Analyzing Textual Information Johannes Ledolter,Lea S. VanderVelde,2021-05-26 Researchers in the social sciences and beyond are dealing more and more with massive quantities of text data requiring analysis from historical letters to the constant stream of content in social media Traditional texts on statistical analysis have focused on numbers but this book will provide a practical introduction to the quantitative analysis of textual data Using up to date R methods this book will take

readers through the text analysis process from text mining and pre processing the text to final analysis It includes two major case studies using historical and more contemporary text data to demonstrate the practical applications of these methods Currently there is no introductory how to book on textual data analysis with R that is up to date and applicable across the social sciences Code and a variety of additional resources to enrich the use of this book are available on an accompanying website These resources include data files from the 39th Congress and also the collection of tweets of President Trump now no longer available to researchers via Twitter itself Library Work ,1909
