Bauhaus Magdalena Droste:

The Bauhaus, 1919-1933 Magdalena Droste, Bauhaus-Archiv, 2006 A classic prize winning novel about an epic migration and a lone woman haunted by the past in frontier Waipu In the 1850s a group of settlers established a community at Waipu in the northern part of New Zealand They were led there by a stern preacher Norman McLeod The community had followed him from Scotland in 1817 to found a settlement in Nova Scotia then subsequently to New Zealand via Australia Their incredible journeys actually happened and in this winner of the New Zealand Book Awards Fiona Kidman breathes life and contemporary relevance into the facts by creating a remarkable fictional story of three women entangled in the migrations Isabella her daughter Annie and granddaughter Maria McLeod s harsh leadership meant that anyone who ran counter to him had to live a life of secrets The secrets encapsulated the spirit of these women in their varied reactions to McLeod s strict edicts and connect the past to the present and future Bauhaus. The Bauhaus and Public Relations Patrick Rössler, 2014-01-10 This innovative study considers one of the most important art and design movements of the 20th century the Bauhaus in conjunction with current research in public relations and organizational communication elaborating on the mechanisms of internal and external communication available to influence the stakeholders in politics society industry and the art world In a movement where a substantial share of productivity ran in measures to highlight the public value of the institution funded by the taxpayer the directors and other persons in charge the Bauhaus developed comprehensive strategies to communicate their messages to a variety of target

groups such as politicians and economic leaders intellectuals and other artists current and prospective students and the general public To achieve this goal the Bauhaus anticipated many instruments of modern public relations and corporate communications including press releases staging of events media publications community building lobbying and the creation of nationwide public presence R ssler argues that as an organization the Bauhaus cultivated corporate behavior and most prominently a corporate design which unfolded revolutionary power The basic achievements of new typography a label coined at the Bauhaus determine visual communication to this day while the Bauhaus moved from an institutional organization to a community Beginning with an overview of the Bauhaus corporate identity and a close examination of the respective directors roles for internal and external communication this book visits exhibitions events and the media attention they evoked in newspapers and contemporary periodicals along with media products designed at the Bauhaus such as magazines books and bank notes

Bauhaus Weaving Theory T'ai Smith,2014-11-01 The Bauhaus school in Germany has long been understood through the writings of its founding director Walter Gropius and well known artists who taught there such as Wassily Kandinsky and L szl Moholy Nagy Far less recognized are texts by women in the school s weaving workshop In Bauhaus Weaving Theory T ai Smith uncovers new significance in the work the Bauhaus weavers did as writers From colorful expressionist tapestries to the invention of soundproofing and light reflective fabric the workshop s innovative creations influenced a modernist theory of weaving In the first careful examination of the writings of Bauhaus weavers including Anni Albers Gunta St zl and Otti Berger Smith details how these women challenged assumptions about the feminine nature of their craft As they harnessed the vocabulary of other disciplines like painting architecture and photography Smith argues the weavers resisted modernist thinking about distinct media In parsing texts about tapestries and functional textiles the vital role these women played in debates about medium in the twentieth century and a nuanced history of the Bauhaus comes to light Bauhaus Weaving Theory deftly reframes the Bauhaus weaving workshop as central to theoretical inquiry at the school Putting questions of how value and legitimacy are established in the art world into dialogue with the limits of modernism Smith confronts the belief that the crafts are manual and technical but never intellectual arts

Bauhaus, 1919-1933 Magdalena Droste,2016 Founded in Weimar in 1919 the Bauhaus school developed a revolutionary approach that fused fine art with craftsmanship and engineering in everything from architecture to furniture typography and even theater During its fourteen years of existence Bauhaus managed to change the faces of art architecture and industrial design forever

Bauhaus Michael Siebenbrodt,Lutz Schöbe,2015-09-15 The Bauhaus movement meaning the house of building developed in three German cities it began in Weimar between 1919 and 1925 then continued in Dessau from 1925 to 1932 and finally ended in 1932 1933 in Berlin Three leaders presided over the growth of the movement Walter Gropius from 1919 to 1928 Hannes Meyer from 1928 to 1930 and Ludwig Mies van der Rohe from 1930 to 1933 Founded by Gropius in the rather conservative city of Weimar the new capital of Germany which had just been defeated by the other European nations

in the First World War the movement became a flamboyant response to this humiliation Combining new styles in architecture design and painting the Bauhaus aspired to be an expression of a generational utopia striving to free artists facing a society that remained conservative in spite of the revolutionary efforts of the post war period Using the most modern materials the Bauhaus was born out of the precepts of William Morris and the Arts and Crafts movement introducing new forms inspired by the most ordinary of objects into everyday life The shuttering of the center in Berlin by the Nazis in 1933 did not put an end to the movement since many of its members chose the path of exile and established themselves in the United States Although they all went in different directions artistically their work shared the same origin The most influential among the Bauhaus artists were Anni Albers Josef Albers Marianne Brandt Marcel Breuer Lyonel Feininger Ludwig Hilberseimer Paul Klee Wassily Kandisky and Lothar Schreyer Through a series of beautiful reproductions this work provides an overview of the Bauhaus era including the history influence and major figures of this revolutionary movement which turned everyday life into art

Bauhaus Bodies Elizabeth Otto, Patrick Rössler, 2019-01-24 A century after the Bauhaus s founding in 1919 this book reassesses it as more than a highly influential art architecture and design school In myriad ways emerging ideas about the body in relation to health movement gender and sexuality were at the heart of art and life at the school Bauhaus Bodies reassesses the work of both well known Bauhaus members and those who have unjustifiably escaped scholarly scrutiny its women in particular In fourteen original cutting edge essays by established experts and emerging scholars this book reveals how Bauhaus artists challenged traditional ideas about bodies and gender Written to appeal to students scholars and the broad public Bauhaus Bodies will be essential reading for anyone interested in modern art architecture design history and gender studies it will define conversations and debates during the 2019 centenary of the Bauhaus s founding and beyond
