Breakout The Chosin Reservoir Campaign Korea 195:

Breakout Martin Russ,2000-05-01 On General Douglas MacArthur s orders a force of 12 000 U S Marines were marching north to the Yalu river in late November 1950 These three regiments of the 1st Marine Division strung out along eighty miles of a narrow mountain road soon found themselves completely surrounded by 60 000 Chinese soldiers Despite being given up for lost by the military brass the 1st Marine Division fought its way out of the frozen mountains miraculously taking thier dead and wounded with them as they ran the gauntlet of unceasing Chinese attacks This is the gripping story that Martin Russ tells in his extraordinary book *Breakout* is an unforgettable portrayal of the terror and courage of men as they face sudden death making the bloody battles of the Korean hills and valleys come alive as they never have before Of interest will be the new PBS American Experience Documentary *The Battle of Chosin* which premiered on November 1 2016 [A Continent Erupts](#) Ronald H. Spector,2022-08-23 A Foreign Affairs Best Book of 2022 Marvelous Spector s gripping book helps us to understand why the legacy of these conflicts is still with us today Sheila Miyoshi Jager New York Times Book Review The end of World War II led to the United States emergence as a global superpower For war ravaged Western Europe it marked the beginning of decades of unprecedented cooperation and prosperity that one historian has labeled the long peace Yet half a world away in China Indonesia Vietnam Korea and Malaya the fighting never really stopped as these regions sought to completely sever the yoke of imperialism and colonialism with all too violent consequences East and Southeast Asia quickly became the most turbulent regions of the globe Within weeks of the famous surrender ceremony aboard the U S S Missouri civil war communal clashes and insurgency engulfed the continent from Southeast Asia to the Soviet border By early 1947 full scale wars were raging in China Indonesia and Vietnam with growing guerrilla conflicts in Korea and Malaya Within a decade after the Japanese surrender almost all of the countries of South East and Southeast Asia that had formerly been conquests of the Japanese or colonies of the European powers experienced wars and upheavals that resulted in the deaths of at least 2 5 million combatants and millions of civilians With *A Continent Erupts* acclaimed military historian Ronald H Spector draws on letters diaries and international archives to provide for the first time a comprehensive military history and analysis of these little known but decisive events Far from being simply offshoots of the Cold War as they have often been portrayed these shockingly violent conflicts forever changed the shape of Asia and the world as we know it today

East of Chosin Roy Edgar Appleman, 1987 Well written and meticulously researched East of Chosin is military history at its best Harry G Summers Jr Washington Post Book World **U.S. Marine Operations in Korea, 1950-1953: The Chosin Reservoir Campaign, by L. Montross and N.A. Canzona** United States. Marine Corps, 1955 **Breakout** Martin Russ, 2000-05 Breakout is the riveting saga of one of the most heroic campaigns in American military history masterfully told by the author of The Last Parallel It is the gripping story of the 1950 campaign of American Marines as they faced sudden death in the Korean hills of photos **Blitzkrieg to Desert Storm** Robert M. Citino, 2022-05-25 When Germany launched its blitzkrieg invasion of France in 1940 it forever changed the way the world waged war Although the Wehrmacht ultimately succumbed to superior Allied firepower in a two front war its stunning operational achievement left a lasting impression on military commanders throughout the world even if their own operations were rarely executed as effectively Robert Citino analyzes military campaigns from the second half of the twentieth century to further demonstrate the difficulty of achieving decisive results at the operational level Offering detailed operational analyses of actual campaigns Citino describes how UN forces in Korea enjoyed technological and air superiority but found the enemy unbeatable provides analyses of Israeli operational victories in successive wars until the Arab states finally grasped the realities of operational level warfare in 1973 and tells how the Vietnam debacle continued to shape U S doctrine in surprising ways Looking beyond major power conflicts he also reveals the lessons of India s blitzkrieg like drive into Pakistan in 1971 and of the senseless bloodletting of the Iran Iraq War Citino especially considers the evolution of U S doctrine and assesses the success of Desert Storm in dismantling an entrenched defending force with virtually no friendly casualties He also provides one of the first scholarly analyses of Operation Iraqi Freedom showing that its plan was curiously divorced from the realities of military history grounded instead on nebulous theories about expected enemy behavior Throughout Citino points to the importance of mobility especially mobilized armor in modern operational warfare and assesses the respective roles of firepower training doctrine and command and control mechanisms Brimming with new insights Citino s study shows why technical superiority is no guarantee of victory and why a thorough grounding in the history of past campaigns is essential to anyone who wishes to understand modern warfare Blitzkrieg to Desert Storm provides that grounding as it addresses the future of operational level warfare in the post 9 11 era **Air University Library Index to Military Periodicals** , 1999 *America, History and Life* , 2000 Article abstracts and citations of reviews and dissertations covering the United States and Canada *Encyclopedia of*
