Asian Perspectives And Evidence On Health Promotion And Education:

Asian Perspectives and Evidence on Health Promotion and Education Takashi Muto, Eun Woo Nam, Toshitaka Nakahara, 2010-12-03 Globalization and information technology have caused many health problems mental health issues like depression and lifestyle related disease like diabetes and obesity To cope with these health issues health promotion and education are desperately needed Convincing policy decision makers to invest in health promotion and education programs it is needed to show its effectiveness Health promotion and education professionals are expected to construct evidence of health promotion and education Most of such evidence has been produced in the US and European countries Because socio economic conditions differ between the Asia and Western countries we cannot depend on such evidence to implement adequate health promotion and education in our region We must produce and accumulate our own evidence based on Asian perspectives Health Promotion Ruth Cross, Sally Foster, Ivy O'Neil, Simon Rowlands, Louise Warwick-Booth, James Woodall, 2020-12-07 Health promotion is a key mechanism in tackling the foremost health challenges faced by developing and developed nations Covering key concepts theory and practical aspects this new edition continues to focus on the themes central to health promotion practice worldwide Social determinants equality and equity policy and health working in partnerships sustainability evaluation and evidence based practice are detailed and the critical application of health promotion to practice is outlined throughout the book Beginning with the foundations of this important area in this new edition the authors then place greater emphasis on the role of power within health and communities Drawing upon international settings and teaching experience in the global North and South it finishes with a summary of the future directions of professional health promotion practice Placing a strong emphasis on a global context this book provides an accessible and engaging resource for postgraduate students of health promotion public health nursing and related subjects health practitioners and NGOs *Healthy Cities* Evelyne de Leeuw, Jean Simos, 2017-02-16 This forward looking resource recasts the concept of healthy cities as not only a safe pleasant and green built environment but also one that creates and sustains health by addressing social economic and political conditions It describes collaborations between city planning and public health creating a contemporary concept of urban governance a democratically informed process that embraces values like equity Models critiques and global examples illustrate institutional change community input targeted assessment and other means of addressing longstanding sources of urban health challenges In these ambitious pages healthy cities are rooted firmly in the worldwide movement toward balanced and sustainable urbanization developed not to disguise or displace entrenched health and social problems but to encourage and foster solutions Included in the coverage Towards healthy urban governance in the century of the city li Healthy cities emerge Toronto Ottawa Copenhagen The role of policy coalitions in understanding community participation in healthy cities projects Health impact assessment at the local level The logic of method for evaluating healthy cities Plus extended reports on healthy cities and communities in North and Latin America

Africa Europe Asia Oceania and the Middle East Healthy Cities will interest and inspire community leaders activists politicians and entrepreneurs working to improve health and well being at the local level as well as public health and urban development scholars and professionals *Sport and Body Politics in Japan* Wolfram Manzenreiter,2013-08-15 There is more to Japanese sport than sumo karate and baseball This study of social sport in Japan pursues a comprehensive approach towards sport as a distinctive cultural sphere at the intersection of body culture political economy and cultural globalization Bridging the gap between Bourdieu and Foucault it explains the significance of the body as a field of action and a topic of discourse in molding subject and society in modern Japan More specifically it provides answers to questions such as how and to what purposes are politics of the body articulated in Japan particularly in the realm of sport What is the agenda of state actors that develop politics aiming at the body and to what degree are political and societal objectives impacted by commercial and non political actors How are political decisions on the allocation of resources made and what are their consequences for sporting opportunities and practices of the body in general Without neglecting the significance of sport spectatorship this study takes a particular angle by looking at sport as a field of practice pain and pleasure

Health Promotion in Health Care - Vital Theories and Research Gørill Haugan,Monica Eriksson,2021-03-11 This open access textbook represents a vital contribution to global health education offering insights into health promotion as part of patient care for bachelor s and master s students in health care nurses occupational therapists physiotherapists radiotherapists social care workers etc as well as health care professionals and providing an overview of the field of health science and health promotion for PhD students and researchers Written by leading experts from seven countries in Europe America Africa and Asia it first discusses the theory of health promotion and vital concepts It then presents updated evidence based health promotion approaches in different populations people with chronic diseases cancer heart failure dementia mental disorders long term ICU patients elderly individuals families with newborn babies palliative care patients and examines different health promotion approaches integrated into primary care services This edited scientific anthology provides much needed knowledge translating research into guidelines for practice Today s medical approaches are highly developed however patients are human beings with a wholeness of body mind spirit As such providing high quality and effective health care requires a holistic physical psychological social spiritual model of health care is required A great number of patients both in hospitals and in primary health care suffer from the lack of a holistic oriented health approach Their condition is treated but they feel scared helpless and lonely Health promotion focuses on improving people s health in spite of illnesses Accordingly health care that supports promotes patients health by identifying their health resources will result in better patient outcomes shorter hospital stays less re hospitalization being better able to cope at home and improved well being which in turn lead to lower health care costs This scientific anthology is the first of its kind in that it connects health promotion with the salutogenic theory of health throughout the chapters the authors here expand the understanding of

