Industrie,1989 A Philosophy of Technology Peter Vermaas,Peter Kroes,Ibo van de Poel,Maarten Franssen,Wybo
Houkes,2022-05-31 In A Philosophy of Technology From Technical Artefacts to Sociotechnical Systems technology is
analysed from a series of different perspectives The analysis starts by focussing on the most tangible products of technology
called technical artefacts and then builds step wise towards considering those artefacts within their context of use and
ultimately as embedded in encompassing sociotechnical systems that also include humans as operators and social rules like
legislation Philosophical characterisations are given of technical artefacts their context of use and of sociotechnical systems
Analyses are presented of how technical artefacts are designed in engineering and what types of technological knowledge is
involved in engineering And the issue is considered how engineers and others can or cannot influence the development of
technology These characterisations are complemented by ethical analyses of the moral status of technical artefacts and the
possibilities and impossibilities for engineers to influence this status when designing artefacts and the sociotechnical systems
in which artefacts are embedded The running example in the book is aviation where aeroplanes are examples of technical
artefacts and the world aviation system is an example of a sociotechnical system Issues related to the design of quiet
aeroplane engines and the causes of aviation accidents are analysed for illustrating the moral status of designing and the role
of engineers therein Table of Contents Technical Artefacts Technical Designing Ethics and Designing Technological
Knowledge Sociotechnical Systems The Role of Social Factors in Technological Development Ethics and Unintended
Consequences of Technology
