Assassination Point Blank

Robert A. Wagner

Assassination Point Blank:

Assassination Point Blank John Onesti, 2014-11-21 A web of secret societies war profiteers rogue intelligence operatives and a planned drug war are just a few of the adversaries facing young charismatic President James Kelly In his valiant effort to save the United States from a nefarious future Kelly finds himself battling an invisible cabal who in the end has surrounded him on all fronts An assassination is planned and Lew Ohlman is the cabal's chosen fall guy but who will actually pull the trigger How and why Will there be a team of faceless shooters stationed around the plaza and on the grassy knoll And when Lew Ohlman temporarily escapes the conspirators how far will the evil men go to cover their tracks With fascinating twists and turns the assassin's identity is finally revealed and with it comes an even greater mystery of the Luciferian occult rituals practiced by the powerful architects of the President's downfall In the end most riveting for the reader is the question of what profound insight the fictional events portrayed in *Assassination Point Blank* might offer in the actual assassination of President John F Kennedy

Assassination Miles Hudson, 2011-06-13 The assassination of political religious and military leaders often dictators is frequently seen as the short cut to solving a particular problem The author takes issue with this argument Examining a series of linked assassinations together with their causes and effects he seeks to demonstrate that in many cases the killings have produced unforeseen and unintended consequences that all too often result in the opposite result to that desired His case studies arranged intriguingly in pairs cover such diverse characters as Julius Caesar and Thomas Becket Gandhi and Jesus Christ Tsar Alexander II and Abraham Lincoln Michael Collins and Field Marshal Sir Henry Wilson and Martin Luther King and Malcolm X This is an absorbing controversial and informative study

Assassination! Paul Donnelley, 2012-02 The Irish writer George Bernard Shaw called it an extreme form of censorship and indeed political assassination has often been used by the unscrupulous for ridding themselves of their enemies This book takes an in depth look at 25 of history's most infamous assassinations and assassination attempts It contains no wild theories no mad speculation just a look at the cold hard facts surrounding some of the world's most famous killings The tales told include the assassinations of Julius Caesar John F Kennedy Robert F Kennedy Rasputin plus many more And the attempted assassinations of Ronald Reagan Adolf Hitler Pope John Paul II plus many more Each entry contains a biography of the subject detailing who they were and where they came from an in depth look at the killing a profile of the killer and a comprehensive aftermath It belongs on the shelf of every history buff and anyone with an interest in the ultimate crime

The Kennedy Assassinations Mel Ayton, 2022-07-19 Few events have been the subject of more conspiracy theories than the assassinations of the two Kennedy brothers Indeed a great many people consider that there were other individuals than Lee Harvey Oswald and Sirhan Sirhan involved in both murders Was a shot fired from Dealey Plaza's grassy knoll Why did Jack Ruby shoot Oswald Was it the CIA the Soviets Cuban nationalists or the Mafia that arranged John Kennedy's assassination Was Robert Kennedy shot from in front and behind and who had the most to gain from his death These are just

a few of the questions that have been put forward by a myriad of conspiracy theorists and it is those people and their ideas that Mel Ayton has tackled head on Over many years Mel Ayton has examined all the more substantial conspiracy theories and through careful analysis of documents and eyewitness statements he has demolished each one In each case Mel Ayton presented the results of his detailed investigations in periodicals as he worked through the various theories These have now been brought together to provide a comprehensive analysis of all the main theories as to who how and why the two Kennedy brothers met their deaths in such unusual circumstances Though wild ideas will continue to be proposed and efforts will still be made to demonstrate that Oswald could not have fired off three shots with great accuracy in the few seconds available to him as the presidential cavalcade passed beneath the window where he crouched or that there were sinister reasons why three CIA men were allegedly present on the night of Robert Kennedy s assassination the harsh reality is that the Kennedy brothers were each killed by lone gunmen This is an absorbing read brought up to date with the addition of new material as it has been uncovered Maybe just maybe this book will persuade people that the official accounts of both murders although flawed are not cover ups but simply statements of fact

