

# AP Gov Constitution Review Guide

Directions: These questions are an outline of the parts of the Constitution you will need to review for the Mock and AP Exam. It goes over the three branches, their powers, and checks and balances as well as the Amendments and important clauses in those amendments.

In order to complete this assignment use the [Interactive Constitution](#) and/or any resources you like. **Please use your own words and do not copy and paste each response.**

## Part I: STRUCTURE OF THE CONSTITUTION

1. Read each article of the Constitution. Summarize the general purpose or subject of each article in one sentence in the chart below. Do not just copy down each Article.

|             |                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Article I   | Put one creates the legislative branch and includes all the powers granted to the legislative branch. Section 2 and Section 3 of Article I highlights the powers of the Senate and House of Representatives. Section 4 Through 6. Includes situations correlated to the House of Representatives and Senate.                                                                                                                                                  |
| Article II  | Article two creates the executive branch and includes all the powers that are granted to the executive branch. One also includes presidential elections and the aspects, as well as the creation of the Electoral College. Section 2 through three talk about presidential powers like the power to pardon.                                                                                                                                                   |
| Article III | Article 3 creates the judicial branch and the powers granted to the judicial branch. Article Three also gives Congress the power to create federal courts. It also highlights the different Jurisdictions that are granted to different courts.                                                                                                                                                                                                               |
| Article V   | Article 4 Include certain provisions that talk about the structure of the federal government and the power that is distributed between the state and national government. Tha. Section one and two talk about state relationships, like how one state must return a criminal to the state where the crime was committed when the. Reminder was out of state and section three to four talk about the relationships between the state and national government. |

2. Identify two powers denied to Congress in the Constitution.

No bill or ex facto law will be passed

3. How does the House of Representatives determine the rules of proceedings (the ability to have debates, amendments, etc.)?

A rep sponsors a bill and the bill is then assigned for a committee to study, then if released by the committee the bill is put on the floor for the house of reps to debate on it

web jul 21 2015 1 answer sorted by 0 in order to answer your question you should add the following condition i xn yn 255 i xn yn 1 i is the image xn yn are neighbour coordinate being processed so when the algorithm wants to process a neighbour it

should take in consideration the condition first

*github khthinios regiongrowing a simple region growing* - Nov 04 2022

web a simple region growing algorithm for matlab srregiongrowing2 a 2d rga that grows until all neighbouring cells are lower than a certain threshold eg srregiongrowing2 matrix threshold seed cell matrix a 2d matrix with numerical values threshold a numerical value seed cell position of the seed cell using the absolute index in the matrix

**seeded region growing method matlab answers matlab** - Apr 09 2023

web may 12 2011 answers 1 jonas reber on 12 may 2011 1 seeded region growing method learn more about matlab image processing seeded region growing method

*matlab region growing algorithm giving improper results stack overflow* - Apr 28 2022

web feb 11 2021 1 answer region growing is a very simple algorithm in short it says if the next pixels is less than reg maxdist in pixel value than the current pixel its part of the region otherwise its not your image is very smooth that means that pixel values change slowly in adjacent pixels thus region growing algorithms will take them in

**region growing 2d 3d grayscale file exchange matlab** - May 10 2023

web aug 15 2011 a recursive region growing algorithm for 2d and 3d grayscale image sets with polygon and binary mask output the main purpose of this function lies on clean and highly documented code usage p j regiongrowing cim initpos thresval maxdist tfmean tffillholes tfsimplify inputs cim 2d 3d grayscale matrix
