A Practical Guide For Translators A Practical Guide For Translators:

A Practical Guide for Translators Geoffrey Samuelsson-Brown, 2010-03-24 This is the fifth revised edition of the best selling *A Practical Guide for Translators*. It looks at the profession of translator on the basis of developments over the last few years and encourages both practitioners and buyers of translation services to view translation as a highly qualified skilled profession and not just a cost led word mill. The book is intended principally for those who have little or no practical experience of translation in a commercial environment. It offers comprehensive advice on all aspects relevant to the would be translator and whilst intended mainly for those who wish to go freelance it is also relevant to the staff translator as a guide to organisation of work and time. Advice is given on how to set up as a translator from the purchase of equipment to the acquisition of clients. The process of translation is discussed from initial enquiry to delivery of the finished product. Hints are given on how to assess requirements how to charge for work how to research and use source material and how to present the finished product. Guidance is given on where to obtain further advice and professional contacts. This revised edition updates practices in the translation profession and considers the impact of web based translation offerings. Industry and commerce rely heavily on the skills of the human translator and his ability to make intellectual decisions that is as yet beyond the capacity of computer aided translation.

Literary Translation Clifford E. Landers, 2001-09-13 In this book both beginning and experienced translators will find pragmatic techniques for dealing with problems of literary translation whatever the original language. Certain challenges and certain themes recur in translation whatever the language pair. This guide proposes to help the translator navigate through them. Written in a witty and easy to read style the book's hands on approach will make it accessible to translators of any background. A significant portion of this *Practical Guide* is devoted to the question of how to go about finding an outlet for one's translations.

Given the very wide variety of backgrounds translator trainers come from the text aims to be equally of use to language teachers new to translation to professional translators new to teaching or training to recent graduates in translation intending to embark on academic careers in translation studies and to more experienced trainers wishing to reflect on their activity or to train new trainers. For that reason no specific prior knowledge or experience of training is taken for granted. A systematic approach to curriculum and syllabus design is adopted guiding readers from the

writing of learning outcomes or objectives through to the design of teaching and learning activities to the assessment of learning and course evaluation all this applied throughout in detail to the field of translation Chapters contain exercises and activities designed to promote reflection on practice and to help trainers to develop their teaching skills as well as their own course material These activities are suitable both for self learners and for groups on trainer training and staff development courses
