Roger K. Lewis, 1998 Architect addresses issues and concerns of relevance to students choosing among different types of programme schools firms and architectural career paths and explores both the up side and the down side to the profession **Digital Poetics** Marjan Colletti, 2017-03-02 Digital Poetics celebrates the architectural design exuberance made possible by new digital modelling techniques and fabrication technologies By presenting an unconventional and original humanistic theory of CAD computer aided design the author suggests that beyond the generation of innovative engineering forms digital design has the potential to affect the wider complex cultural landscape of today in profound ways The book is organised around a synthetic and hybrid research methodology a contemporary propositional and theoretical discursive investigation and a design led empirical research Both methods inform a critical construct that deals with the nature forms and laws of digitality within a contemporary architectural discourse that affects practice and academia The chapters spiral at from towards around outside inwards and back inside out digitality its cognitive phenomena spatial properties and intrinsic capabilities to achieve or at least approach Digital Poetics The book presents speculative and small scale constructed projects that pioneer techniques

and experiments with common 3D and 4D software packages whereby the focus lies not on the drawing processes and mechanics but on the agency and impact the image its reading experience interpretation achieves on the reader and observer The book also features a preface by Fr d ric Migayrou a philosopher and curator and one of the most influential cultural engineers of the contemporary international architectural scene The book is linked to a website which contains a larger selection of images of some featured projects

The Collaborators: Interactions in the Architectural Design Process Gilbert Herbert, Mark Donchin, 2016-03-23 Illustrated by critical analyses of significant buildings including examples by such eminent architects as Adler and Sullivan Erich Mendelsohn and Louis Kahn this book examines collaboration in the architectural design process over a period ranging from the mid 19th century to the late 1960s The examples chosen located in England the United States Israel and South Africa are of international scope They have intrinsic interest as works of architecture and illustrate all facets of collaboration involving architects engineers and clients Prior to dealing with the case studies the theoretical framework is set in three introductory essays which discuss in general terms the organizational implications of partnerships associations and teams the nature of interactions between architect and engineer and cooperation and confrontation in the relationship between architect and client From this original standpoint the interactive role of the designers it examines and reinterprets such well known buildings as the Chicago Auditorium and the Kimbell Art Museum The re evaluation of St Pancras Station and its hotel questions common presumptions about the separation of professional roles played by its engineer and architect The account of the troubled history of Mendelsohn s project for the first Haifa Power House highlights the difficulties that arise when a determined and eminent architect confronts a powerful and demanding client In a later era the examination of the John Moffat Building which is less well known but deserving of wider recognition reveals how the fruitful collaboration of multiple architects can result in a successful unified design These case studies comprise a wide range of programmes challenges personalities and interactions Ultimately in five different ways in five different epochs and in five different circumstantial and cultural contexts this book shows how the dialogue between the players in the design process resonates upo

The Crit Rosie Parnell, Rachel Sara, Charles Doidge, Mark L. Parsons, 2007 In this volume students defend their ideas drawings and models in open forum before staff and fellow students This book is by students for students to help them prepare for more creative relationships with future collaborators

Entering Architectural Practice James Tait, 2020-11-30 Featuring exclusive interviews with the internationally renowned architects Kengo Kuma Alberto Campo Baeza pela Videcnik OFIS Fernanda Canales Jonathan Sergison Sergison Bates and Jane Hall Assemble Entering Architectural Practice is a practical and honest guide for architecture students entering the world of architectural practice There is often a disconnection between what you are taught in architecture school and the actual practice of architecture in the workplace As both a practising architect and architecture school tutor the author has first hand experience of this disconnection and so helps students bridge this divide between academia and practice Focused on

providing industry insight dispelling myths and above all providing a combination of reality and hope to students of architecture entering the workplace the book is beautifully and richly illustrated providing a compelling visual story alongside the invaluable information it imparts Serious but enjoyable thoroughly researched but highly approachable this book is simply essential reading for every individual about to embark on a career in practice