Assassinations, Threats, and the American Presidency Ronald L. Feinman, 2015-08-06 Throughout American history Presidents and Presidential candidates have faced countless assassination threats and attempts on their lives These threats have extended not only to sitting Presidents and candidates but also to Presidents elect and former Presidents Assassinations Threats and the American Presidency From Andrew Jackson to Barack Obama walks through Presidential history looking at the countless assassination threats and attempts that have occurred throughout history Historian Ronald L Feinman discusses the Presidencies of sixteen Presidents as well as three important candidates and five living Presidents today and how they were directly threatened with assassination ranging from the first known threat to Andrew Jackson in 1833 to threats to Barack Obama in late 2014 All nineteen of these Presidents and candidates were threatened with assassination six being killed three wounded and ten unhurt Additionally he reveals information about some failed attempts which had they been successful could have resulted in fifteen different men who would have become President of the United States Which ones would have been able to fill the responsibilities Which ones would have been disastrous in the Oval Office Assassination attempts both successful and failures have been part of our political culture for over 180 years and the problem of Presidential security safety and protection remains a serious problem today With the President being faced with countless death threats the Secret Service and FBI are forced to employ all kinds of technological methods to protect our Chief Executive and his family as well as other top officials in the line of succession Feinman brings to light how these agencies have grown both technologically and physically to counter these attacks He also sheds light on how these threats to our Presidency have devastated changed and grown our United States into what it is today

Assassins Boris Volodarsky, 2020-02-19 A look at the events surrounding the 2006 poisoning of a former Russian security officer in Great Britain In November 1998 Alexander Litvinenko a former lieutenant colonel of the Russian security

service or FSB along with several former colleagues publicly stated that their superiors had instigated an assassination attempt on a Russian tycoon and oligarch Following his subsequent arrest and failed trials Litvinenko fled to London where having been granted asylum he worked as a journalist and writer as well as acting as a consultant for the British intelligence services Eight years later Litvinenko's past caught up with him when he was assassinated in London On November 1 2006 Litvinenko was suddenly taken ill and hospitalized He passed away twenty two days later Significant amounts of a rare highly toxic element were subsequently found in his body Before his death Litvinenko had said You may succeed in silencing one man but the howl of protest from around the world Mr Putin will reverberate in your ears for the rest of your life Author Boris Volodarsky who was consulted by the Metropolitan Police during the investigation and remains in close contact with Litvinenko's widow details the events surrounding Litvinenko's murder Volodarsky updates the story referring to the findings of the official British inquiry on the release of which Prime Minister David Cameron condemned Putin for presiding over state sponsored murder The author proves that the Litvinenko's poisoning is just one of many Some of these assassinations or attempted assassinations are already known others are revealed by him for the first time *The Assassination of JFK* Robert A. Wagner, 2017-03-07 The Assassination of JFK Perspectives Half a Century Later is the result of a reconciliation of widely divergent views of the assassination and who was responsible For more than fifty years the JFK assassination has ignited impassioned argument from those who believe the Warren Commission's conclusion that one man Lee Harvey Oswald acted alone in killing President John F Kennedy and those who believe that the assassination was spearheaded by the KGB Castro the mob anti Castro revolutionaries the military complex the CIA or even Kennedy's successor Lyndon Baines Johnson to name only a few The conspiracy theories are almost too numerous to list and even include the fervent belief that Kennedy's body was stolen prior to autopsy on the very evening of the assassination for the purpose of doctoring the body to frame Oswald Bob Wagner digs into the enormous record of the assassination created by two government investigations and thousands of books and articles written by investigators researchers and historians Bob describes the divergent views as being akin to two groups dividing the pieces of a jigsaw puzzle in half and attempting to produce complete pictures with their incomplete pieces Once all the puzzle pieces are organized and properly fit together however as Bob's painstaking work shows a real picture emerges and the truth comes into focus Bob thoroughly reviews the head spinning morass of fact conjecture and conspiracy theories regarding the assassination of JFK and makes them understandable to those knowing little about the assassination much less all of the conspiracy theories that abound The Assassination of JFK Perspectives Half a Century Later presents the clearest case against Arlen Specter's infamous single bullet theory while also demonstrating why it is clear that Lee Harvey Oswald fired the only shots in Dealey Plaza on November 22 1963 Visit JFKassassinationperspectives.com for more information and to comment **The Assassinations** James DiEugenio, Lisa Pease, 2003 Foreword by Judge Joe Brown and Introduction by Zachary Sklar This book is a compilation of articles from an

