Beyond The Pleasure Principle Norton Library:

Mapping the Origins of Figurative Language in Comparative Literature Richard Trim, 2021-10-05 This book investigates the origins of figurative language in literary discourse within a cognitive framework It represents an interface between linguistics and literature and develops a 6 tier theoretical model which analyses the different factors contributing to the creation of figurative words and expressions By examining features ranging from language structure to figurative thought cultural history reference narrative and the personal experience of authors it develops a global overview of the processes involved Due to its particularly innovative characteristics in literature the theme of death is explored in relation to universal concepts such as love and time These aspects are discussed in the light of well known authors in comparative literature such as D H Lawrence Simone De Beauvoir Hermann Hesse and Jorge Luis Borges The origins can involve complex conceptual mappings in figures of speech such as metaphor and symbolism They are often at the roots of an author's personal desires or represent the search for answers to human existence This approach offers a wide variety of new ideas and research possibilities for postgraduate and research students in modern languages linguistics and literature It would also be of interest to academic researchers in these disciplines as well as the general public who would like to delve deeper into the relevant fields

The Mental Mechanisms of Patient Adherence to Long-Term Therapies Gérard Reach, 2015-01-06 How can we accept that we ought to stop smoking follow a diet exercise or take medications The goal of this book is to describe the mechanisms of patients adherence to long term therapies whose improvement according to the World Health Organization WHO would be more beneficial than any biomedical progress For example approximately half of the patients do not regularly follow medical prescriptions resulting in deleterious effects on people's health and a strong impact on health expenditure This book describes how our beliefs desires and emotions intervene in our choices concerning our health by referring to concepts developed within the framework of the philosophy of mind In particular it tries to explain how we can choose between an immediate pleasure and a remote reward preserving our health and our life We postulate that such an intertemporal choice can be directed by a principle of foresight which leads us to give priority to the future Just like patients non adherence to prescribed medications doctors often don't always do what they should They are non adherent to good practice guidelines We propose that what was recently described as clinical inertia could also represent a case of myopia From time to time doctors fail to consider the long term interests of their patient Both patients non adherence and doctors clinical inertia represent major barriers to the efficiency of care However it is also necessary to respect patients autonomy The analysis of relationship between mind and care which is provided in this book sheds new light on the nature of the therapeutic alliance between doctor and patient solving the dilemma between the ethical principles of beneficence and autonomy

The Rhetoric of Topics and Forms Gianna Zocco, 2021-01-18 The fourth volume of the collected papers of the ICLA congress The Many Languages of Comparative Literature includes articles that study thematic and formal elements

of literary texts Although the question of prioritizing either the level of content or that of form has often provoked controversies most contributions here treat them as internally connected While theoretical considerations inform many of the readings the main interest of most articles can be described as rhetorical in the widest sense given that the ancient discipline of rhetoric did not only include the study of rhetorical figures and tropes such as metaphor irony or satire but also that of topoi which were originally viewed as the places where certain arguments could be found but later came to represent the arguments or intellectual themes themselves Another feature shared by most of the articles is the tendency of undeclared thematology which not only reflects the persistence of the charge of positivism but also shows that most scholars prefer to locate themselves within more specific often interdisciplinary fields of literary study In this sense this volume does not only prove the ongoing relevance of traditional fields such as rhetoric and thematology but provides contributions to currently flourishing research areas among them literary multilingualism literature and emotions and ecocriticism

The Legend of Freud Samuel Weber, 2000 Psychoanalysis is dead Again and again this obituary is pronounced with ever increasing conviction in newspapers and scholarly journals alike But the ghost of Freud and his thought continues to haunt those who would seal the grave The Legend of Freud shows why psychoanalysis has remained uncanny not just for its enemies but for its advocates and practitioners as well and why it continues to fascinate us For psychoanalysis is not just a theory of psychic conflict it is a thought in conflict with itself Often violent the conflicts of psychoanalysis are most productive where they remain unresolved thus producing a text that must be read deciphered interpreted rewritten Psychoanalysis legenda est Review The Legend of Freud is a fine example of what can be done with Freud's texts when philosophical and literary approaches converge and you leave the couch in the other room Like Lacan and Derrida Weber doesn't so much explain or interpret Freud as engage him performing what Freud would have called an Auseinandersetzung a discussion or argument that's also a taking apart a deconstruction Deconstruction has picked up a bad name especially in the minds of those who don't understand it but this wouldn't be the case if there were more books like Weber's The Legend of Freud is the best deconstructive work I've seen lately and the best response to Freud it merits close attention from anyone who wants a challenge not merely a guide to what's right and wrong Weber is brilliantly imaginative respectful of his subject and his readers and productive of new ideas Village Voice Literary Supplement

