Periodic Feedback Stabilization for Linear Periodic Evolution Equations Gengsheng Wang,Yashan Xu,2017-02-08 This book introduces a number of recent advances regarding periodic feedback stabilization for linear and time periodic evolution equations First it presents selected connections between linear quadratic optimal control theory and feedback stabilization theory for linear periodic evolution equations Secondly it identifies several criteria for the periodic feedback stabilization from the perspective of geometry algebra and analyses respectively Next it describes several ways to

design periodic feedback laws. Lastly, the book introduces readers to key methods for designing the control machines. Given its coverage and scope, it offers a helpful guide for graduate students and researchers in the areas of control theory and applied mathematics.
