A Sociological Theory Of Communication The Self Organization Of The Knowledge Based Society:

Sociological Theory of Communication L. A. Leydesdorff, 2003 A Sociological Theory of Communication Loet Leydesdorff, 2001-01-01 Networks of communication evolve in terms of reflexive exchanges The codification of these reflections in language that is at the social level can be considered as the operating system of society Under sociologically specifiable conditions the discursive reconstructions can be expected to make the systems under reflection increasingly knowledge intensive This sociological theory of communication is founded in a tradition that includes Giddens 1979 structuration theory Habermas 1981 theory of communicative action and Luhmann s 1984 proposal to consider social systems as self organizing The study also elaborates on Shannon s 1948 mathematical theory of communication for the formalization and operationalization of the non linear dynamics The development of scientific communications can be studied using citation analysis The exchange media at the interfaces of knowledge production provide us with the evolutionary model of a Triple Helix of university industry government relations The construction of the European Information Society can then be analyzed in terms of interacting networks of communication The issues of sustainable development and the expectation of social change are discussed in relation to the possibility of a general theory of communication REVIEW In this book Loet Leydesdorff sets out to answer the question Can society be considered as a self organizing autopoietic system In the process Leydesdorff develops a general sociological theory of communication as well as a special theory of scientific communication designed to analyze complex systems such as the European Information Society from review in JASIST 53 1 2002 62 63 **Super Inequality: Theoretical Essays in Economics and Social Policy** Christian Aspalter, 2023-09-16 This book bridges the disciplines of micro economics and social policy in general and in particular behavioral explanatory social policy and public choice theory plus Leibenstein s X efficiency theory Being trained as an economist and social policy scientist the author leaps out of the comfort zone of most social policy scientists and experts right into the exciting world of micro economic theory and then extending and connecting those theories to explain major social political and economic conundrums of our time In doing so the book offers a new set of theoretical and practical explanations derived from the general proposition of micro economic theory of how government officers policymakers administrators and the people themselves alike are by and large motivated in their daily as well as strategic long term decision making Using a meta analytical approach based on a number of grand theories this book also explains systemic factors behind human behavior and the thereof resulting shortcomings in lifetime outcomes health wealth and happiness of a person and at the same time societal policy making and economic outcomes on societal level and in global comparison The outcomes thereof can be measured exactly and hence validated especially through the method of empirical comparative social science economic research Here the author also but not only introduces the new method of using Aspalter s Standardized Relative Performance SRP Index in measuring exactly complex aggregate performances of multiple governments and that at the same time also
