Advanced Pre-Med Studies Parent Lesson Plan ,2013-08-01 Advanced Pre Med Studies Course Description Semester 1 From surgery to vaccines man has made great strides in the field of medicine Quality of life has improved dramatically in the last few decades alone and the future is bright But students must not forget that God provided humans with minds and resources to bring about these advances A biblical perspective of healing and the use of medicine provides the best foundation for treating diseases and injury In Exploring the History of Medicine author John Hudson Tiner reveals the spectacular discoveries that started with men and women who used their abilities to better mankind and give glory to God The fascinating history of medicine comes alive in this book providing students with a healthy dose of facts mini biographies and vintage illustrations It seems that a new and more terrible disease is touted on the news almost daily The spread of these scary diseases from bird flu to SARS to AIDS is a cause for concern and leads to questions such as Where did all these germs come from and how do they fit into a biblical world view What kind of function did these microbes have before the Fall Does antibiotic resistance in bacteria prove evolution How can something so small have such a huge deadly impact on the world around us Professor Alan Gillen sheds light on these and many other questions in The Genesis of Germs He shows how these constantly mutating diseases are proof for devolution rather than evolution and how all of these germs fit into a biblical world view Dr Gillen shows how germs are symptomatic of the literal Fall and Curse of creation as a result of man s sin and the hope we have in the coming of Jesus Christ Semester 2 Body by Design defines the basic anatomy and physiology in each of 11 body systems from a creationist viewpoint Every chapter explores the wonder beauty and creation of the human body giving evidence for creation while exposing faulty evolutionist reasoning Special explorations into each body system look closely at disease aspects current events and discoveries while profiling the classic and contemporary scientists and physicians who have made remarkable breakthroughs in studies of the different areas of the human body Within Building Blocks in Life Science you will discover exceptional insights and clarity to patterns of order in living things including the promise of healing and new birth in Christ Study numerous ways to refute the evolutionary worldview that life simply evolved by chance over millions of years The evolutionary worldview can be found filtered through every topic at every age level in

our society It has become the overwhelmingly accepted paradigm for the origins of life as taught in all secular institutions This dynamic education resource helps young people not only learn science from a biblical perspective but also helps them know how to defend their faith in the process Applied Science: Studies of God's Design in Nature Parent Lesson Planner ,2014-03-01 Applied Science Studies of God s Design in Nature Course Description This is the suggested course sequence that allows one core area of science to be studied per semester You can change the sequence of the semesters per the needs or interests of your student materials for each semester are independent of one another to allow flexibility Made in Heaven Science shamelessly steals from God s creation yet refuses to give God the glory Discover how the glow of a cat s eyes innovates road reflectors the naturally sticky inspirations for Velcro and barbed wire as well as a fly s ear the lizard s foot the moth s eye and other natural examples are inspiring improvements and new technologies in our lives Engineers and inventors have long examined God s creation to understand and copy complex proven mechanics of design in the science known as biomimicry Much of this inspiration is increasingly drawn from amazing aspects of nature including insects to plants to man in search of wisdom and insight We are surrounded daily by scientific advancements that have become everyday items simply because man is copying from God s incredible creation without acknowledging the Creator Champions of Invention The great minds of the past are still with us today in many ways Individuals who explored the natural world hundreds and thousands of years ago have given us a treasure of knowledge in all the sciences In this exciting series from educator author John Hudson Tiner short biographies of the world s most gifted thinkers will inspire the leaders of tomorrow Study the life of the forgotten inventor Joseph Henry whose exploration of electricity set the standard for later innovators Find out how a personal tragedy paved the way for Samuel F B Morse to put aside his painting and develop the telegraph These valuable learning guides will give students accurate accounts of lives from the halls of science and explain what those scientists believed about the world around them Discovery of Design From the frontiers of scientific discovery researchers are now taking design elements from the natural world and creating extraordinary breakthroughs that benefit our health our quality of life and our ability to communicate and even help us work more efficiently An exciting look at cutting edge scientific advances Discovery of Design highlights incredible examples that include How things like batteries human organ repair microlenses automotive engineering paint and even credit card security all have links to natural designs Innovations like solar panels in space unfurled using technology gleaned from beech tree leaves and optic research rooted in the photonic properties of opal gemstones Current and future research from the fields of stealth technology communications cosmetics nanotechnology surveillance and more Take a fantastic journey into the intersection of science and God s blueprints for life discovering answers to some of the most intricate challenges we face in a multi purpose educational supplement

