Apple Watch covers all Apple Watch models through Series 10 and Apple Watch Ultra 2 as well as all the new features introduced in watchOS 11. Jeff walks you through getting to know the Apple Watch including how to pick one out if you haven't already along with topics that teach you how to navigate among the watch's screens with the physical controls, taps on the screen, and Siri. You'll also find advice on customizing watch faces and sharing them with others, taking advantage of the electrocardiogram (ECG) capability, blood oxygen sensor, and temperature sensor on supported models, getting the notifications you want, handling text and voice communications using Apple's core apps, and monitoring your heart rate, hearing, and monthly cycle to improve your overall health. A final chapter discusses taking care of your Apple Watch including recharging, restarting, resetting, and restoring. Among the many topics covered in the book are Apple Watch Fundamentals, Picking out and setting up your own Apple Watch, covers models up through Series 10 and Apple Watch Ultra 2, How to adapt to the numerous changes in watchOS 11, Making watch face complications work for you, Using Control Center and the greatly improved Smart Stack, Using Siri on your watch for a wide variety of tasks, Adding apps to the watch via your iPhone or the watch's built-in App Store, Resetting a messed-up Apple Watch and force quitting an app, Health, Fitness, and Safety Features, Tracking your exercise and analyzing your training load, Doing workouts with Apple Fitness, Pausing your activity rings and setting different goals for each day of the week, Using your watch to monitor sleep data including checking for sleep apnea with recent models, Using health-related features such as the blood oxygen sensor and medication reminders plus the ECG, Cycle Tracking, and Noise apps, Detecting falls and car crashes and automatically calling for help, Communication, Placing and receiving phone calls on your watch, Using the Walkie Talkie feature to chat with other Apple Watch owners, Communicating in other languages using the Translate app, Sending default and customized text messages, tapbacks, threaded replies, and even money via Messages, Seeing email from only certain people, Interacting with Other Devices, Finding people, devices, and items, Controlling your home with HomeKit-compatible devices, Understanding how the watch interacts with your iPhone including how to control your watch with your iPhone, Triggering your iPhone's camera remotely using the watch, Controlling an Apple TV or Music on a Mac with the Remote app, Unlocking a Mac and authenticating certain actions with your watch, Getting Stuff Done, Getting navigation directions and using the Compass app, Adding calendar events and reminders, Loading your watch with photos and using them to create new watch faces, Paying at contactless terminals using Apple Pay, Putting tickets on your watch.

Apple Watch Dwight Spivey, 2015-11-03. applications that speaks to true productivity relating to professionals and athletes **Take Control of Apple Media Apps**
Kirk McElhearn, 2024-12-13 Discover Apple's Music TV Podcasts and Books apps Version 1.0 published December 13, 2024
Are you bewildered with the apps that replaced iTunes on your Apple devices? Befuddled by Apple Music? Confused about whether or how to sync your media to the cloud? Wondering how to view movies and TV shows on each of your devices? Wishing for a way to organize your podcasts? In this book, Kirk McElhearn explains not only how Apple's media apps work but also how normal people can make the Music TV Podcasts and Books apps do just what they want. In 2019, Apple replaced iTunes for Mac, iOS, and iPadOS with three apps: Music, TV, and Podcasts, with audiobooks handled by the Books app. Take Control of Apple Media Apps is your guide to this post-iTunes world. Covers macOS 15 Sequoia, iOS 18, and iPadOS 18 or later, plus Apple Watch, Apple TV, and HomePod. Expanding on his earlier title, Take Control of macOS Media Apps, Kirk McElhearn shows you how to manage your music, videos, podcasts, and audiobooks on all your Apple devices. Whether you just want to play your media or you want to go deeper with special features like Apple Music Genius, Shuffle, Playing Next, and iTunes Match, this comprehensive guide has the answers you need. Kirk also looks at various ways of bringing audio and video into Apple's media apps, tagging music and videos so you can find them more easily, later creating playlists, sharing your library over a home network, and accessing your media libraries on your iPhone, iPad, Apple Watch, Apple TV, or HomePod. Here's just a taste of what the book covers:
Music Play Music: Learn the basics of playing audio and even music videos in the Music app. You'll also learn about making quick playlists with Genius and Playing Next, the best ways to search for the music you want to hear, how to stream music to other devices in your home, and how to view lyrics while tunes play. Stream Music: Use Apple Music, a paid service, to listen to any of 100 million tracks. Or listen to live broadcasts from Apple Music Radio, including Apple Music 1, Apple Music Hits, Apple Music Country, and other live radio stations. View Your Music: Learn how to view your music library and work with contextual menus in the Music app. Organize Your Music: Make a simple playlist of romantic songs, workout songs, or whatever theme you like. You'll learn how to create smart playlists that, for example, comprise only your 5-star faves or only tunes you haven't heard recently, and how to transfer playlists to your Apple Watch. You'll also find help with operational issues like eliminating duplicates from your music library. Store Your Music Library in the Cloud: What are the pros and cons of using the Sync Library setting to store your music in the cloud? How do Music and iTunes Match figure out whether to upload your music when that setting is enabled? How can I make sure I have all the media I want on each of my Apple devices? You'll get answers to these questions and more. Tag Your Music: Tags are bits of information, also known as metadata, that can describe your media. Learn which tags to bother changing, the best ways to add lyrics and album art, how to rate songs with stars, favorites, or both, and what other types of metadata you can use. Meet Apple Music Classical: Apple Music Classical is a special app for iPhone that helps lovers of classical music enjoy their favorite composers, performers, and pieces without the limitations of the standard Music app. TV, Podcasts, and Books: View Movies and

TV Shows Use the TV app with or without the Apple TV service to watch videos including those purchased or rented from Apple and those you add yourself Listen to and Watch Podcasts You ll be sampling and subscribing to podcasts in no time with Kirk s advice plus you ll pick a method of syncing podcast episodes to your iPhone or iPad and even learn about creating your own podcast station Listen to Audiobooks Discover how to download and play audiobooks in the Books app and how to manage your audiobook library Note This book does not cover using ebooks in Books All Media Apps Buy or Rent Media from Apple You can buy music TV shows movies books and audiobooks directly from Apple and rent movies from within the various media apps Find tips on shopping for media and get advice on sharing your purchases with family members and among your various Apple devices Manage and Share Media Files Whether you want to casually share a playlist from your laptop when visiting a friend or you want to make all your media available on all your home s computers you ll find out how Media Sharing and Home Sharing make sharing possible You ll also learn how to manage massive media libraries and store media files on external drives Put It on Your Wrist Enjoy your favorite music podcasts and audiobooks using your Apple Watch or on a Big Screen Use your Apple TV not only for TV shows and movies but also for music and work with a shared library
