A Mothers Ordeal One Womans Fight Against Chinas One Child Policy:

A Mother's Ordeal Steven W. Mosher, 1993 Disturbed by a series of harrowing birth control experiences Chi An applied for a visa to join her husband who was studying at a university in the U S Not long after she arrived in America the tables were turned Chi An found herself pregnant Since Chi An and her family planned to return to China she was forced to seek permission from Chinese officials to have a second child The Chinese authorities responded with a resounding no insisting that Chi An fix this problem as soon as possible After much anguished debate Chi An and her husband decided to cut their ties to their homeland and applied to the U S government for asylum America was not responsive and instead initiated deportation procedures China expert Steven Mosher stepped in helping Chi An win her case and ultimately effecting a policy change that protects families in similar situations *A Mother's Ordeal* Steven W. Mosher, 1995 [Behind the Silence](#) Jing-Bao Nie, 2005 *Behind the Silence* is the first in depth work in any language to explore the diverse perspectives of mainland Chinese regarding induced abortion and fetal life in the context of the world's most ambitious and intrusive family planning program Through his investigation of public silence official standpoints forgotten controversies from the imperial era popular opinions women's personal stories doctors narratives and the problem of coerced abortion Nie Jing Bao brings to light a surprising range of beliefs concerning fetal life and the morality of abortion yet finds overall an acceptance of national population policies China's internal plurality the author argues must be taken seriously if the West is to open a fruitful cross cultural dialogue Visit our website for sample chapters **Population Control** Steven Mosher, 2017-07-05 For over half a century policymakers committed to population control have perpetrated a gigantic costly and inhumane fraud upon the human race They have robbed people of the developing countries of their progeny and the people of the developed world of their pocketbooks Determined to stop population growth at all costs those Mosher calls population controllers have abused women targeted racial and religious minorities undermined primary health care programs and encouraged dictatorial actions if not dictatorship They have skewed the foreign aid programs of the United States and other developed countries in an anti natal direction corrupted dozens of well intentioned nongovernmental organizations and impoverished authentic development programs Blinded by zealotry they have even embraced the most brutal birth control campaign in history China's infamous one child policy with all its attendant horrors There is no workable demographic definition of overpopulation Those who argue for its premises conjure up images of poverty low incomes poor health unemployment malnutrition overcrowded housing to justify anti natal programs The irony is that such policies have in many ways caused what they predicted a world which is poorer materially less diverse culturally less advanced economically and plagued by disease The population controllers have not only studiously ignored mounting evidence of their multiple failures they have avoided the biggest story of them all Fertility rates are in free fall around the globe Movements with billions of dollars at their disposal not to mention thousands of paid advocates do not go quietly to their graves Moreover many in the movement are not content

to merely achieve zero population growth they want to see negative population numbers In their view our current population should be reduced to one or two billion or so Such a goal would keep these interest groups fully employed It would also have dangerous consequences for a global environment **Margaret Sanger's Eugenic Legacy** Angela Franks,2014-12-24

Margaret Sanger the American birth control and population control advocate who founded Planned Parenthood stands like a giant among her contemporaries With her dominating yet winning personality she helped generate shifts of opinion on issues that were not even publicly discussed prior to her activism while her leadership was arguably the single most important factor in achieving social and legislative victories that set the parameters for today s political discussion of family planning funding population control aid and even sex education This work addresses Sanger s ideas concerning birth control eugenics population control and sterilization against the backdrop of the larger eugenic context **Paradise Redefined** Vanessa

Fong,2011-08-01 This book picks up where author Vanessa Fong left off in *Only Hope* Coming of Age under China s One Child Policy Stanford 2004 and continues by telling the stories of the Chinese youth who left China in their teens and 20s to study in Australia Europe Japan New Zealand North America or Singapore Fong examines the expectations and experiences of Chinese students who go abroad in search of opportunity and the factors that cause some to return to China and others to stay abroad *Reproductive Freedom, Torture and International Human Rights* Ronli Sifris,2013-12-13 This book

contributes to a feminist understanding of international human rights by examining restrictions on reproductive freedom through the lens of the right to be free from torture and other cruel inhuman or degrading treatment Ronli Sifris challenges the view that torture only takes place within the traditional paradigm of interrogation punishment or intimidation of a detainee arguing that this traditional construction of the concept of torture prioritises the experiences of men over the experiences of women given that the pain and suffering from which women disproportionately suffer frequently occurs outside of this context She does this by conceptualising restrictions on women s reproductive freedom within the framework of the right to be free from torture The book considers the gendered nature of international law and the gender dimensions of the right to be free from torture It examines the extension of the prohibition of torture to encompass situations beyond the traditional detainee context in recent years to encompass situations such as rape and female genital mutilation It goes on to explore in detail whether denying access to abortion and involuntary sterilization constitutes torture or other cruel inhuman or degrading treatment under international law The book looks at whether limitations on reproductive freedom meet the determining criteria of torture which are severe pain or suffering being intentionally inflicted being based on discrimination linked in some way to a State official whether they constitute lawful sanctions and the importance of the concept of powerlessness In doing so the book also highlights how this right may be applicable to other gender based abuses including female genital mutilation and how this right may be universally applied to allow women worldwide the right to reproductive freedom *Chosen* Donna Steichen,2009 The twenty three men and women who tell their conversion stories in these pages
