Purification of the soul is a principle that is central to understanding Islamic spirituality but despite this relatively little has been written explicitly in the Islamic tradition regarding this discrete method of spiritual purification This book examines the work of a scholar of this discipline al-Harith al-Muhāsibī who lived and worked during the classical Islamic period under the Abbasids Although al-Muhāsibī was well known for his skills in many disciplines including the Qur'anic Prophetic narration and scholastic theology it is his mastery in the field of Islamic spirituality and moral psychology for which he is best remembered Assessing the extent to which the political social and economic factors played a part in his life and work Gavin Picken provides a comprehensive overview of his work and its great significance in the development of Islamic spirituality Reconstructing his life in chronological order and providing the most comprehensive appraisal of his works to date it explores a facet of al-Muhāsibī's teaching which as yet has not been studied namely his understanding concept and methodology regarding the purification of the soul within the Islamic paradigm As such it will be of great interest not only to researchers and students of Sufism but also to scholars of comparative spirituality and mysticism **Hadith: Oxford**

Samadi,2021-05-25 Mona Samadi examines the sources of gender differences within the Islamic legal tradition and describes how Islamic law entitles individuals to justice according to their status abilities and potential In the case of men and women s capabilities the underlying principle is that they are entitled to the same rights as long as their capabilities are the same In the legal construction of women s status women have been prescribed lacking the same abilities and capabilities as men As such their status and rights differ justifying men to be the maintainers of women By presenting the historical development of women s status and how women s legal status is debated in contemporary Muslim societies Mona Samadi convincingly provides various methods for facilitating change within the Islamic legal theory framework **Modern Debates on**

Prophecy and Prophethood in Islam Mahsheed Ansari,2023-07-17 While prophethood is the backbone of the Islamic tradition and an uncompromised tenet of faith the impact of modernity with its ambivalent status afforded to the prophet and institution of prophethood shook many Muslim scholars Through analysis of these modern debates on prophethood in Islam this book situates Muhammad Iqbal s 1877 1938 and Said Nursi s 1877 1960 discourses within it and assesses their implications on the modern period This book introduces the what who and how of the prophets in the Islamic tradition It unveils the rich Islamic literature of both the classical and modern periods and analyses the construction of their philosophies and theologies Concise in both historical and textual analyses this book makes an important contribution to our understanding of contemporary debates on prophecy and prophethood in Islam and will be of great interest to postgraduate students and researchers of Islam religious studies medieval studies and contemporary studies of Islam and religion

Gender Justice in Islamic Law Musa Usman Abubakar,2018-06-14 This book seeks to interrogate the classical fiqh formulation on gender and homicide with a view to exploring further the debate on whether the so called gender injustice in Islamic law is a human creation or attributable to the divine sources of the Qur an and Sunnah The study is in response to the increasing criticism of the Islamic criminal law regime and the accusation that it discriminates on the basis of gender It argues that any attempt to critique a religious question through the lens of traditional Western human rights ideals would be resisted by the vast majority of Muslims An examination of the question and any suggested solutions offered would be much more effective if situated within the system they identify with that is to address the question of gender justice deficit from

within the Islamic legal tradition Focusing on Nigeria and Pakistan the book achieves this by drawing on classical fiqh literature contemporary literature legislative sources and relevant case law *The Teaching and Study of Islam in Western Universities* Paul Morris,William Shepard,Paul Trebilco,Toni Tidswell,2013-11-26 Public interest in the religion of Islam and in Muslim communities in recent years has generated an impetus for Western Universities to establish an array of Institutes and programs dedicated to the study of Islam Despite the growth in number of programs dedicated to this study very little attention has been paid to the appropriate shape of such programs and the assumptions that ought to underlie such a study The Teaching and Study of Islam in Western Universities attempts to address two central questions that arise through the teaching of Islam Firstly what relation is there between the study of the religion of Islam and the study of those cultures that have been shaped by that religion Secondly what is the appropriate public role of a scholar of Islam After extensive discussion of these questions the authors then continue to address the wider issues raised for the academic community having to negotiate between competing cultural and philosophical demands This edited collection provides new perspectives on the study of Islam in Western Institutions and will be an invaluable resource for students of Education and Religion in particular Islamic Studies **Broadening Horizon** Matthew Wilhelm Kapell,2025-02-27 Increasingly digital games center their narratives during or after the apocalypse In 2017 the action role playing game Horizon Zero Dawn offered a new take on society after the end of the world Horizon has since become a multimedia franchise with a second video game released in 2022 in addition to comic books a board game and other adaptations in development This collection analyzes the Horizon franchise and its presentation of the apocalypse ecology gender history and more Game story and game mechanics are fundamental to each essay and contributors offer a close reading or close playing of the games from perspectives as diverse as hauntology postcolonialism contemporary feminism and historiography This first collection on the Horizon franchise argues that we now live in an Apocalyptic period in the same way previous periods were known as Romantic Modernist or Realist Periods and makes the case that Horizon belongs at the crest of this new Apocalyptic Period and at the center of contemporary gaming and of game studies *Islam* Cenap Çakmak,2017-05-18 This expansive four volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater respect for cultural diversity One of the most popular and widespread religions in the world Islam has attracted a great deal of attention in recent times particularly in the Western world With the ongoing tensions in the Middle East and a pervasive sense of hostility toward Arab Americans there is ever increasing need to examine and understand Islam as a religion and historical force Islam A Worldwide Encyclopedia provides some 700 entries on Islam written by expert contributors that cover the religion from the birth of Islam to the present time The set also includes 16 pages of color images per volume that serve to illustrate the diverse expressions of this important religious tradition Each entry begins with a basic introduction followed by a general discussion of the subject and a conclusion Each entry also features a further readings list
