Paradise: A Viral Song Arif C., 2015-10-05 This is a project that attempts to read the lyrics of a song along with the constant disruption of the online images whose content, according to Google, appears to be in a dialogue with the song. The practice of reading is accompanied by that of rewriting, which turns the song into a poem and the visual online materials into a written narrative.

X: The Experience When Business Meets Design Brian Solis, 2015-10-13 Welcome to a new era of business in which your brand is defined by those who experience it. Do you know how your customers experience your brand today? Do you know how they really feel? Do you know what they say when you're not around? In an always-on world where everyone is connected to information and also one another, customer experience is your brand. And without defining experiences, brands become victims to whatever people feel and share. In his new book *X: The Experience When Business Meets Design*, bestselling author Brian Solis shares why great products are no longer good enough to win with customers and why creative marketing and delightful customer service too are not enough to succeed. In *X*, he shares why the future of business is experiential and how to create and cultivate meaningful experiences. This isn't your ordinary business book. The idea of a book was reimagined for a digital-meets-analog world to be a relevant and sensational experience. Its aesthetic was meant to evoke emotion while also giving new perspective and insights to help you win the hearts and minds of your customers. And the design of this book, along with what fills its pages, was done using the principles shared within. Brian shares more than the importance of experience. You'll learn how to design a desired meaningful and uniform experience in every moment of truth in a fun way, including how our own experience gets in the way of designing for people not like us.
