Advances in Artificial Intelligence - IBERAMIA 2008 Hector Geffner, Rui Prada, Isabel Machado Alexandre, Nuno David, 2008-09-29 IBERAMIA is the international conference series of the Ibero American Artificial Intelligence community that has been meeting every two years since the 1988 meeting in Barcelona. The conference is supported by the main Ibero American societies of AI and provides researchers from Portugal, Spain and Latin America the opportunity to meet with AI researchers from all over the world. Since 1998 IBERAMIA has been a widely recognized international conference with its papers written and presented in English and its proceedings published by Springer in the LNAI series. This volume contains the papers accepted for presentation at Iberamia 2008 held in Lisbon, Portugal in October 2008. For this conference 147 papers were submitted for the main track and 46 papers were accepted. Each submitted paper was reviewed by three members of the Program Committee coordinated by an Area Chair. In certain cases extra reviewers were recruited to write additional reviews. The list of Area Chairs, PC members and reviewers can be found on the pages that follow. The authors of the submitted papers represent 14 countries with topics covering the whole spectrum of themes in AI: robotics and multiagent systems, knowledge representation and constraints, machine learning and planning, natural language processing and AI applications. The program for Iberamia 2008 also included three invited speakers: Christian Lemaître (LANIA Mexico), R. Michael Young (NCSU USA) and Miguel Dias (Microsoft LDMC Lisbon) as well as five workshops.