Indian and Western Philosophical Concepts in Religion
Pankaj Jain, Jeffery D. Long, 2022-12-19 Philosophical concepts are influential in the theories and methods to study the world religions Even though the disciplines of anthropology and religious studies now encompass communities and cultures across the world the theories and methods used to study world religions and cultures continue to be rooted in Western philosophies For instance one of the most widely used textbooks used in introductory courses on religious studies introduces major theoreticians such as Edward Burnett Tylor James Frazer Sigmund Freud Emile Durkheim Karl Marx Max Weber Mircea Eliade William James E E Evans Pritchard and Clifford Geertz Their theories are based on Western philosophy In contrast in Indic philosophical systems such as Buddhism Hinduism and Jainism one of the common views on reality is that the world both within one self and outside is a flow with nothing permanent both the observer and the observed undergoing constant transformation This volume is based on such innovative ideas coming from different Indic philosophies and how they can enrich the theory and methods in religious studies

The Strange Works of Taro Yoko Nicolas Turcev, 2019-05-21
Throughout his career Taro Yoko was despaired by the image of humanity returned by most big budget video games Taro Yoko's strange work reviews the entire career of this extraordinary creator his games Drakengard NieR and sheds light on the link that constitutes his work Check out this complete book on Taro Yoko which explores the contours of its games their development the complexity of their stories and their thematic depth With a preface by Taro Yoko himself EXTRACT
Nowadays most of the players who have heard of Taro Yoko do not associate his name to any particular face Inconvenienced by public appearances the director systematically equipped himself with a device to cover his face during meetings with the press at least since the creation of NieR Shortly before the announcement of NieR Automata at the E3 2015 Yoko even had a mask made based on the character Emil by a plastic artist from PlatinumGames for a mere four hundred euros Since then he has worn it every time he is in the presence of photo and video cameras His persistence in hiding his face under this thick layer of plastic naturally arouses curiosity One might be led to believe that this is a communication strategy or the eccentricity of an enigmatic creator Nevertheless the visual anonymity of the director is in no way a means to nurture the mystery of his personality Far from comparing himself to the likes of Banksy a famous street artist and statement maker who prefers to remain anonymous Yoko just prefers to let his games speak for themselves In fact ask him and he will answer with no difficulty that he grew up in Nagoya in the Japanese prefecture of Aichi Restaurant managers izakayas ramens tempuras

etc his parents flitted from one restaurant opening to the next and entrusted their son's education to his grandmother WHAT CRITICS THINK Overall I enjoyed my time with The Strange Works of Taro Yoko especially as a fan of the man's works It's a great companion piece for long time fans and if you're looking for more unofficial content to read about for the Drakenier universe you can't go too wrong RPG Site ABOUT THE AUTHOR Nicolas Turcev Journalist specialized in pop culture he has contributed to the following magazines Chronic Art Carbone Games and Gamekult and occasionally participates in the video game analysis site Merlanfrit He is also the author of several articles of the Level Up collection at Third ditions **Images**

of Traumatic Memories Anja Meyer, 2020-12-14 By employing the lens of the most recent critical studies on intermediality the author analyses the interaction between literature and photography in three contemporary hybrid novels Miss Peregrine's Home for Peculiar Children by Ransom Riggs 2011 Extremely Loud and Incredibly Close by Jonathan Safran Foer 2005 and The Dark Room by Rachel Seiffert 2001 sharing the narration of traumatic historical events The intermedial dimension realised by the confluence of the two media devices offers new ways to create meaning and to reflect upon the nature of collective and individual trauma by re-enacting the distortion and the inaccessibility to the memories of those experiences In this context the reader emerges as an active participant in the process of fiction making as the act of reading becomes a renewed act of witnessing *Mourning and Resilience in Indian Ocean Life Writing* Esther Pujolràs-Noguer, Felicity

Hand, 2023-12-28 This volume examines a selection of life writing in English by authors from the South West Indian Ocean namely South Africa East Africa Mauritius and Sri Lanka The two motifs that run through the chapters mourning and resilience are theoretical frameworks that have so far not been brought into conversation in this way The combination of trauma studies and autobiographical analysis sharpens the focus of the discussions on Indian Ocean life writing privileging an Indian Ocean imaginary that is transnational and cross oceanic in its orientation and pointing to networks of connections that transcend the nation state which is often the origin of trauma in the first place Filling a gap in Indian Ocean studies in its close readings of trauma and resilience the book also broadens perspectives on postcolonial life writing since little attention has been paid so far to Indian Ocean autobiographical literary products By the same token the volume also enriches the field of Indian Ocean literary studies by incorporating life writing as an aesthetic strategy which helps to configure Indian Ocean subjectivities **Allegory Revisited** Anna-Teresa Tymieniecka, 2012-12-06 Focusing mainly upon language

communication textuality etc as is overwhelmingly today's fashion we miss the very raison d'être of literature and language itself Moving a step further in our investigation of the anthropologico-ontopoietic sources of the life significance of literature by unravelling the function of imaginatio creatrix in man's self interpretation in existence this collection seeks to bring forth the royal role of allegory in the fostering of culture A conjoint work of human elemental passions and of the human spirit allegory mediates between lofty ideals of the highest human strivings and the pedestrian realm of facts Interpretative or theoretical studies encompass allegory mediaeval modern and post modern in various literatures Among the authors are
