A New World Englands First View Of America:

A New World Kim Sloan, Joyce E. Chaplin, Christian F. Feest, Ute Kuhlemann, 2007 New World England's First View of America A New World Kim Sloan, 2007 This beautiful book reproduces in full the famous and rarely seen British Museum collection of drawings and watercolours made by John White who in 1585 accompanied a group of English settlers sent by Sir Walter Raleigh to found a colony in Virginia along the tidewaters of coastal North Carolina Whites duties included making visual records of everything then unknown in England including plants animals and birds as well as the human inhabitants especially their dress weapons tools and ceremonies The collection also includes his watercolours of Florida and Brazilian Indians and the Inuit encountered by Martin Frobisher In this landmark catalogue each work is reproduced in colour and is thoroughly described supplemented by engravings by Theodor de Bry and other comparable works The introduction is followed by three specially commissioned chapters covering John White himself the indigenous inhabitants and their historical context The book explores White's role as a colonist surveyor and artist who not only recorded the plants and animals but also provided a window on a now lost Native American culture and way of life A New World Kim Sloan, 2010-05 In 1585 John White joined a group of Englishmen to found a colony in Virginia along the tidewaters of coastal North Carolina This book reproduces the celebrated but rarely seen Brit Mus collection of watercolors made by this gentleman artist It also tells the story of his five voyages to Virginia and his role as Gov of the Lost Colony of Roanoke which preceded Capt John Smith's more successful settlement at Jamestown 20 years later Each watercolor is reproduced in color opposite its explanation supplemented by the famous de Bry engravings which spread his images throughout Europe as well as other works by contemporary and later artists The ensuing chapters place White and his work in their historical cultural and artistic context The Place of Stone Douglas Hunter, 2017-08-04 Claimed by many to be the most frequently documented artifact in American archeology Dighton Rock is a forty ton boulder covered in petroglyphs in southern Massachusetts First noted by New England colonists in 1680 the rock's markings have been debated endlessly by scholars and everyday people alike on both sides of the Atlantic The glyphs have been erroneously assigned to an array of non Indigenous cultures Norsemen Egyptians Lost Tribes of Israel vanished Portuguese explorers and even a prince from Atlantis In this fascinating story rich in personalities and memorable characters Douglas Hunter uses Dighton Rock to reveal the long complex history of colonization American archaeology and the conceptualization of Indigenous people Hunter argues that misinterpretations of the rock's markings share common motivations and have erased Indigenous people not only from their own history but from the landscape He shows how Dighton Rock for centuries drove ideas about the original peopling of the Americas including Bering Strait migration scenarios and the identity of the Mound Builders He argues the debates over Dighton Rock have served to answer two questions Who belongs in America and to whom does America belong *Blood, Faith and Iron: A dynasty of Catholic industrialists in sixteenth- and seventeenth-century England* Paul Belford, 2018-11-13

The Ironbridge Gorge is presented as the birthplace of the Industrial Revolution and so part of a national narrative of heroic Protestant individualism. However, this is not the full story. This book asserts that this industrial landscape was in fact created by an entrepreneurial Catholic dynasty over 200 years before the Iron Bridge was built. **Red States** Gina Caison, 2018-10-01. Red States uses a regional focus in order to examine the tenets of white southern nativism and Indigenous resistance to colonialism in the U S South. Gina Caison argues that popular misconceptions of Native American identity in the U S South can be understood by tracing how non Native audiences in the region came to imagine indigeneity through the presentation of specious histories presented in regional literary texts and she examines how Indigenous people work against these narratives to maintain sovereign land claims in their home spaces through their own literary and cultural productions. As Caison demonstrates, these conversations in the U S South have consequences for how present day conservative political discourses resonate across the United States. Assembling a newly constituted archive that includes regional theatrical and musical performances, pre Civil War literatures and contemporary novels, Caison illuminates the U S South's continued investment in settler colonialism and the continued Indigenous resistance to this paradigm. Ultimately, she concludes that the region is indeed made up of red states but perhaps not in the way readers initially imagine. *Canada before Confederation: Maps at the Exhibition* Chet Van Duzer, Lauren Beck, 2018-01-15. Each of the maps featured in this book was showcased in the exhibition *Canada before Confederation: Early Exploration and Mapping* which took place in several locations both in Canada and abroad in Fall of 2017. The authors provide a scholarly study highlighting the importance and unique features of each of these jewels of cartographic history with particular attention paid to how they demonstrate the development of Canadian identity at the same time that they reveal Indigenous knowledge of the lands now known as Canada. Sir Humphrey Gilbert and the Elizabethan Expedition Nathan J. Probasco, 2020-11-20. This book examines the 1583 voyage of Sir Humphrey Gilbert to North America. This was England's first attempt at colonization beyond the British Isles yet it has not been subject to thorough scholarly analysis for more than 70 years. An exhaustive examination of the voyage reveals the complexity and preparedness of this and similar early modern colonizing expeditions. Prominent Elizabethans assisted Gilbert by researching and investing in his expedition. The Printing Revolution was critical to their plans as Gilbert's supporters traveled throughout England with promotional literature proving England's claim to North America. Gilbert's experts used maps and charts to publicize and navigate while his pilots experimented with new navigating tools and practices. Though he failed to establish a settlement, Gilbert created a blueprint for later Stuart colonizers who achieved his vision of a British Empire in the Western Hemisphere. This book clarifies the role of cartography, natural science and promotional literature in Elizabethan colonization and elucidates the preparation stages of early modern colonizing voyages. **Richard Hakluyt and Travel Writing in Early Modern Europe** Professor Claire Jowitt, Dr Daniel Carey, 2012-09-01. Richard Hakluyt, best known as editor of *The Principal Navigations* 1589-1598, 1600, was a key figure in promoting early modern English colonial and

commercial expansion His work spanned every area of English activity and aspiration from Muscovy to America from Africa to the Near East and India to China and Japan providing up to date information and establishing an ideological framework for English rivalries with Spain Portugal France and the Netherlands This interdisciplinary collection of 24 essays brings together the best international scholarship on Hakluyt revising our picture of the influences on his work his editorial practice and his impact

Memory Lands Christine M. DeLucia, 2018-01-09 Noted historian Christine DeLucia offers a major reconsideration of the violent seventeenth century conflict in northeastern America known as King Philip's War providing an alternative to Pilgrim centric narratives that have conventionally dominated the histories of colonial New England DeLucia grounds her study of one of the most devastating conflicts between Native Americans and European settlers in early America in five specific places that were directly affected by the crisis spanning the Northeast as well as the Atlantic world She examines the war's effects on the everyday lives and collective mentalities of the region's diverse Native and Euro American communities over the course of several centuries focusing on persistent struggles over land and water sovereignty resistance cultural memory and intercultural interactions An enlightening work that draws from oral traditions archival traces material and visual culture archaeology literature and environmental studies this study reassesses the nature and enduring legacies of a watershed historical event
