Beta Testing The Apocalypse:

Beta Testing the Apocalypse Tom Kaczynski, 2013-01-18 Kaczynski takes abstract ideas capitalism communism or utopianism and makes them tangible He depicts and meditates on the immense political and technological structures and spaces we inhabit that subtly affect and define the limits of who we are and the freedom we as Americans presume to enjoy Society and the individual in perpetual tension Once you've read Kaczynski's comics it should come as no surprise to learn that he studied architecture before embarking on a career as a cartoonist Beta Testing includes 10 short stories most notably The New a brand new story created expressly for this book It's Kaczynski's longest story to date The New is set in an unnamed third world megalopolis It could be Dhaka Lagos or Mumbai The city creaks under the pressure of explosive growth Whole districts are built in a week The story follows an internationally renowned architect as he struggles to impose his vision on the metropolis A vision threatened by the massive dispossessed slum proletariat inhabiting the slums and favelas on the edges of the city From the fetid ferment of garbage dumps and shanties emerges a new feral architecture **Beta**
