A Public Relations Blueprint One That Works Today:

Public Relations in Asia Pacific Mary M. Devereux, Anne Peirson-Smith, 2011-12-08 Public Relations in Asia Pacific reflects the growing professionalism in the practice of public relations in the world's fastest expanding economy. It is a carefully drawn road map both strategically and tactically for all manner of entities for profit and not for profit on how to establish and maintain effective relationships with their numerous stakeholders. Particularly insightful are the many examples of public relations in action within the Asia Pacific region. It is a must read for those interested in public relations careers and those new to the profession and it is a first rate refresher for the established professional. Harold Burson Founding Chairman Burson Marsteller Worldwide. Mary Devereux and Anne Peirson Smith have combined their considerable talents and experience to produce a bible of how public relations is and should be practiced in the Asia Pacific. One of its many virtues is that it debunks the myth that PR is just one long lunch hosted by caricature Svengalis and Spin Doctors. Rather it sets the profession in a cultural context that will be valuable to those starting at PR 101 professionals and corporate executives who want to know how truth can be well told with all due credit to McCann Erickson, Kerry McGlynn, Special Adviser Corporate Communication Department Cathay Pacific Airways. As greater social pluralism, stakeholder influence and internet driven consumer sophistication and empowerment grow relentlessly across nearly all Asian societies, Public Relations in Asia Pacific is a timely guide to the critical role of good public relations. Clear, helpful and with a wealth of good examples of how best practice PR in action can make real and tangible contributions to governments, businesses, NGOs as well as to ordinary people, this is essential reading for anyone concerned with how to communicate well in the world's fastest growing economic region. Tim Sutton, Chairman Asia Pacific Weber Shandwick. In an increasingly globalized world, public relations practices and strategies become critical for organizations to communicate effectively to their diverse audiences worldwide. This book is therefore an extremely timely and relevant contribution to PR students and practitioners in the Asia Pacific region as it provides not only a comprehensive overview of the essential concepts and skills of public relations but also specific case studies which illustrate tactical uses of public relations across a wide range of issues and countries. In my opinion, this book fills a major gap in the understanding of public relations concepts and practices and will constitute a fundamental resource for all those who aspire to excel within the field. Dr. Indrajit Banerjee, Secretary General Asian Media Information and Communication Centre (AMIC).

Internationalizing the Communication Curriculum in an Age of Globalization Paaige Turner, Soumia Bardhan, Tracey Quigley Holden, Eddah Mutua, 2019-12-09 Globalization and the resulting internationalization of universities is driving change in teaching, learning and what it means to be educated. This book provides exemplars of how the Communication discipline and curriculum are responding to the demands of globalization and contributing to the internationalization of higher education. Communication as a discipline provides a strong theoretical and methodological framework for exploring the benefits, challenges and meanings of globalization. The goal of this book therefore is to facilitate

internationalization of the communication discipline in an era of globalization Section one discusses the theoretical perspectives of globalism internationalization and the current state of the Communication discipline and curriculum Section two offers a comprehensive understanding of the role ways and impact of internationalizing teaching learning and research in diverse areas of study in Communication including travel programs and initiatives to bring internationalization to the classroom The pieces in this section will include research based articles case studies analytical reviews that exam key questions about the field and themed pieces for dialogue debate on current and future teaching and learning issues related to internationalizing the Communication discipline curriculum Section three provides an extensive sampling of materials and resources for immediate use in internationalization in communication studies sample syllabi activities examples and readings will be included In sum our book is designed to enable communication curriculum and communication courses in other disciplines to be internationalized and to offer different approaches to enable faculty students and administrators to incorporate and experience an internationalized curriculum regardless of time and financial limitations This book is notable as a professional development resource for individuals both inside and outside the communication discipline who wish to incorporate a global perspective into their research and classrooms
