A Prehistory Of Ordinary People:

A Prehistory of Ordinary People Monica L. Smith, 2021-11-23 For the past million years individuals have engaged in multitasking as they interact with the surrounding environment and with each other for the acquisition of daily necessities such as food and goods Although culture is often perceived as a collective process it is individual people who use language experience illness expend energy perceive landscapes and create memories These processes were sustained at the individual and household level from the time of the earliest social groups to the beginnings of settled agricultural communities and the eventual development of complex societies in the form of chiefdoms states and empires Even after the advent of civilization about 6 000 years ago human culture has for the most part been created and maintained not by the actions of elites as is commonly proclaimed by many archaeological theorists but by the many thousands of daily actions carried out by average citizens With this book Monica L Smith examines how the archaeological record of ordinary objects used by ordinary people constitutes a manifestation of humankind s cognitive and social development A Prehistory of Ordinary People offers an impressive synthesis and accessible style that will appeal to archaeologists cultural anthropologists and others interested in the long history of human decision making

The Comparative Archaeology of Complex Societies Michael E. Smith, 2011-09-05 Part of a resurgence in the comparative study of ancient societies this book presents a variety of methods and approaches to comparative analysis through the examination of wide ranging case studies Each chapter is a comparative study and the diverse topics and regions covered in the book contribute to the growing understanding of variation and change in ancient complex societies The authors explore themes ranging from urbanization and settlement patterns to the political strategies of kings and chiefs to the economic choices of individuals and households The case studies cover an array of geographical settings from the Andes to Southeast Asia The authors are leading archaeologists whose research on early empires states and chiefdoms is at the cutting edge of scientific archaeology

The Story of Food in the Human Past Robyn E. Cutright, 2021-01-26 A sweeping overview of how and what humans have eaten in their long history as a species The Story of Food in the Human Past How What We Ate Made Us Who We Are uses case studies from recent archaeological research to tell the story of food in human prehistory Beginning with the earliest members of our genus Robyn E Cutright investigates the role of food in shaping who we are as humans during the emergence of modern Homo sapiens and through major transitions in human prehistory such as the development of agriculture and the emergence of complex societies This fascinating study begins with a discussion of how food shaped humans in evolutionary terms by examining what makes human eating unique the use of fire to cook and the origins of cuisine as culture and adaptation through the example of Neandertals The second part of the book describes how cuisine was reshaped when humans domesticated plants and animals and examines how food expressed ancient social structures and identities such as gender class and ethnicity Cutright shows how food took on special meaning in feasts and religious rituals and also pays attention to the daily preparation and

consumption of food as central to human society Cutright synthesizes recent paleoanthropological and archaeological research on ancient diet and cuisine and complements her research on daily diet culinary practice and special purpose mortuary and celebratory meals in the Andes with comparative case studies from around the world to offer readers a holistic view of what humans ate in the past and what that reveals about who we are *Encyclopedia of Consumption and Waste* Carl A. Zimring, William L. Rathje, 2012-02-29 These volumes convey what daily life is like in the Middle East Asia and Africa Entries will aid readers in understanding the importance of cultural sociology to appreciate the effects of cultural forces around the world *The Angkorian World* Mitch Hendrickson, Miriam T. Stark, Damian Evans, 2023-04-28 The Angkorian World explores the history of Southeast Asia's largest ancient state from the first to mid second millennium CE Chapters by leading scholars combine evidence from archaeology texts and the natural sciences to introduce the Angkorian state describe its structure and explain its persistence over more than six centuries Comprehensive and accessible this book will be an indispensable resource for anyone studying premodern Asia The volume's first of six sections provides historical and environmental contexts and discusses data sources and the nature of knowledge production The next three sections examine the anthropogenic landscapes of Angkor agrarian urban and hydraulic the state institutions that shaped the Angkorian state and the economic foundations on which Angkor operated Part V explores Angkorian ideologies and realities from religion and nation to identity The volume's last part reviews political and aesthetic Angkorian legacies in an effort to explain why the idea of Angkor remains central to its Cambodian descendants Maps graphics and photographs guide readers through the content of each chapter Chapters in this volume synthesise more than a century of work at Angkor and in the regions it influenced The Angkorian World will satisfy students researchers academics and the knowledgeable layperson who seeks to understand how this great Angkorian Empire arose and functioned in the premodern world The Prologue and Chapters 2 10 15 23 30 and 32 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons CC BY NC ND 4.0 license *Cultural Sociology of the Middle East, Asia, and Africa* Andrea L. Stanton, 2012 In our age of globalization and multiculturalism it has never been more important to understand and appreciate all cultures across the world The four volumes take a step forward in this endeavour by presenting concise information on those regions least well known to students across Europe the Middle East Asia and Africa The volumes convey what daily life is like for people in these selected regions Entries will aid readers in understanding the importance of cultural sociology to appreciate the effects of cultural forces around the world and to learn the history of countries and cultures within these important regions Key Features Topics are explored within historical context in three broad historical periods prehistory to 1250 1250 to 1920 and 1920 to the present One volume each is devoted to the regions of the Middle East and Africa and then one volume to East and Southeast Asia and a final volume to West Central and South Asia The volumes include extensive use of photographs and maps to explain cultural and geographic content Each volume has its own volume editor with expertise in

that particular region Key Themes Arts Culture and Science People Society and Dynasties Religion and Law Family and Daily Life Conflicts and Wars Politics and Government Health and Education Economy Trade and Industry National Geography and History

