Breathing Cities The Architecture Of Movement:

Breathing Cities Nick Barley, 2000 Every morning the world's major cities see the influx of millions of people and every evening the same cities see an exodus This book examines the impact of movement in the city describing urban environments not in terms of static structures such as buildings and roads but in terms of the movement of people cars ideas and money It takes a visual approach to the topic in a series of specially commissioned projects photographers Martyn Rose and Takashi Homma and artists Langlands Bell and Nathan Coley explore the extraordinary breathing phenomenon Architectural scholars such as Mark Cousins and the architecture practice Foreign Office and philosopher Simon Glendinning debate the possibilities which emerge In collaboration with August London [The Routledge International Handbook of Globalization Studies](#) Bryan Turner, Robert Holton, 2015-12-22 The second edition of the Routledge International Handbook of Globalization Studies offers students clear and informed chapters on the history of globalization and key theories that have considered the causes and consequences of the globalization process There are substantive sections looking at demographic economic technological social and cultural changes in globalization The handbook examines many negative aspects new wars slavery illegal migration pollution and inequality but concludes with an examination of responses to these problems through human rights organizations international labour law and the growth of cosmopolitanism There is a strong emphasis on interdisciplinary approaches with essays covering sociology demography economics politics anthropology and history The second edition has been completely revised and features important new thinking on themes such as Islamophobia and the globalization of religious conflict shifts in global energy production such as fracking global inequalities fiscal transformations of the state and problems of taxation globalization and higher education and an analysis of the general sense of catastrophe that surrounds contemporary understandings of the consequences of a global world **Drive** Iain Borden, 2013-02-15 The open road it's a phrase that calls to mind a sense of freedom adventure and new possibilities that make driving one of our most liberating activities In *Drive* Iain Borden explores the way driving allows us to encounter landscapes and cities around the world He takes particular notice of how driving is portrayed in film from America to Europe to Asia and from Hollywood to the avant garde covering over a century of history and referencing hundreds of movies From the dusty landscapes of *The Grapes of Wrath* to the city streets of *The Italian Job* from the aesthetic delights of *Rain Man* and *Traffic* to the existential musings of *Thelma and Louise* and *Vanishing Point* from the freeway pleasures of *Radio On* and *London Orbital* to the high speed dangers of *Crash* Bullitt and *Caitlin's Rendezvous* this book shows how driving with different speeds cars roads and cities provides experiences and challenges beyond compare Borden concludes that as an integral part of modern life car driving is something to be celebrated and even encouraged making *Drive* a timely riposte to anti car attitudes and those blind to the richness of life behind the wheel *Key Concepts in Urban Geography* Alan Latham, Derek McCormack, Kim McNamara, Donald McNeill, 2008-12-19 This extraordinary collage of sophisticated essays on key terms in urban geography

both provides a conventional basis to and recasts innovatively a burgeoning field in the discipline Roger Keil co Editor International Journal of Urban and Regional Research The city is an obvious but confounding object of geographical analysis urban structure and life are shaped by an astounding array of social economic and political dynamics This volume embraces these complexities of city form in a wide ranging readable well informed and highly interdisciplinary analysis of key topics in urban studies With its fresh approach this book provides an accessible entry point for the newcomer to urban geography yet also delivers creative insights for those with greater familiarity Professor Steven K Herbert University of Washington

Organized around 20 short essays **Key Concepts in Urban Geography** provides a cutting edge introduction to the central concepts that define contemporary research in urban geography Involving detailed and expansive discussions the book includes An introductory chapter providing a succinct overview of the recent developments in the field Over 20 key concept entries with comprehensive explanations definitions and evolutions of the subject A glossary figures diagrams and suggested further reading This is an ideal companion text for upper level undergraduate and postgraduate students in urban geography and covers the expected staples of the subdiscipline from global cities and urban nature to transnational urbanism and virtuality

World Architecture, 2000 **Integral Urbanism** Nan Ellin, 2013-10-18 Integral Urbanism is an ambitious and forward looking theory of urbanism that offers a new model of urban life Nan Ellin s model stands as an antidote to the pervasive problems engendered by modern and postmodern urban planning and architecture sprawl anomie a pervasive culture and architecture of fear in cities and a disregard for environmental issues Instead of the reactive and escapist tendencies characterizing so much contemporary urban development Ellin champions an integral approach that reverses the fragmentation of our landscapes and lives through proactive design solutions

The Sustainable City IV C. A. Brebbia, Enzo Tiezzi, 2006 Urban areas produce a series of environmental problems arising from the consumption of natural resources and the consequent generation of waste and pollution These problems contribute to the development of social and economic imbalances All these problems which continue to grow in our society require new solutions This book addresses the many inter related aspects of the urban environment from transport and mobility to social exclusion and crime prevention Publishing papers from the Fourth International Conference on Urban Regeneration and Sustainability the volume includes topics such as Strategy and Development Planning Development and Management Environmental Management Planning Issues Socio economic Issues The community and the City Cultural Heritage Architectural Issues Traffic and Transportation Land Use and Management Public Safety Conservation of Resources Sustainable Transportation and Transport Integration Depleted Ecological Resources Environmental Pollution Energy Resources Systems

The Cybercities Reader Stephen Graham, 2004 Providing the most comprehensive international and interdisciplinary analysis yet of the relationships between cities urban life and new technologies this informative book incorporates detailed discussions of cybercity history theory economic processes mobilities physical forms social and cultural worlds digital divides public domains strategies politics and

futures The book includes coverage of post modern technoculture virtual reality and the body global city economies urban surveillance e commerce teleworking community informatics digital architecture urban technology strategies and the role of cities and new technologies in the war on terrorism The first interdisciplinary book to address the complex interrelationships between the use and application of electronic technologies and practices and processes of contemporary metropolitan life this key text adopts a uniquely international perspective Detailed case studies include virtual cities in Amsterdam Internet cabins in Lima back offices in Jamaica and smart highways in Melbourne An excellent teaching aid with part section and individual extract introductions this outstanding book provides an up to date snapshot of how policies for cities and cyberspaces are being combined across the world

Barcelona Helena Buffery, Carlota Caulfield, 2014-04-15 This fully illustrated edited volume brings together fresh insights into the changing urban space of Barcelona from the beginning of the twentieth century to the present day The volume will contribute to the excavation of the avantgarde in Barcelona as well as its legacy in the post war period although its primary focus will be on the relationship between environment identity and performance as explored by countercultural artists and communities from the 1960s to the present day

Performance and the Contemporary City Nicolas Whybrow, 2020-05-15 Cities with their rising populations and complex configurations have become key symbols of a fast changing modernity This timely collection gathers together various urban writings from a range of relevant disciplines including architecture geography sociology visual art ethnography and psychoanalysis Its focus however is performance Underscoring the importance of the field it shows how performance functions as a dynamic interdisciplinary mechanism which is central not only to understanding the multiplicity of urban living but also to the way the identities of cities are shaped Gathering together key writings on the city and performance by authors ranging from Walter Benjamin to Tim Etchells to Carl Lavery the reader can be navigated in any number of ways Supported by extensive introductory material it will be essential and evocative reading for anyone interested in making connections between performance and urban life
