for a civic ethos that integrates different perspectives into democratic politics

Race and Secularism in America Jonathon S. Kahn, Vincent W. Lloyd, 2016-03-01 This anthology draws bold comparisons between secularist strategies to contain privatize and discipline religion and the treatment of racialized subjects by the American state Specializing in history literature anthropology theology religious studies and political theory contributors expose secularism's prohibitive practices in all facets of American society and suggest opportunities for change

The Limits of Tolerance Denis Lacorne, 2019-05-07 The modern notion of tolerance the welcoming of diversity as a force for the common good emerged in the Enlightenment in the wake of centuries of religious wars First elaborated by philosophers such as John Locke and Voltaire religious tolerance gradually gained ground in Europe and North America But with the resurgence of fanaticism and terrorism religious tolerance is increasingly being challenged by frightened publics In this book Denis Lacorne traces the emergence of the modern notion of religious tolerance in order to rethink how we should respond to its contemporary tensions In a wide ranging argument that spans the Ottoman Empire the Venetian republic and recent controversies such as France's burqa ban and the white supremacist rally in Charlottesville The Limits of Tolerance probes crucial questions Should we impose limits on freedom of expression in the name of human dignity or decency Should we accept religious symbols in the public square Can we tolerate the intolerant While acknowledging that tolerance can never be entirely without limits Lacorne defends the Enlightenment concept against recent attempts to circumscribe it arguing that without it

a pluralistic society cannot survive Awarded the Prix Montyon by the Académie Française The Limits of Tolerance is a powerful reflection on twenty first century democracy's most fundamental challenges Open to Reason Souleymane Bachir Diagne, 2018-08-21 What does it mean to be a Muslim philosopher or to philosophize in Islam In *Open to Reason* Souleymane Bachir Diagne traces Muslims intellectual and spiritual history of examining and questioning beliefs and arguments to show how Islamic philosophy has always engaged critically with texts and ideas both inside and outside its tradition Through a rich reading of classical and modern Muslim philosophers Diagne explains the long history of philosophy in the Islamic world and its relevance to crucial issues of our own time From classical figures such as Avicenna to the twentieth century Sufi master and teacher of tolerance Tierno Bokar Salif Tall Diagne explores how Islamic thinkers have asked and answered such questions as Does religion need philosophy How can religion coexist with rationalism What does it mean to interpret a religious narrative philosophically What does it mean to be human and what are human beings responsibilities to nature Is there such a thing as an Islamic state or should Muslims reinvent political institutions that suit their own times Diagne shows that philosophizing in Islam in its many forms throughout the centuries has meant a commitment to forward and open thinking A remarkable history of philosophy in the Islamic world as well as a work of philosophy in its own right this book seeks to contribute to the revival of a spirit of pluralism rooted in Muslim intellectual and spiritual traditions *Baptizing Burma* Alexandra Kaloyanides, 2023-06-20 Shortlisted 2024 EuroSEAS Book Prize in the Humanities European Association for Southeast Asian Studies In July 1813 a young American couple from Boston arrived in Rangoon to preach the gospel Celebrated in the Protestant press which ran dramatic accounts of exotic adventures the attempt to convert the Burmese met with mixed results Although Burmese Buddhists resisted Christian evangelism people from minority communities were baptized in large numbers throughout the nineteenth century American Baptist Christianity was itself transformed in the Buddhist kingdom Missionaries who were initially horrified by what they saw as the idolatry of Buddha statues found themselves creating tree shrines and their converts hanging colorful Jesus paintings in their churches *Baptizing Burma* explores the history of how the American Baptist mission to Burma failed to convert the country yet succeeded in transforming its religious landscape Alexandra Kaloyanides examines how the Burmese majority positioned Buddhism to counter Christianity how marginalized groups took on Baptist identities and how Protestantism was reimagined as a Southeast Asian religion She considers a series of holy objects to reveal the mechanics of religious practice in a period of entangled empires British Burmese and American By telling stories of four key things the sacred book the school house the pagoda and the portrait this book illuminates the histories of Burma's last kingdom and the unexpected consequences of America's first overseas mission At Home and Abroad Elizabeth Shakman Hurd, Winnifred Fallers Sullivan, 2021-03-02 From right to left notions of religion and religious freedom are fundamental to how many Americans have understood their country and themselves Ideas of religion politics and the interplay between them are no less crucial to how the United States

has engaged with the world beyond its borders Yet scholarship on American religion tends to bracket the domestic and foreign despite the fact that assumptions about the differences between ourselves and others deeply shape American religious categories and identities At Home and Abroad bridges the divide in the study of American religion law and politics between domestic and international bringing together diverse and distinguished authors from religious studies law American studies sociology history and political science to explore interrelations across conceptual and political boundaries They bring into sharp focus the ideas people and institutions that provide links between domestic and foreign religious politics and policies Contributors break down the categories of domestic and foreign and inquire into how these taxonomies are related to other axes of discrimination asking questions such as What and who counts as home or abroad how and by whom are these determinations made and with what consequences Offering a new approach to theorizing the politics of religion in the context of the American nation state At Home and Abroad also interrogates American religious exceptionalism and illuminates imperial dynamics beyond the United States

The Holocaust and the Nakba Bashir Bashir, Amos Goldberg, 2018-11-13 In this groundbreaking book leading Arab and Jewish intellectuals examine how and why the Holocaust and the Nakba are interlinked without blurring fundamental differences between them While these two foundational tragedies are often discussed separately and in abstraction from the constitutive historical global contexts of nationalism and colonialism The Holocaust and the Nakba explores the historical political and cultural intersections between them The majority of the contributors argue that these intersections are embedded in cultural imaginations colonial and asymmetrical power relations realities and structures Focusing on them paves the way for a new political historical and moral grammar that enables a joint Arab Jewish dwelling and supports historical reconciliation in Israel Palestine This book does not seek to draw a parallel or comparison between the Holocaust and Nakba or to merely inaugurate a dialogue between them Instead it searches for a new historical and political grammar for relating and narrating their complicated intersections The book features prominent international contributors including a foreword by Lebanese novelist Elias Khoury on the centrality of the Holocaust and Nakba in the essential struggle of humanity against racism and an afterword by literary scholar Jacqueline Rose on the challenges and contributions of the linkage between the Holocaust and Nakba for power to shift and a world of justice and equality to be created between the two peoples The Holocaust and the Nakba is the first extended and collective scholarly treatment in English of these two constitutive traumas together