After Dark Nancy Gonlin, Meghan E Strong, 2022-08-15 After Dark explores the experience of nighttime within ancient urban settings Contributors present material evidence related to how ancient people manipulated and confronted darkness and night in urban landscapes advancing our knowledge of the archaeology of cities the archaeology of darkness and night and lychnology the study of ancient lighting devices Sensory archaeology focuses on the sensual experience of the nocturnal environment the sights sounds smells tastes and feel of an ancient city and the multi faceted stimuli that diverse urban populations experienced in the dark Contributors investigate night work for example standing guard or pursuing nocturnal trades and nightlife such as gambling at Chaco Canyon They also examine how urban architecture infrastructure and the corresponding lighting were inextricably involved in enabling nighttime pursuits and signaling social status The subjects of the night darkness and illumination taken together form a comprehensive framework for analyzing city life After Dark embraces night as a conceptual lens through which to view the material and visual cultures of the ancient world and in doing so demonstrates a wealth of activities behaviors and beliefs that took place between dusk and dawn This perspective greatly enriches the understanding of urban life and its evolution and has much to offer archaeologists in deepening an examination of complexity and inequality This volume will be of interest to any scholar or student of the past who is interested in urban activities and the significance of the night in urban settings Contributors Susan M Alt J Antonio Ochatoma Cabrera Martha Cabrera Romero Tiffany Earley Spadoni Kirby Farrah Nancy Gonlin Anna Guengerich Christopher Hernandez John Janusek Kristin V Landau Maggie L Popkin Monica L Smith Meghan E Strong Susan Toby Evans Robert S Weiner

The Oxford Handbook of Spontaneous Thought Kieran C. R. Fox, Kalina Christoff, 2018 Where do spontaneous thoughts come from It may be surprising that the seemingly straightforward answers from the mind or from the brain are in fact an incredibly recent understanding of the origins of spontaneous thought For nearly all of human history our thoughts especially the most sudden insightful and important were almost universally ascribed to divine or other external sources Only in the past few centuries have we truly taken responsibility for their own mental content and finally localized thought to the central nervous system laying the foundations for a protoscience of spontaneous thought But enormous questions still loom what exactly is spontaneous thought Why does our brain engage in spontaneous forms of thinking and when is this most likely to occur And perhaps the question most interesting and accessible from a scientific perspective how does the brain generate and evaluate its own spontaneous creations Spontaneous thought includes our daytime fantasies and mind wandering the flashes of insight and inspiration familiar to the artist scientist and inventor and the nighttime visions we call dreams This Handbook brings together views from neuroscience psychology philosophy phenomenology history education contemplative traditions and clinical practice to begin to address the ubiquitous but poorly understood mental phenomena

that we collectively call spontaneous thought In studying such an abstruse and seemingly impractical subject we should remember that our capacity for spontaneity originality and creativity defines us as a species and as individuals Spontaneous forms of thought enable us to transcend not only the here and now of perceptual experience but also the bonds of our deliberately controlled and goal directed cognition they allow the space for us to be other than who we are and for our minds to think beyond the limitations of our current viewpoints and beliefs *Resistance at the Edge of Empires* Cameron A. Petrie, 2020-12-28 From 1985 to 2001 the collaborative research initiative known as the Bannu Archaeological Project conducted archaeological explorations and excavations in the Bannu region in what was then the North West Frontier Province NWFP of Pakistan now Khyber Pakhtunkhwa This Project involves scholars from the Pakistan Heritage Society the British Museum the Institute of Archaeology UCL Bryn Mawr College and the University of Cambridge This is the third in a series of volumes that present the final reports of the exploration and excavations carried out by the Bannu Archaeological Project This volume presents the first synthesis of the archaeology of the historic periods in the Bannu region spanning the period when the first large scale empires expanded to the borders of South Asia up until the arrival of Islam in the subcontinent at the end of the first and beginning of the second millennium BC The Bannu region provides specific insight into early imperialism in South Asia as throughout this protracted period it was able to maintain a distinctive regional identity in the face of recurring phases of imperial expansion and integration Latin American Heritage Fabiana Lopes da Cunha, Marcilene dos Santos, Jorge Rabassa, 2017-07-28 Focusing on Brazil this book approaches the term heritage from not only a historical and architectural point of view but also considers its artistic archaeological natural ethnological and industrial aspects The book is divided into four thematic sections 1 traditions and intangible heritage 2 archaeological heritage 3 natural heritage and landscapes and 4 heritage of industrial and built environments and presents chapters on a diverse range of topics from samba and cultural identities in Rio de Janeiro to the history of Brazilian archaeology the value of scenic landscapes in Brazil and the cultural landscape of Brazil As an outcome of the First Heritage International Symposium this unique book explores a variety of heritage dialogues pursuing global and specific approaches and combining different views perceptions and senses
