

1. How is goodwill arising on the acquisition of an associate dealt with in the financial statements?
 - (a) It is amortized.
 - (b) It is impairment tested individually.
 - (c) It is written off against profits or loss.
 - ☒ (d) Goodwill is not recognized separately within the carrying amount of the investment.
2. What should happen when the financial statements of an associate are not prepared to the same date as the investor's accounts?
 - (a) The associate should prepare financial statements for the use of the investor at the same date as those of the investor.
 - (b) The financial statements of the associate prepared up to a different accounting date will be used as normal.
 - ☒ (c) Any major transactions between the date of the financial statements of the investor and that of the associate should be accounted for.
 - (d) As long as the gap is not greater than three months, there is no problem.
3. If the investor ceases to have significant influence over an associate, how should the investment be treated?
 - (a) It should still be treated using equity accounting.
 - ☒ (b) It should be treated in accordance with IAS 39.
 - (c) The investment should be shown at the date at which the investor ceases to have significant influence.
 - (d) The investment should be treated at cost.
4. If there is any excess of the investor's share of the net fair value of the associate's identifiable assets and contingent liabilities over the cost of the investment, that is, negative goodwill, how should that excess be treated?
 - (a) It should be included in the carrying amount of the investment.
 - ☒ (b) It should be written off against retained earnings.
 - (c) It should be included as income in the determination of the investor's share of the associate's profits or loss for the period.
 - (d) It should be disclosed separately as part of the investor's equity.
5. What accounting method should be used for an investment in an associate where it is operating under severe long-term restrictions—for example where the government of a company has temporary control over the associate?
 - (a) IAS 39 should be applied.
 - ☒ (b) The equity method should be applied if significant influence can be exerted.
 - (c) The associate should be shown at cost.
 - (d) Proportionate consolidation should be used.
6. An investor sells inventory for cash to a 25% associate. The inventory cost the investor GHS 6 million and is sold to the associate for GHS 10 million. None of the inventory has been
