Asian Medical Systems A Comparative Study:

Asian Medical Systems Charles Leslie, 1976 **Asian Medical Systems** Charles M. Leslie, 1998 Asian Medical Systems provide fascinating opportunities to observe directly practices that continue ancient scientific modes of thought and to analyse the historical processes that mediate their relationship to modern science and technology Three great traditions of medical science evolved during antiquity in the Chinese Indian and Mediterranean civilizations all based on humoral conceptions of health and illness Folk curers throughout the world continue to practice humoral medicine but in Asia along educated physicians maintain its learned traditions Thus in these societies the great and little traditions of humoral medicine coexist with cosmopolitan medicine which draws upon modern science and modes of professional organization This volume has been designed to show how research on Asian medicine opens a new field of scholarship the comparative study of medical systems Such a book requires the skills of authors with many kinds of training and those who have contributed essays to this volume are trained in history sociology anthropology public health pharmacology epidemiology cosmopolitan medicine and philosophy *Asian Medical Systems* Charles Leslie, 2022-07-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1976 **Asian Medical Systems** Charles Leslie, 2023-11-15 Asian Medical Systems A Comparative Study explores the enduring relevance and evolution of traditional medical practices in Asia emphasizing their interplay with modern cosmopolitan medicine The book examines three major medical traditions Chinese South Asian Ayurveda and Mediterranean Yunani that developed independently yet share foundational principles such as humoral theories of balance and equilibrium These systems formalized between the fifth century B C and the fifth century A D established authoritative texts professional standards and ethical codes that continue to influence contemporary practices Despite the dominance of cosmopolitan medicine rooted in scientific advancements like germ theory and modern surgery traditional medicine in many Asian countries coexists with modern approaches supported by educational institutions research bodies and professional organizations This pluralism is particularly evident in nations like China and India where both systems are often integrated into healthcare delivery The book highlights the pluralistic and adaptive nature of Asian medical systems which provide insights into how traditional and modern practices complement each other It challenges the perception of cosmopolitan medicine as uniquely scientific arguing that Chinese Ayurvedic and Yunani systems also exhibit rational systematic methods grounded in empirical observation and theory By framing cosmopolitan medicine as transcultural rather than exclusively Western the study underscores its global integration while recognizing the cultural ecological and social dimensions of health in Asia Through multidisciplinary analysis the work illuminates how medical systems evolve and intersect offering a nuanced perspective on

their coexistence and their potential for addressing contemporary health needs This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1976 **Asian**

Medical Industries Stephan Kloos, Calum Blaikie, 2022-02-28 This book develops the concept of Asian Medical Industries as a novel perspective on traditional Asian medicines Complementing and updating existing work in this field the book provides a critical and comparative analytic framework for understanding Chinese Medicine Ayurveda Sowa Rigpa and Japanese Kampo in the 21st century No longer subaltern health resources or conservative systems of traditional knowledge these medicines have become an integral part of modern Asia as innovative lucrative industries Ten original case studies employ insights from anthropology history geography pharmaceutical sciences botany and economics to trace the transformation of Asian medical traditions into rapidly growing and dynamic pharmaceutical industries Collectively these contributions identify this as a major phenomenon impacting Asian and global healthcare economics cultural politics and environments The book suggests that we can learn more about Asian medicines today by approaching them as industries rather than as cultural or epistemic systems Asian Medical Industries is a highly original resource for students and scholars across a range of academic fields such as anthropology history and Asian studies as well as medical practitioners health sector actors and policymakers

Plural Medical Systems In The Horn Of Africa: The Legacy Of Sheikh Hippocrates Leendert Jan Slikkerveer, 2013-10-28 First Published in 1990 This study is an important landmark in our understanding of the complexities of pluralistic medical systems It is an unusual study as it provides an overview of the indigenous Oromo and Amhara the regional Greco Arabic and the cosmopolitan health systems in the Horn of Africa using a variety of approaches and methodologies *Recipes for*

Immortality Richard S Weiss, 2009-02-19 In this book Weiss seeks to illuminate the present success of traditional doctors by examining the ways that siddha practitioners in Tamil South India have won the trust and patronage of patients They do this he shows by offering affiliation to a timeless and pure community the fantasy of a Tamil utopia and even the prospect of immortality **Medicine, Rationality and Experience** Byron J. Good, 1994 Biomedicine is often thought to provide a

scientific account of the human body and of illness In this view non Western and folk medical systems are regarded as systems of belief and subtly discounted This is an impoverished perspective for understanding illness and healing across cultures one that neglects many facets of Western medical practice and obscures its kinship with healing in other traditions Drawing on his research in several American and Middle Eastern medical settings in this 1993 book Professor Good develops a critical anthropological account of medical knowledge and practice He shows how physicians and healers enter and inhabit distinctive worlds of meaning and experience He explores how stories or illness narratives are joined with bodily experience in shaping and responding to human suffering and argues that moral and aesthetic considerations are present in routine

medical practice as in other forms of healing *Three Fruits* Mary M. Cameron, 2019-04-24 Mary M Cameron first encountered an Ayurvedic medical practice in remote western Nepal in 1978 In *Three Fruits* Cameron traces Ayurvedic medical practices from those village healers to the professionally trained doctors in the Kathmandu Valley An intimate portrayal of Ayurvedic doctors in Nepal during a period of political unrest and social change *Three Fruits* connects the doctors care for Nepal s valued medicinal plants to the boundless joy of health they desire for their patients Combining ethnography with history and Indian philosophy this detailed study weaves the elegant theory of tridosa three humors and the popular medicine trifala three fruits into the narrative accounts of doctors multi sited practice Aware of rising global alternative medicine and environmental movements the doctors speak to their relevance for Ayurveda and sustainable integrated and culturally meaningful plural medicine in Nepal This book is recommended for scholars of anthropology sociology Asian studies history philosophy ethnobotany public health and environmental studies Biopsychosocial Approaches to Understanding Health in South Asian Americans Marisa J. Perera, Edward C.
