Answer To The Moon Answer The Call Volume 1:

Metaphysical Answers to Metaphysical Questions (Book -1) Mustafa Karnas, 2021-02-12 PRESENTATION This book covers the answers to the questions that arise during the training lessons on Becoming Metaphysics Metaphysics Noetics Religions History of Religions Esoteric Behavioral Sciences Our Behaviors Development Secrets Esoteric Occult Enoch Wisdom and many other questions asked by those who attended the training were answered by Mustafa KARNAS and this question was named as being Metaphysical with answers educational information is included in this book In the following five subjects Being metaphysical 1 Managing your own life 2 Managing the flow of events 3 leading the flow of destiny 4 Managing the future 5 Managing information Mustafa KARNAS BEING METAPHYSICAL Our topic is to manage the flow of destiny how will we manage our destiny How easy it is but hard when you don't know Let's examine the question of what is to know knowing is like opening Matryoshka dolls you go to the deepest knowing at every trench becomes a function What else is to know Knowing is holding holding is determining a space between references that is knowing is measuring The only reason we know is because we can measure what we measure is what we perceive What we perceive means something other than references created by what we know what we know is what we learned by measuring knowing also means understanding by changing the measures With each change of measure or reference the shape of the information also changes so the knowing function continues by updating the previously known With these constantly changing references even if the information is the same with the measurements forming a different judgment on everyone the projection of everyone will be different Knowing can only happen with the approval of others so we know what we know only in others we cannot know anything in ourselves The most important of the references that tell us what we know are their projections reflections For example if we hear ringing bells in a rural area even if we do not see it he tells us that there is a sheep goat cow herd in a place we cannot see but can hear in the future with a shepherd and shepherd dogs Just a bell and a bell show that we know all these things and if we turn it on we will move away from the sound if we are afraid of the shepherd dog attack but if we need help we approach the sound and so on We know because everything we know exists on a scale if it did not exist on a measure nothing we know would be because we will never see what we see again so every we see will be what we do not know and we would never know Although never knowing is a true reality the only reason we know is that human perception violated by the law of uncertainty has created constants for itself within the existing laws of existence That is we are bodies and souls trapped in a continuous repetition of the like in a cyclical hermetic matrix Therefore the flow which is in fact uncertainty becomes a reality in a narrow space within us and the measurements we make in that area are always stable so we know or we would never have known The way we know something is influenced by the way the brain processes it the brain processes information compares the two when a new flow of information arrives and orders the motor cortex accordingly So the only reason we know is because the measurements are stored in snaps stability and stability is that the

brain arranges a mess in its own way For example you go to visit someone there is a dog at the door the man says don t be afraid they won t bite You don t have this information you have it Again you go to a yacht for a guest screams coming from the upper floor at 12 at night you worry you say Don t be afraid there is nothing the man is watching a movie these are the information that everybody gets by measuring the motor cortex and snaps What else is measuring does anyone have an idea Another concept means to measure Measure means destiny We have created you on a scale that is we have created you on a fate our subject is destiny So as long as you stay within the measured your destiny is determined If the measurements change the fate also changes because the main thing is the law that is the law of measure appears as projective realities in the form of an array of possibilities in every measurement but when there is an action to change the measurement a new measurement is made subject to another law of creation Therefore the only fate determined is laws that is the rules of the laws of measurement never change but the fate of the person changes with different laws and measurements Whose destiny is the fate mentioned And let s come to the subject of death whose term is the term with whom is the agreement made

New KS3 Maths Workbook - Higher (includes answers) ,2023-06-05 This essential Workbook is packed with KS3 Maths practice questions It s ideal for students working at a higher level with a huge range of skill building questions on every topic and all the answers included at the back A matching KS3 Maths Revision Guide 9781841460307 for higher level is also available *Ten Ways to Weave the World: Matter, Mind, and God, Volume 1* Ross Thompson,2022-12-20 The idea of an ideological war between science and religion Thompson argues is founded on a mistake But this does not mean that there is nothing at stake For behind the ill conceived conflict lie complex issues about the nature of mind consciousness experience subjectivity quality value and the like all of which need to be disentangled and assessed in their own right Outgrowing Materialism leads the reader through a sequence of five Worlds each of which offers a distinct way of understanding or failing to understand these issues and where God might belong or not Writing accessibly but with a sharp eye for detail Thompson sheds new light on the familiar territory of materialism dualism and structural realism and evaluates the growing attraction of the multiverse He argues that dualism mechanized the material world then materialism exorcised the mental ghost from the machine and finally this machine is evaporating into pure mathematics Outgrowing Materialism is half of Ten Ways to Weave the World Matter Mind and God The sequel Embodying Mind discusses five Worlds that precede and follow those discussed here However Outgrowing Materialism stands in its own right as a critique of the modern science v religion dilemma Broken Shifters Collection (volume 1) Julie K. bringing together the histories of British and American women's emancipation represented in earlier sets into juxtaposition with histories produced by different kinds of imperial and colonial governments. The alignment of writings from a range of Anglo-imperial contexts reveals the overlapping histories and problems while foregrounding cultural specificities and contextual inflections of imperialism. The volumes focus on countries, regions or continents formerly colonized in part by Britain: Volume I Australia, Volume II New Zealand, Volume III Africa, Volume IV India, Volume V Canada. Perhaps the most novel aspect of this collection is its capacity to highlight the common aspects of the functions of empire in their impact on women and their production of gender and conversely to demonstrate the actual specificity of particular regional manifestations. Concerning questions of power, gender, class and race, this new Routledge Edition Synapse Major Work will be of particular interest to scholars and students of imperialism, colonization, women's history and women's writing.
