A Theory Of Primitive Christian Religion:

A Theory of Primitive Christian Religion Gerd Theissen, 2003 A discussion of primitive Christianity Christianity in its original form this work was first given as Speaker s Lectures in Oxford Covering the first five centuries of Christianity it argues that neither a theology of the New Testament nor a history of the early Church can do justice to all the dimensions of the earliest Christianity It explores in depth the formation of primitive Christianity and studies the effect of the two great crises of primitive Christianity the split with Judaism and the threat from Gnosticism It is aimed at academic theologians

Sacrifice and the Body John Dunnill, 2016-04-08 What is sacrifice For many people today the word has negative overtones suggesting loss or death or violence But in religions ancient and modern the word is linked primarily to joyous feasting which puts people in touch with the deepest realities How has that change of meaning come about What effect does it have on the way we think about Christianity How does it affect the way Christian believers think about themselves and God John Dunnill s study focuses on sacrifice as a physical event uniting worshippers to deity Bringing together insights from social anthropology biblical studies and Trinitarian theology Dunnill links to debates in sociology and cultural studies as well as the study of liturgy Through a positive view of sacrifice Dunnill contributes to contemporary Christian debates on atonement and salvation

The Religion of the Earliest Churches Gerd Theissen, A major contribution to the theory of religion and early Christianity

Ritual and Christian Beginnings Risto Uro, 2016-04-28 The rise of early Christianity has been

examined from a myriad of perspectives but until recently ritual has been a neglected topic. *Ritual and Christian Beginnings: A Socio Cognitive Analysis* argues that ritual theory is indispensable for the study of Christian beginnings. It also makes a strong case for the application of theories and insights from the Cognitive Science of Religion, a field that has established itself as a vigorous movement in Religious Studies over the past two decades. Risto Uro develops a socio cognitive approach to the study of early Christian rituals seeking to integrate a social level analysis with findings from the cognitive and evolutionary sciences. *Ritual and Christian Beginnings* provides an overview of how ritual has been approached in previous scholarship including reasons for its neglect and introduces the reader to the emerging fields of Ritual Studies and the Cognitive Science of Religion. In particular it explores the ways in which cognitive theories of ritual can shed new light on issues discussed by early Christian scholars and opens up new questions and avenues for further research. The socio cognitive approach to ritual is applied to a number of test cases including John the Baptist, the ritual healing practiced by Jesus and the early Christians, the social life of Pauline Christianity and the development of early Christian baptismal practices. The analysis creates building blocks for a new account of Christian beginnings highlighting the role of ritual innovation, cooperative signalling and the importance of bodily actions for the generation and transmission of religious knowledge.

Liturgy and Architecture Allan Doig, 2017-03-02 In this book Allan Doig explores the interrelationship of liturgy and architecture from the Early Church to the close of the Middle Ages taking into account social, economic, technical, theological and artistic factors. These are crucial to a proper understanding of ecclesiastical architecture of all periods and together their study illuminates the study of liturgy. Buildings and their archaeology are standing indices of human activity and the whole matrix of meaning they present is highly revealing of the larger meaning of ritual performance within and movement through their space. The excavation of the mid third century church at Dura Europos in the Syrian desert, the grandeur of Constantine's Imperial basilicas, the influence of the great pilgrimage sites and the marvels of soaring Gothic cathedrals all come alive in a new way when the space is animated by the liturgy for which they were built. Reviewing the most recent research in the area and moving the debate forward, this study will be useful to liturgists, clergy, theologians, art and architectural historians and those interested in the conservation of ecclesiastical structures built for the liturgy.

Reclaiming Humility Jane Foulcher, 2015 Does humility have a place in contemporary life? Were Enlightenment thinkers wrong to reject humility as a monkish virtue? Hume arising from a slave morality? Nietzsche? Australian theologian Jane Foulcher recovers the counter cultural reading of humility that marked early Christianity and examines its trajectory at key junctures in the development of Western monasticism. Humility emerges not as a moral virtue achieved by human effort but as a way opened by grace, as a divine climate. Christian de Cherg that we are invited to inhabit. From fourth century Egypt to twentieth century Algeria via Saint Benedict and Saint Bernard of Clairvaux, Dr Foulcher's compelling analysis of theology and practice challenges the church to reclaim Christian humility as essential to its life and witness today. **The Acts Of**

The Apostles Gerd Ludemann, 2009-12-04 New Testament historian and author of *Jesus After 2000 Years* examines each individual section of Acts to detect whatever tradition may lie behind it offering a reasoned judgment on the historical value of every event and action described in this early Christian text *Understanding the Social World of the New Testament*
Dietmar Neufeld, Richard E. DeMaris, 2009-10-29 The New Testament is a book of great significance in Western culture yet is often inaccessible to students because the modern world differs so significantly from the ancient Mediterranean one in which it was written Here the authors develop interpretative models for understanding such values as collectivism and kinship
