

and I should get out of his house forever. I went down to the beach and sat down on the sand and cried. I felt like I was disappearing. Like the whole world was dividing into two parts. Me, and everybody else. And then this guy came down the beach, this dirty-looking little elf. He stopped in front of me and smiled this twinkly devil smile and said, "Your daddy kicked you out." He knew! "Your daddy kicked you out!" How could he know? My daddy didn't tell him, so who could've? God. God sent this dirty-looking little elf to save a little girl lost on a beach. He smiled again and touched my hair and off he went. And for a minute I just watched him go. Then I ran and caught his hand, and till they arrested him for stabbing Sharon Tate, I never let it go.

Prudence from Christopher Durang's BEYOND THERAPY

Do I want to be married? I have no idea. It's so confusing. I know when I was a little girl, Million Dollar Movie showed this film called "Every Girl Should Be Married" every night for seven days. It was this dumb comedy about this infantile girl played by Betsy Drake who wants to be married to this pediatrician played by Cary Grant who she sees in a drugstore. She sees him for two minutes, and she wants to move in and have babies with him. And he finds her totally obnoxious, but then at the end of the movie suddenly says, "You're right, you're adorable," and then they get married. And what confused me further was that the actress Betsy Drake did in fact marry Cary Grant in real life. Of course, it didn't last, and he married several other people, and then later Dyan Cannon said he was insane and took LSD and so maybe one wouldn't want to be married to him at all. But if it's no good being married to Cary Grant, who is it good being married to?

Adelaide from Michael Redhill's BUILDING JERUSALEM

Dr. Pearson, I have sat around for over ninety minutes this evening and listened to you denigrate anything that is unfamiliar or unappealing to you, as if it is your main calling to disillusion anyone who doesn't see things the way you do. Do you know that it is, in fact, dangerous to feed our infants milk? Plain milk, Dr. Pearson. While you are measuring the attributes of your race of perfect men and women, there are babies who are dead because no one taught their mothers how to heat milk. It's simple: having reached a temperature of thirty-two degrees centigrade, milk will cease to pose any kind of a threat to an infant. It is sweet and nourishing. At thirty-one degrees, however, it is potentially poison, full of lethal germs. One degree, Dr. Pearson. Can you measure that for us? Thirty-two and you wake up a family. Thirty-one and you have to call the casket-maker. Have you ever held one of your own children in your arms, watching the very life drain from its face? Because you were feeding it poison and you didn't know any better? *(slight beat)* Or is that just women's work? ...

from Lynn Marie Macy's CRUNCHING NUMBERS

Look, I have to step over homeless people and drug addicts in the street just to get into my office building. People are crazy here. Every time I go out I'm afraid I'm gonna run into some kook. Sickos just come right up to you. They do this insane stuff right in

Beyond Therapy Full Script:

Beyond Therapy Erving Polster, 2017-09-08 In *Beyond Therapy* Erving Polster examines the role of life focus in three of society's most familiar activities: ordinary conversation, the arts, and religion. He shows the life focus movement to be an indivisible complement to just simply living. In proposing a paradigm shift from psychotherapy's priority for changing people's troubled lives into the complementary purpose of illuminating their lives, the author invites the participation of many people who do not seek remedial treatment for emotional or psychological problems. Polster incorporates a broader scenario for enhancing attention through community groups, showing that the convergence of people's minds on commonly important life themes creates enlightenment. This interlocked focus amplifies the ensuing conversational content and creates a meditation-like absorption. This kind of pointed focus argues Polster has the power to colour the lives of the participants. This work offers rationale and design for life focus community groups and also creates a heightened identity for the life focus movement, providing other foundational ideas that help to unify diverse approaches. Mental health professionals will benefit from its wealth of specific exercises and instructions for program design. Polster provides leaders and group members with a well-rounded perspective on the basics of personal enlightenment and communal belonging. *A Cinema of Loneliness* Robert Phillip Kolker, 2000 In this 20th anniversary edition, Kolker continues and expands his inquiry into the phenomenon of cinematic representation of culture by updating and revising the chapters on Kubrick, Scorsese, Altman, and Spielberg.

MDMA-Assisted Therapy for Treatment of PTSD and Beyond Rick Doblin, Gul Dolen, Peter Schuyler Hendricks, Berra Yazar-Klosinski, Lisa Jerome, Julie Wang, Jennifer Mitchell, 2023-07-31 In 2017 the Food and Drug Administration (FDA) granted breakthrough therapy designation for 3,4-methylenedioxymethamphetamine-assisted therapy (MDMA-AT) for the treatment of posttraumatic stress disorder (PTSD). Six phase 2 and one phase 3 trial of a standardized MDMA-AT protocol for PTSD have consistently shown that the treatment is both safe and efficacious. MDMA-AT may hold great promise as a novel treatment for individuals who suffer from PTSD, including those with severe and treatment-resistant diagnoses. Evidence-based studies are needed to guide widespread adoption and dissemination of MDMA-AT for PTSD. The untapped therapeutic potential of MDMA-AT also warrants further investigation of indications beyond PTSD, including comorbidities that often create greater challenges in treatment and long-term efficacy. The goal of this Research Topic is to broaden the scientific literature on MDMA-AT across disciplines. Specifically, studies are needed to provide: i) guidance on the dissemination of MDMA-AT for PTSD; ii) future research directions for MDMA-AT, including investigation of other indications; and iii) theoretical frameworks and models of biological mechanisms to explain the therapeutic effects of MDMA-AT. *Introduction to Systemic and Family Therapy* John Hills, 2012-12-07 Ideas drawn from family and systemic therapy form the basis of many interventions in mental health and childcare. This brief introduction offers an ideal starting point for non-specialists and new students keen to develop their skills. Taking a step-by-step experiential approach, it explores key concepts in vivid practice context. **How to**
