Inside High School Reform Jordan E. Horowitz, California Academic Partnership Program, 2005 What happens when some of the lowest performing high schools in the state of California make a commitment to reform themselves This book goes inside the reform efforts of 28 high schools where educators collaborated to fundamentally change expectations for students in effect to prepare all students for postsecondary education By challenging the status quo teachers and administrators set out to strengthen their delivery of services so that all students especially those traditionally denied access to college would leave their care with more options for college and for life Reported here are the conclusions from formal evaluations over the past ten years of high school reform shepherded by the California Academic Partnership Program CAPP CAPP schools are each funded for three to five years with grants of about 100 000 a year to make fundamental changes for their students As these schools discovered not all changes are equally valuable but some are simply essential In the words of the educators themselves and through the perspectives of CAPP advisors who monitored the programs Inside High School Reform lays out some of the apparently universal lessons of making the reform changes that matter
