

“ASP DNA” Standards

ASP equipment is designed to meet the real needs of working police officers. In order to make it to the streets, “ASP DNA” must be reflected in every product. Some of these criteria include:

- ✓ It must make a unique and positive contribution to the law enforcement profession.
- ✓ It must demonstratively outperform anything else in its class.
- ✓ It must meet or exceed our high standards of design, quality, and reliability.

In the Wake of Disaster Harold G Koenig, 2008-05-01 In a timely book with a powerful and persuasive message Dr Harold G Koenig addresses federal state and local government policy leaders urging them to more fully integrate religious organizations into the formal disaster response system and he then provides recommendations on how this can effectively be

done Koenig also advocates faith communities and organizations to learn more about the role they can play in responding to disasters and terrorism The chaotic aftermath of Hurricane Katrina made extraordinarily clear the gaps in the United States disaster policies At the same time the contributions of organized faith communities were highlights amidst the bungled federal state and local responses One example is the New York Times September 9 2005 headline A New Meaning for Organized Religion It Helps the Needy Quickly But as faith based organizations look for ways to help there are few if any guidelines for them This book provides information on the psychological social and spiritual responses to trauma It addresses how the emergency response system works and the role that religious communities can play in disaster response and recovery in terms of providing emotional and spiritual care for victims It advocates integrating mental health into emergency response systems directed at those affected by hurricanes floods earthquakes and terrorism The aim is to help victims of disaster to better cope with the stresses they face as well as help direct care workers firefighters police health care providers etc to deal better emotionally with the trauma to which they are exposed so they can remain effective and functional on the job explains Dr Koenig whose research on the healing power of faith has been published worldwide Increasing the resiliency of our communities in the face of disaster is crucial Religious communities have tremendous potential to contribute to this Here are guidelines on how to do that more effectively alongside data on how to facilitate the integration of these contributions with the formal disaster response system

Disaster Response and Recovery David A.

McEntire,2015-02-02 Provides an overview of the various types of disasters that may occur the myriad of actors that are involved in emergency management and the diverse theoretical frameworks from which post disaster activities may be approached Includes updated chapters keeping the material fresh and accessible while incorporating recent changes in policy and new research Highlights lessons learned from such incidents and catastrophes as Hurricane Katrina Earthquake in Haiti Parking lot collapse in Miami West Texas industrial explosion Train wreck in Spain Aurora movie shooting Times Square bombing etc Examines typical challenges to be expected during response efforts along with tools and techniques to enhance the ability to protect lives reduce property damage and minimize disruption Includes an instructor package which contains Sample Syllabus Teaching Suggestions Test bank and PowerPoints
