Beyond Right And Wrong Beyond Right And Wrong:

Beyond the Troubled Water of Shifei Lin Ma, Jaap van Brakel, 2019-05-21 In recent decades a growing concern in studies in Chinese intellectual history is that Chinese classics have been forced into systems of classification prevalent in Western philosophy and thus imperceptibly transformed into examples that echo Western philosophy Lin Ma and Jaap van Brakel offer a methodology to counter this approach and illustrate their method by carrying out a transcultural inquiry into the complexities involved in understanding shi and fei and their cognate phrases in the Warring States texts the Zhuangzi in particular The authors discuss important features of Zhuangzi's stance with regard to language meaning knowledge doubt questioning equalizing and his well known deconstruction of the discourse in ancient China on shifei Ma and van Brakel suggest that shi and fei apply to both descriptive and prescriptive languages and do not presuppose any fact value dichotomy and thus cannot be translated as either true false or right wrong Instead shi and fei can be grasped in terms of a pre philosophical notion of fitting Ma and van Brakel also highlight Zhuangzi's idea of walking two roads as the most significant component of his stance In addition they argue that all of Zhuangzi's positive recommendations are presented in a language whose meaning is not fixed and that every stance he is committed to remains subject to fundamental questioning as a way of life