eclectic group of researchers that have spent the last several years discovering new evidence through an examination of newly released files about the American coup d'etat in four tragic and epochal murders. A must read to understand how these leaders were systematically eliminated. It's a unique volume in the literature on this subject. William Turner, former FBI agent, author of *Deadly Secrets: Murder and Politics in Mexico*. Sara Schatz, 2011-02-28. *Murder and Politics in Mexico* studies the causes of political killings in Mexico's liberalization/democratization within the larger context of political repression. Mexico's democratization process has entailed a little-known but highly significant cost of human lives in pre and post election violence. The majority of these crimes remain in a state of impunity; in other words, no person had been charged with the crime and/or no investigation of it had occurred. This has several consequences for Mexican politics when the level of violence is extreme and when political killings that are systematic and invasive are involved, this could indicate a real fracture in the democratic system. This book analyzes several dimensions regarding impunity and political crime, more specifically the political killings of members of the PRD in the post 1988 period in Mexico. The main argument proposed in this book is that impunity for political killings is a structured system requiring one central precondition, namely the failure of the legal system to function as a system of restraint for killings. Dr. Schatz's research finds that political assassinations are indeed rational, targeted actions but they do not occur within an institutional vacuum. Political assassinations are calculated strategies of action aimed at eliminating political rivals. As a form of interpersonal violence, political assassination involves direct or implied authorization from political leaders, the availability of assassins for hire, and the willingness of some political leaders to utilize them against political opponents. Violent interactions between political parties combined with judicial system ineffectiveness. A corrupt legal system facilitates the use of political assassination and explains the persistence of impunity for political murder over time. To reduce political violence in the transition to electoral democracy, specific institutional conditions, namely a structured system of impunity for murder, must be overcome. *The Assassinated Presidents*. Charles River Editors, 2025-05-01. Until April 14, 1865, John Wilkes Booth was one of the most famous actors of his time, and President Abraham Lincoln had even watched him perform. But his most significant performance at a theater did not take place on the stage. That night, Booth became one of history's most infamous assassins when he assassinated President Lincoln at Ford's Theatre in Washington, D.C. After the shooting, during which it is believed he broke his leg, Booth fled south on horseback with authorities hot on his tail. 12 days later, while he was at a farm in rural northern Virginia, Booth was tracked down and shot by Boston Corbett, a Union soldier who acted against orders. Eight others were tried for their alleged involvement in the plot and convicted, and four were hanged shortly thereafter as a result of some of the nation's most famous trials. In 1880, Garfield ran as a Republican for president, and one of his supporters was a man named Charles Guiteau, who wrote and circulated a speech called *Garfield vs. Hancock* that aimed to rally support for the Republican candidate. Though few knew it, Guiteau's family had already deemed him insane and attempted to keep him committed in an asylum only to have him manage an

escape from confinement Despite lobbying around Republican headquarters in New York City and even approaching Cabinet members no post was forthcoming for the troubled man Eventually in May 1881 Secretary of State James Blaine told him to never show up again Enraged by the perceived slight Guiteau bought a revolver and plotted to kill the president He got his chance on July 2 1881 at a railroad station shooting Garfield in the back twice and bragging to the authorities I am a Stalwart of the Stalwarts Arthur is president now President James Garfield had been assassinated just 20 years earlier but McKinley didn't worry about presidential security or his own safety and that was the case in Buffalo McKinley's insistence on greeting the public and shaking hands allowed Czolgosz to walk up to him on September 6 1901 at a public reception in the Temple of Music on the expo grounds and shoot him point blank with one bullet grazing the president and another lodging in his abdomen In the aftermath of the shooting as Czolgosz was beaten and seized by the crowd he uttered I done my duty For his part McKinley said He didn't know poor fellow what he was doing He couldn't have known Despite being president McKinley's medical services were shoddy and given the still primitive medical standards of the early 20th century gunshots to the abdomen often brought death One of the best known aspects of the assassination is that Thomas Edison's x-ray machine was on hand and may have been used to try to locate the bullet that doctors couldn't find but for reasons that remain unknown the x-ray machine was not used In many ways John Fitzgerald Kennedy and his young family were the perfect embodiment of the 60s The decade began with a sense of idealism personified by the attractive Kennedy his beautiful and fashionable wife Jackie and his young children Months into his presidency Kennedy exhorted the country to reach for the stars calling upon the nation to send a man to the Moon and back by the end of the decade In 1961 Kennedy made it seem like anything was possible and Americans were eager to believe him The Kennedy years were fondly and famously labeled Camelot by Jackie herself suggesting an almost mythical quality about the young President and his family As it turned out the 60s closely reflected the glossy idealistic portrayal of John F Kennedy as well as the uglier truths The country would achieve Kennedy's goal of a manned moon mission and the landmark Civil Rights Act of 1964 finally guaranteed minorities their civil rights and restored equality ensuring that the country would live out the true meaning of its creed

Unveiling the Magic of Words: A Report on "**Assassination Point Blank**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring.
