Franchise Your Business Mark Siebert, 2024-05-28 Join franchise expert and consultant Mark Siebert as he delivers the ultimate how to guide to employing the greatest growth strategy ever franchising In this revised and updated second edition Siebert tells you what to expect how to move forward and avoid costly mistakes as he imparts decades of experience insights and practical advice to help grow your business exponentially through franchising Learn how to Use other people s money to grow your business Evaluate your existing businesses for franchisability Identify the advantages and disadvantages of franchising Develop a business plan for growth on steroids Evaluate legal risk obtain necessary documents and protect intellectual property Control quality better than in corporate operations Create marketing plans and tools to attract franchises Sell franchises to the right candidates while avoiding potential problems Help your franchisees establish their franchise businesses Cultivate the franchisee franchisor relationship Prepare your franchise business for an ultimate sale when it is time to exit Franchise Your Business will teach you everything they need to know about the most dynamic growth strategy ever created *Making Fast Food* Ester Reiter, 1996 Some say the adventurous days of grueling and dangerous scientific exploration are long gone but Reiter sociology Brock U undertook a 10 month trek without pay into the uncharted wilds of a Burger King kitchen to bring us first hand accounts of the strange and marvellous customs of the natives The illustrations are hilarious Annotation copyrighted by Book News Inc Portland OR Labour Relations in the Global Fast-Food Industry Tony Royle, Brian Towers, 2004-08-02 The fast food industry is one of the few industries that can be described as truly global not least in terms of employment which is estimated at around ten million people worldwide This edited volume is the first of its kind providing an analysis of labour relations in this significant industry focusing on multinational corporations and large national companies in ten countries the USA Canada the UK the Netherlands Germany Australia New Zealand Singapore and Russia The extent to which multinational enterprises impose or adapt their employment practices in differing national industrial relations systems is analysed Results reveal that the global fast food industry is typified by trade union exclusion high labour turnover unskilled work paternalistic management regimes and work organization that allows little scope for developing workers participation in decision making let alone advocating widely accepted concepts of social justice and workers rights Fast Food Nation Eric Schlosser, 2012 An exploration of the fast food industry in the United States from its roots to its long term consequences Data Analytics Subhashish Samaddar, Satish Nargundkar, 2019-02-18 If you are a manager who receives the results of any data analyst s work to help with your decision making this book is for you Anyone playing a role in the field of analytics can benefit from this book as well In the two decades the editors of this book spent teaching and consulting in the field of analytics they noticed a critical shortcoming in the communication abilities of many analytics professionals Specifically analysts have difficulty in articulating in business terms what their analyses showed and what actionable recommendations were made When analysts made

presentations they tended to lapse into the technicalities of mathematical procedures rather than focusing on the strategic and tactical impact and meaning of their work As analytics has become more mainstream and widespread in organizations this problem has grown more acute Data Analytics Effective Methods for Presenting Results tackles this issue The editors have used their experience as presenters and audience members who have become lost during presentation Over the years they experimented with different ways of presenting analytics work to make a more compelling case to top managers They have discovered tried and true methods for improving presentations which they share The book also presents insights from other analysts and managers who share their own experiences It is truly a collection of experiences and insight from academics and professionals involved with analytics The book is not a primer on how to draw the most beautiful charts and graphs or about how to perform any specific kind of analysis Rather it shares the experiences of professionals in various industries about how they present their analytics results effectively They tell their stories on how to win over audiences The book spans multiple functional areas within a business and in some cases it discusses how to adapt presentations to the needs of audiences at different levels of management
