The SAGE Encyclopedia of Journalism Gregory A. Borchard, 2022-01-28 Journalism permeates our lives and shapes our thoughts in ways that we have long taken for granted This set covers all significant dimensions of journalism such as print broadcast and Internet journalism U S and international perspectives and history technology legal issues and court cases ownership and economics The encyclopedia consists of signed entries from scholars experts and journalists

Politics by Any Other Name Benjamin Ginsberg, 2025-08-15 This book critiques a modern U S political system characterized by the partisan weaponization of bureaucratic systems and institutions Competition for political power in the United States today is not just about winning elections Competing political forces attempt to win at the polls but they do not bet all their chips on electoral outcomes Each party has built an institutional bastion within portions of the federal bureaucracy Each party makes use of judicial and criminal proceedings for partisan purposes a practice dubbed lawfare by the national media And acting through various surrogates each party sponsors violence by proxy to achieve its ends To the extent that political struggles are fought outside the electoral arena ordinary Americans have little or no voice in public affairs And unfortunately in the United States today a good deal of political struggle takes place outside the electoral arena This book will be used in undergraduate and graduate classes in political parties electoral politics and in general U S government classes

Liberalism Mark Dice, 2018-11-13 It s as if we re living in an episode of the Twilight Zone Every day we are inundated by news reports trending topics on social media and new political movements promoting such bizarre beliefs about race gender sexuality and

life in general that it is impossible in many cases to distinguish whether such ideas are serious or if they are a parody of what liberalism has become. The political differences between liberals and conservatives used to be pretty well established but recently the tug of war between the Left and the Right took a dramatic and disturbing turn. Modern liberalism has been replaced with new mind boggling agendas promoting the adoption of unscientific authoritarian and sociologically disastrous ideologies. In attempts to accomplish their plans the Left are conspiring to end freedom of speech, traditional families, long cherished holidays and hope to implement a new world order. Who is behind this madness? What is their ultimate goal? How far are they willing to go to achieve it? And what can we do to stop them? Bestselling author and media analyst Mark Dice takes you on a tour inside the minds of those constructing this new social landscape in his groundbreaking investigation **Liberalism: Find a Cure**.

Reporting on Race in a Digital Era Carolyn Nielsen, 2020-02-19. This book explores U.S. news media's 21st century reckoning with race from the election of President Barack Obama through the birth and growth of the Black Lives Matter movement to the tense weeks after a white police officer killed an unarmed African American teenager in Ferguson, Missouri. While legacy newsrooms struggled to interpret complex events, a diverse group of digital storytellers used emerging technologies. Veteran journalist and media scholar Carolyn Nielsen examines how the first two decades of this century produced new models for journalists to explore the complexity of racism, amplify the voices of lived experience and understand their audiences. Using critical analysis of news coverage and interviews with reporters who cover racial issues, the book shows how new models of journalism break with legacy journalism's conceptions of objectivity, expertise and news judgment to provide deeper understanding of systems of power.