health promotion beyond health protection and disease prevention The book focuses on describing and explaining salutogenesis as an umbrella concept not only as the key concept of sense of coherence Life and Moral Education in Greater China John Chi-Kin Lee, Stephen Yam-wing Yip, Raymond Ho-Man Kong, 2021-03-29 Arguing for life moral and values education as a bedrock for the original goals of school education this monograph explores how life and values education is conceptualised and imparted in Greater China Under a globalized transnational and technological world where there has been an increase in people's mobility in information and cultural exchanges there is also a growing emphasis on personal and professional ethics Against this context life moral and values education has gained attention for its impact on shaping students' characters as future citizens However the cultivation of these values is made deeply diversified and complex by varying interpretations of life education and values education across societies given that different societies are influenced by different socio-cultural traditions educational ideologies and religious beliefs The means and approaches towards life education also vary vastly from formal school subjects school-based programmes as well as teachers and peers role modelling community services extra-curricular activities school discipline charity work pastoral care and school ethos Recognising this inherent diversity and complexity in the approach to and the dissemination of life education the contributors to this volume survey the practice of life education in Greater China so far suggesting that life education is most effective when it is diversified dynamic and developmental across contexts This book will provide the opportunity for engaging in important and serious debates about the future and the values that will underpin it and will prove of special interest to scholars and practitioners working on education policies curriculum development and teacher education in Greater China *The Handbook of Salutogenesis* Maurice B. Mittelmark, Shifra Sagy, Monica Eriksson, Georg F. Bauer, Jürgen M. Pelikan, Bengt Lindström, Geir Arild Espnes, 2016-09-02 This in-depth survey of salutogenesis shows the breadth and strengths of this innovative perspective on health promotion health care and wellness Background and historical chapters trace the development of the salutogenic model of health and flesh out the central concepts most notably generalized resistance resources and the sense of coherence that differentiate it from pathogenesis From there experts describe a range of real world applications within and outside health contexts from positive psychology to geriatrics from small towns to corrections facilities and from school and workplace to professional training Perspectives from scholars publishing in languages other than English show the global relevance of the field Among the topics in the Handbook Emerging ideas relevant to the salutogenic model of health Specific resistance resources in the salutogenic model of health The sense of coherence and its measurement The application of salutogenesis in communities and neighborhoods The application of salutogenesis to health development in youth with chronic conditions The application of salutogenesis in mental health care settings The Handbook of Salutogenesis summarizes an increasingly salient field for graduate and professional students of public health nursing psychology and medicine and for their instructors It will also appeal to health-related academicians and professionals who

wish to have a thorough grounding in the topic **The International Handbook of Positive Psychology** Edward C. Chang, Christina Downey, Hongfei Yang, Ingo Zettler, Mine Muyan-Yılık, 2022-02-02 This handbook discusses the latest findings from different fields of positive psychology from a global perspective by providing a coherent framework to get a better understanding of the development and practice of positive psychology It starts with the parameters of positive psychology and a summary of the historical rise of positive psychology both first wave and second wave of positive psychology in the US and its slow but steady growth on a global scale This handbook highlights the major contributions of positive psychologists across 17 major regions of the world on theory research assessment and Practice It discusses how positive psychology can progress human living in different countries and it shows the reasons why positive psychology has become an important source in research and education around the world *Ageing with Dignity in Hong Kong and Asia* Vincent Tin Sing Law, Ben Yuk Fai Fong, 2022-09-12 This book advocates the application of holistic and humanistic approaches in elderly care and services to achieve the goal of ageing with dignity in Hong Kong and Asia It responds to the needs of an increasing ageing population that has to deal with related health needs in long term care community health and social services particularly for chronic conditions and psychosocial support The book consists of three sections on policy and development of aged care holistic and humanistic care for older adults and capacity building for ageing with dignity respectively Topics include the latest initiatives in aged care appropriate services and delivery models lifestyle modification psychosocial and environmental considerations professional development technologies and social capital The chapters review and discuss these issues within a global context illustrated by examples from Asian countries underpinned by locally based empirical research Contributors include academics and practitioners from diversified professional backgrounds that include medicine nursing pharmacy traditional Chinese medicine dietetics and allied health The book traverses into territories in the social sciences life sciences and sports sciences while also touching on areas of business and administration hospitality law public policy and information technology in connection with public health The contents serve as a topical reference for tertiary studies in ageing and related disciplines such as well being and are also useful to policymakers community and public health practitioners health executives and interns working in areas of policy and practice pertinent to care development health delivery models planning quality ethics better health promotion professional training and monitoring for older adults *Big Data, Databases and "Ownership" Rights in the Cloud* Marcelo Corrales Compagnucci, 2019-11-02 Two of the most important developments of this new century are the emergence of cloud computing and big data However the uncertainties surrounding the failure of cloud service providers to clearly assert ownership rights over data and databases during cloud computing transactions and big data services have been perceived as imposing legal risks and transaction costs This lack of clear ownership rights is also seen as slowing down the capacity of the Internet market to thrive Click through agreements drafted on a take it or leave it basis govern the current state of the art and they do not allow much room for negotiation The novel contribution of this book

proffers a new contractual model advocating the extension of the negotiation capabilities of cloud customers thus enabling an automated and machine readable framework orchestrated by a cloud broker Cloud computing and big data are constantly evolving and transforming into new paradigms where cloud brokers are predicted to play a vital role as innovation intermediaries adding extra value to the entire life cycle This evolution will alleviate the legal uncertainties in society by means of embedding legal requirements in the user interface and related computer systems or its code This book situates the theories of law and economics and behavioral law and economics in the context of cloud computing and takes database rights and ownership rights of data as prime examples to represent the problem of collecting outsourcing and sharing data and databases on a global scale It does this by highlighting the legal constraints concerning ownership rights of data and databases and proposes finding a solution outside the boundaries and limitations of the law By allowing cloud brokers to establish themselves in the market as entities coordinating and actively engaging in the negotiation of service level agreements SLAs individual customers as well as small and medium sized enterprises could efficiently and effortlessly choose a cloud provider that best suits their needs This approach which the author calls plan like architectures endeavors to create a more trustworthy cloud computing environment and to yield radical new results for the development of the cloud computing and big data markets
