watch and wait or pursue some other path While many books have been written for parents who choose to facilitate their child's gender transition there are almost no books for parents who do not think that social or medical transition is the best option for their child Written by Sasha Ayad Lisa Marchiano and Stella O Malley three mental health professionals who collectively have decades of experience working with trans identified adolescents and their families When Kids Say They're Trans is a resource designed explicitly for those parents who do not think that hasty affirmation or medicalization is the best way to ensure the long term health and well being of their child It is also for those who simply aren't so sure about the best course of action and want to learn the facts before committing to a particular approach At a time when schools institutions and governments increasingly promote ideas about gender that confuse children and even encourage kids to keep secrets from their parents the authors celebrate parental love and engagement as the bedrock that children need to move out into the world As the authors make clear parents who have successfully helped their children navigate gender distress without resorting to surgery and hormones have done so by actively taking the reins not by reflexively outsourcing this responsibility or waiting until they found the ideal therapist or doctor When Kids Say They're Trans tells you all you need to know as a parent to help your child struggling with gender issues and will give you the confidence to trust your own instincts as you guide and support your child on the path toward growth acceptance and maturity
