Predatory Value Extraction William Lazonick, Jang-Sup Shin, 2019-12-04 *Predatory Value Extraction* explains how an ideology of corporate resource allocation known as maximizing shareholder value MSV that emerged in the 1980s came to dominate strategic thinking in business schools and corporate boardrooms in the United States Undermining the social foundations of sustainable prosperity it resulted in employment instability income inequity and slow productivity growth In explaining what happened to sustainable prosperity William Lazonick and Jang Sup Shin focus on the growing imbalance between value creation and value extraction in the U S economy and the corporate governance institutions that determine this balance in the nation s major business corporations The imbalance has become so extreme that predatory value extraction is now a central economic activity to the point at which the U S economy as a whole can be aptly described as a value extracting economy Balancing the contributions of economic actors to value creation with their power to extract value provides the foundation for stable and equitable economic growth When certain economic actors are able to assert their power to extract far more value than they contribute to the value creation process an imbalance occurs which when extreme leads to dire economic political and social consequences This book not only explores these consequences but also sets out an agenda for restoring sustainable prosperity

Iconic watches Colin Salter, 2025-05-06 A charmingly illustrated telling of the remarkable stories behind over 30 of the world s most iconic timepieces From the humble digital watch to luxury examples of haute horology from Switzerland a watch s combination of design engineering and functionality can captivate a wearer *Iconic Watches* presents over 30 timepieces that would sit proudly in any watch enthusiast s collection From the watch that helped US soldiers win World War II to the first watch on the moon the most valuable lost watch of all time to the timepiece that almost destroyed the Swiss watchmaking industry each entry offers an intimate portrait of why each watch deserves its place in history The remarkable stories cover the globe and beyond featuring Hollywood royalty actual royalty daring adventurers war heroes legendary designers and engineers and much more It s a beautifully illustrated window into the watch industry and one that readers are sure to love spending time with

The Unstoppable Sales^SM Prospecting System Shawn Casemore,2025-11-18 How do some sales professionals seem to have a never ending stream of qualified leads whereas others need help even to get a meeting Is it the product they sell their mastery of LinkedIn or other social platforms or simply the result of years of experience The answer is not so straightforward despite what many experts will say to you If it were everyone would be a master at prospecting when it s quite the opposite Studies have repeatedly shown that prospecting is one of the most difficult if not the most challenging parts of sales The good news however is that when you do master

prospecting you will be an in demand sales professional with transferable skills that set you apart from your competition and allow you to have the income level you choose This book uncovers the methods skills and strategies necessary to build your own Unstoppable SalesSM Prospecting system Unlike any other this system equips you with the tools to generate a consistent stream of prospects regardless of your industry product or location **Adsensory Financialisation** Pamela Odih,2016-09-23 Adsensory technology presupposes a neoliberal entrepreneurial self as an integral feature of its biopolitical financialisation of healthcare regimes According to Michel Foucault neoliberalism is indebted to the endeavour of its self disciplined subjects investing human capital in a self regulated entrepreneurial pursuit of responsible healthcare and well being Primarily informed by social network analytics and virtual ethnographic observations this book identifies the biopolitical basis of adsensory technologies It argues that a paradoxical feature of adsensory technologies dissimulating that there is nothing Jean Baudrillard is the proliferation of risk This is because the dissimulation of nothing opens up the possibility that everything can be a risk in so far as the type of event it falls under can be treated according to the principles of insurance technology Francois Ewald Adsensory wearable technologies are called upon as a strategy of deterrence Jean Baudrillard to indemnify capitalism s production of signs which dissimulate their simulation In a context in which much that was certain now feigns its own existence the insurance professed by adsensory technologies provides for an unrealisable guarantee against indefinable unknowable risks Based also on case studies of European Court of Justice personal finance insurance rulings this book engages critically with the neoliberal construct of the entrepreneurial lifestyle insurance subject Social network analytics are utilised here to map bio technology onto neoliberal regimes of financialised well being and healthcare provision In so doing the book situates adsensory technologies within the marketising healthcare management programmes that are currently aligning the neoliberal reengineering of health and well being citizenship with the biopolitical healthcare financialisation of populations Paradoxically in their endeavour to actor network virtual well being health communities adsensory technologies proliferate the individuating marketised conditions of neoliberal self regulating entrepreneurialism This gives rise to aleatory materialist dialectics of financialised surveillance far exceeding the regulatory time and space modalities of Foucauldian panoptics and Mathiesen synoptics Adsensory technologies are integral to a seismic transformation in the cultural economies of time presently eliding digital advertising and insurantal technologies Axiomatic with the synchronic times of the adsensory technologies valorised by lifestyle insurance much riskier asynchronic embodied times transgressively dissimulating the limits of financialisation are beginning to emerge **Trends Shaping Education 2022** OECD,2022-01-18 Did you ever wonder what the impact of climate change will be on our educational institutions in the next decade What does it mean for schools that our societies are becoming more individualistic and diverse Trends Shaping Education is a triennial report examining major economic political social and technological trends affecting education
