Beyond The Tower A History Of East London:

Beyond the Tower John Marriott, 2011-11-29 From Jewish clothing merchants to Bangladeshi curry houses ancient docks to the 2012 Olympics the area east of the City has always played a crucial role in London's history The East End as it has been known was the home to Shakespeare's first theater and to the early stirrings of a mass labor movement it has also traditionally been seen as a place of darkness and despair where Jack the Ripper committed his gruesome murders and cholera and poverty stalked the Victorian streets In this beautifully illustrated history of this iconic district John Marriott draws on twenty five years of research into the subject to present an authoritative and endlessly fascinating account With the aid of copious maps archive prints and photographs and the words of East Londoners from seventeenth century silk weavers to Cockneys during the Blitz he explores the relationship between the East End and the rest of London and challenges many of the myths that surround the area

London 2012 and the Post-Olympics City Phil Cohen, Paul Watt, 2017-09-20 This book brings together a body of new research which looks both backwards and forwards to consider how far the London 2012 Olympic legacy has been delivered and how far it has been a hollow promise Cohen and Watt consider the lessons that can be learnt from the London experience and aptly apply them other host cities specifically Rio 2016 and Tokyo 2020 The Olympics are often described as a mega event in a way that assumes the host cities have no other existence outside before or beyond the contexts imposed by the Games themselves In terms of regeneration the London 2012 Olympics promised to trigger a mega regeneration project that was different to what had come before This time the mistakes of other large scale projects like London Docklands and Canary Wharf would be put right top down planning would be replaced by civic participation communication and the local This edited collection questions how far the 2012 London legacy really is different In so doing it brings fresh evidence original insights and new perspectives to bear on the post Olympics debate A detailed and well researched study this book will be of great interest to scholars of urban geography sociology urban planning and sports studies

Migrant City Panikos Panayi, 2020-04-07 The first history of London to show how immigrants have built shaped and made a great success of the capital city London is now a global financial and multicultural hub in which over three hundred languages are spoken But the history of London has always been a history of immigration Panikos Panayi explores the rich and vibrant story of London from its founding two millennia ago by Roman invaders to Jewish and German immigrants in the Victorian period to the Windrush generation invited from Caribbean countries in the twentieth century Panayi shows how migration has been fundamental to London s economic social political and cultural development br *Migrant City* sheds light on the various ways in which newcomers have shaped London life acting as cheap labour contributing to the success of its financial sector its curry houses and its football clubs London s economy has long been driven by migrants from earlier continental financiers and more recent European Union citizens Without immigration fueled by globalization Panayi argues London would not have become the world city it is today

The Materiality of Literary Narratives in Urban History Lieven Ameen, Jason Finch, Silja Laine, Richard Dennis, 2019-08-12 The Materiality of Literary Narratives in Urban History explores a variety of geographical and cultural contexts to examine what literary texts grasped as material objects and reflections on urban materialities have to offer for urban history The contributing writers approach to literary narratives and materialities in urban history is summarised within the conceptualisation materiality in of literature the way in which literary narratives at once refer to the material world and actively partake in the material construction of the world This book takes a geographically multipolar and multidisciplinary approach to discuss cities in the UK the US India South Africa Finland and France whilst examining a wide range of textual genres from the novel to cartoons advertising copy architecture and urban planning and archaeological writing In the process attention is drawn to narrative complexities embedded within literary fiction and to the dialogue between narratives and historical change The Materiality of Literary Narratives in Urban History has three areas of focus literary fiction as form of urban materiality literary narratives as social investigations of the material city and the narrating of silenced material lives as witnessed in various narrative sources

Silvertown John Tully, 2014 In 1889 Samuel Winkworth Silver s rubber and electrical factory was the site of a massive worker revolt that upended the London industrial district which bore his name Silvertown Once referred to as the OC Abyss by Jack London Silvertown was notorious for oppressive working conditions and the relentless grind of production suffered by its largely unorganized unskilled workers These workers fed up with their lot and long ignored by traditional craft unions aligned themselves with the socialist led OC New Unionism movement Their ensuing strike paralyzed Silvertown for three months The strike leaders including Tom Mann Ben Tillett Eleanor Marx and Will Thorne and many workers viewed the trade union struggle as part of a bigger fight for a OC co operative commonwealth OCO With this goal in mind they shut down Silvertown and in the process helped to launch a more radical modern labor

movement a Historian and novelist John Tully author of the monumental social history of the rubber industry *The Devil on the Cross* tells the story of the Silvertown strike in vivid prose He rescues the uprising overshadowed by other strikes during this period from relative obscurity and argues for its significance to both the labor and socialist movements And perhaps most importantly Tully presents the Silvertown Strike as a source of inspiration for today's workers in London and around the world who continue to struggle for better workplaces and the vision of a cooperative commonwealth

The Match Girl and the Heiress Seth Koven, 2016-04-19 How two extraordinary women crossed the Victorian class divide to put Christian teachings into practice in the slums of East London Nellie Dowell was a match factory girl in Victorian London who spent her early years consigned to orphanages and hospitals Muriel Lester the daughter of a wealthy shipbuilder longed to be free of the burden of money and possessions Together these unlikely soulmates sought to remake the world according to their own utopian vision of Christ's teachings *The Match Girl and the Heiress* paints an unforgettable portrait of their late nineteenth century girlhoods of wealth and want and their daring twentieth century experiments in ethical living in a world torn apart by war imperialism and industrial capitalism In this captivating book Seth Koven chronicles how each traveled the globe Nellie as a spinster proletarian laborer Muriel as a well heeled tourist and revered Christian peacemaker anticolonial activist and humanitarian Koven vividly describes how their lives crossed in the slums of East London where they inaugurated a grassroots revolution that took the Sermon on the Mount as a guide to achieving economic and social justice for the dispossessed Koven shows how they devoted themselves to Kingsley Hall Gandhi's London home in 1931 and Britain's first people's house founded on the Christian principles of social sharing pacifism and reconciliation and sheds light on the intimacies and inequalities of their loving yet complicated relationship *The Match Girl and the Heiress* probes the inner lives of these two extraordinary women against the panoramic backdrop of shop floor labor politics global capitalism counterculture spirituality and pacifist feminism to expose the wounds of poverty and neglect that Christian love could never heal

The Ashgate Research Companion to Modern Imperial Histories John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the

settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire
