

4000 Series Disc Drills

SEEDMATIC®

The Aitchison Seedmatic 4000 'D' Drill has been developed further to incorporate a heavier Dragarm. This includes: -

- Concave disc 406mm (16 inch) to take on the heavy Residual covers that is now being expected of modern machines these days. Which gives a larger rolling circumference giving better cutting and penetration when the going gets tough.
- A spring loaded vertical travel of 150mm that allows the disc to follow the contour of the soil surface with a more even seed depth placement.

Along with the above also included is 125 mm row spacing, the unique Aitchison Sponge Feed Seeding mechanism giving the seed the ultimate secure opportunity to establish a great pasture or crop. The Aitchison Electronic area meter for metric or imperial measurements of work done and Treadboard to make loading the Drill with Seed safer.
