

A woman with dark, wavy hair, wearing a white long-sleeved shirt, is looking back over her right shoulder. She is standing in front of a large, out-of-focus crowd of people. The background is a mix of blue and orange light, suggesting a sunset or sunrise. The overall mood is contemplative and slightly somber.

Book Of Numbers A Novel

Lucille Chia

Book Of Numbers A Novel:

The Books of Numbers Timothy R. Ashley, 1993-07-22 Ashley's study on the book of Numbers is part of The New International Commentary on the Old Testament. Like its companion series on the New Testament, this commentary devotes considerable care to achieving a balance between technical information and homiletic devotional interpretation. *Books in Numbers* Lucille Chia, 2007 This collection of essays is a result of an academic conference entitled Books in Numbers held in celebration of the seventy fifth anniversary of the Harvard Yenching Library. The aim of this conference was to celebrate the book culture of East Asia by comparing and contrasting the development of manuscript and print culture in each of the separate cultural areas of the region: China, Korea, Japan, Vietnam, and Central Asia. The essays do not attempt to offer a complete picture of the history of writing and the book in East Asia, but rather they hope to make a modest contribution by highlighting the differential developments in each of the cultural regions as they were influenced by political, economic, social, and cultural factors. *The Five Books of Moses: NUMBERS* Jeanne Gossett Halsey, 2019-03-13 Moses the great Law Giver wrote five golden books for the whole world to know what Jehovah God, the God of Abraham, Isaac, and Jacob had done from the literal Beginning when the Earth was created until the day His people entered their Promised Land. From these books, even those that seem to be all about rules and regulations, long lists of names and places, we have the foundation for civilization. Humanity is supposed to live by the Word of God, by the Laws of God, under the guidance and teaching of God Himself. Every chapter of the book of Numbers has relevance to the 21st century. Reading by Numbers Katherine Bode, 2012 *Reading by Numbers: Recalibrating the Literary Field* is the first book to use digital humanities strategies to integrate the scope and methods of book and publishing history with issues and debates in literary studies. By mining, visualising, and modelling data from AustLit, an online bibliography of Australian literature that leads the world in its comprehensiveness and scope, this study revises established conceptions of Australian literary history, presenting new ways of writing about literature and publishing and a new direction for digital humanities research. The case studies in this book offer insight into a wide range of features of the literary field, including trends and cycles in the gender of novelists, the formation of fictional genres and literary canons, and the relationship of Australian literature to other national literatures. **LIFE**, 1969-04-04 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century. Compiled from two volumes of Raymond Queneau's essays *B tons chiffres et lettres* and *Le Voyage en Gr ce* these selections find Queneau at his most playful and at his most serious eloquently pleading for a certain classicism even as he reveals the roots of his own wildly original oeuvre. Ranging from the funny to the furious they follow Queneau from modernism to postmodernism by way of countless fascinating detours including his thoughts on language literary fashions myth politics poetry and other writers Faulkner Flaubert Hugo and Proust. Translator Jordan Stump provides an introduction as well as explanatory notes about key figures and Queneau himself.