Concepts of Biogeography & Astronomy Parent Lesson Planner ,2014-03-18 Concepts of Biogeography materials for each semester are independent of one another to allow flexibility Semester 1 Biogeography It has been said that our planet is

really just an insignificant speck in a vast universe but that's not true. In fact the conditions for life found on Earth are supremely unique and make our life here comfortable. This despite the reality that the world around us is also tainted and in need of careful calibration to continue. This book opens a window to the spectacular environments found on our planet from deserts to the tropics. Researcher and biologist Dr Gary Parker brings his vast knowledge of ecology to a teaching setting exploring and explaining ecosystems, population growth, habitats, adaptations, energy problems and much more. Learn about insect control in California, why mammals have fur and how sharks maintain friendships with small fish known as remora.

Exploring the World Around You brings the varieties of our planet's habitats alive to the reader.

Semester 2 Astronomy Think you know all there is to know about our solar system? You might be surprised at some of the amazing details that you find when you begin **Exploring the World of Astronomy**. From the rugged surface of the moon to the distant and mysterious constellations, this book provides an exciting educational tour for students of different ages and skill levels. Learn about a blue moon, the 400 year storm on Jupiter and what is meant by the zone of life. Discussion, ideas, questions and research opportunities help expand this great resource on observational astronomy into an unforgettable educational course for middle school to high school students.

Survey of Science Specialties Parent Lesson Plan, 2013-08-01

Survey of Science Specialties Course Description This is the suggested course sequence that allows two core areas of science to be studied per semester. You can change the sequence of the semesters per the needs or interests of your student. Materials within each semester are independent of one another to allow flexibility.

Quarter 1 Archaeology The **Archaeology Book** takes you on an exciting exploration of history and ancient cultures. You will learn both the techniques of the archaeologist and the accounts of some of the richest discoveries of the Middle East that demonstrate the accuracy and historicity of the Bible. You will unearth how archaeologists know what life was like in the past, why broken pottery can tell more than gold or treasure can, some of the difficulties in dating ancient artifacts, how the brilliance of ancient cultures demonstrates God's creation, history of ancient cultures including the Hittites, Babylonians and Egyptians, the early development of the alphabet and its impact on discovery, the numerous archaeological finds that confirm biblical history.

Quarter 2 Geology The **Geology Book** will teach what really carved the Grand Canyon, how thick the Earth's crust is, why the Earth is unique for life, the varied features of the Earth's surface from plains to peaks, how sedimentary deposition occurs through water, wind and ice, effects of erosion, ways in which sediments become sedimentary rock, fossilization and the age of the dinosaurs, the powerful effects of volcanic activity, continental drift theory, radioisotope and carbon dating, geologic processes of the past. Our planet is a most suitable home. Its practical benefits are also enhanced by the sheer beauty of rolling hills, solitary plains, churning seas and rivers and majestic mountains all set in place by processes that are relevant to today's entire population of this spinning rock we call home.

Quarter 3 Cave Explore deep into the hidden wonders beneath the surface as cave expert Dr Emil Silvestru takes you on an illuminating and educational journey through the mysterious world of caves. Discover the beautiful thriving ecology

unique animals and fragile balance of this little seen ecosystem in caves from around the globe The Cave Book will teach you about a creationary model for how caves form a history of how caves have been used by humans for shelter and worship how old caves really are the surprising world of Neanderthals and their connection to modern humans how to make a stone axe and about early tools just how long it really takes for cave formations to form unusual animals that make caves their home examples of how connected caves are to mythology of many cultures the climate and geologic processes and features of caves and karst rocks the process by which ice caves form exploration hazards and record setting caves how caves form and features above and below the surface Quarter 4 Fossil Fossils have fascinated humans for centuries But where did they come from and how long have they been around These and many other questions are answered in this remarkable book The Fossil Book will teach you about the origin of fossils how to start your own fossil collection what kinds of fossils can be commonly found the age of fossils how scientists find and preserve fossils how to identify kinds of fossils how the Flood affected fossil formation the Geologic Column Diagram the difference between evolutionists and creationists views on fossils the four Cs of biblical creation the different kinds of rocks fossils are found in coal and oil formation Learning about fossils their origins and how to collect them can be both fun and educational
