Story James Taylor, 2024-10-29 The BMW E34 5 Series is considered one of the most impressive car designs to come out of
 the 1980s The BMW E34 5 Series became the benchmark executive saloon during its eight year production life and today
 enthusiasts still look back on it as one of the high points of the BMW story The E34 range made its debut in 1988 and built on
 BMW's growing success in the medium sized saloon class From the start its makers aimed to seize leadership of the market
 sector from their arch rivals at Mercedes Benz and to that end they developed a sleek sporty shape and made the car
 available with a range of 6 cylinder engines These included highly regarded diesel types and later there would be an entry
 level 4 cylinder as well BMW kept the E34 range fresh to the very end through three major eras of production The first lasted
 until 1990 and established the range firmly The second period from 1990 to 1992 brought Touring estate models 4 wheel
 drive variants and advanced new 4 valve engines Between 1992 and 1996 the third phase brought annual updates including
 VANOS variable valve timing and new V8 engines for the top of the range models In the BMW tradition these cars combined
 strong performance with excellent handling and these qualities were exploited to the hilt by the M5 variants produced by the
 legendary M Division Aftermarket tuning specialists made their own contributions too adding to the aura of glamour around
 the E34 range There were lesser known elements of the story too when BMW used the E34 range for some fascinating
 experiments with hybrid power systems a convertible and a dual fuel system **LS Swaps** Jefferson Bryant, 2014-04-10
