The Business of Baby Jennifer Margulis, 2013-04-16. No Impact Man Colin Beavan, 2009-09-01. Bill McKibben meets Bill Bryson in this seriously engaging look at one man's decision to put his money where his mouth is and go off the grid for one year while still living in New York City to see if it's possible to make no net impact on the environment. In *No Impact Man*, a guilty liberal finally snaps, swears off plastic, goes organic, becomes a bicycle nut, turns off his power, and generally becomes a tree-hugging lunatic who tries to save the polar bears and the rest of the planet from environmental catastrophe while dragging his baby daughter and Prada-wearing Four Seasons-loving wife along for the ride. And that's just the beginning. In other words: no trash, no toxins in the water, no elevators, no subway, no products in packaging, no air conditioning, no television. What would it be like to try to live a no-impact lifestyle? Is it possible? Could it catch on? Is living this way more satisfying or less satisfying? Harder or easier? Is it worthwhile or senseless? Are we all doomed, or can our culture reduce the barriers to sustainable living so it becomes as easy as falling off a log? These are the questions at the heart of this whole mad endeavor, via which Colin Beavan hopes to explain to the rest of us how we can realistically live a more eco-effective and by turns more content life in an age of inconvenient truths.

In *The Eco-nomical Baby Guide*, the authors prove that bringing up baby can be easy on the pocketbook and the planet. Focusing on the reduce, reuse, recycle mantra and writing in a humorous but straightforward style, these resourceful mothers dish about everything from eco-friendly diapers to daycare, making green living with baby accessible to everyone, even those on the slenderest of budgets. Your baby's happiness and safety top Hatch and Kelley's agenda, as they offer tips on shopping for new and used green goods, blending homemade organic baby food, and limiting the piles of baby gear that threaten to overtake the
