Bridging Literacy And Equity The Essential Guide To Social Equity Teaching:

Bridging Literacy and Equity Althier M. Lazar, Patricia Ann Edwards, Gwendolyn Thompson McMillon, 2012-06-29
Extraordinary K 12 teachers show us what social equity literacy teaching looks like and how it advances children's achievement. Chapters identify six key dimensions of social equity teaching that can help teachers see their students' potential and create conditions that will support their literacy development. Serving students well depends on understanding relationships between race, class, culture, and literacy; the complexity and significance of culture; and the culturally situated nature of literacy. It also requires knowledge of culturally responsive practices such as collaborating with and learning from caregivers, using cultural referents, enacting critical and transformative literacy practices, and seeing the capacities of English Language Learners and children who speak African American Language.

Bridging Literacy and Equity Althier M. Lazar, Patricia A. Edwards, Gwendolyn Thompson McMillon, 2012. *Bridging Literacy and Equity* synthesizes the essential research and practice of social equity literacy teaching in one succinct, user-friendly volume. Chapters identify six key dimensions of social equity teaching that can help teachers see their students' potential and create conditions that will support their literacy development. Serving students well depends on understanding relationships between race, class, culture, and literacy; the complexity and significance of culture; and the culturally situated nature of literacy. It also requires knowledge of culturally responsive practices such as collaborating with and learning from caregivers, using cultural referents, enacting critical and transformative literacy practices, and seeing the capacities of English language learners and children who speak African American Language. Each chapter includes a Reflection and Inquiry section with exercises to help readers relate chapter concepts and issues to their own teaching practices. This will be an invaluable and popular resource for classroom teachers. Karen Lowenstein, Educator Preparation Consultant, Colorado Department of Education. Individuals already involved in the classroom and others preparing to become teachers who are genuinely committed to high quality education for all children will find *Bridging Literacy and Equity* a welcomed and empowering call to action. From the Foreword by Geneva Gay.

New Teachers in Urban Schools: Journeys Toward Social Equity Teaching Althier M. Lazar, Leslie M. Reich, 2016-03-07. This volume informs the reader about new teachers in urban underserved schools and their development as teachers for social equity. The accounts of five novice teachers who grew up outside the communities in which they teach lead to chapters that contain advice for teacher educators, future and current teachers, and school leaders. These early career teachers learned much about bridging the cultural divide between themselves and their students, confronted and resolved big challenges that may immobilize some who set out to teach in these communities. They brought to their classrooms strong social justice orientations, including a moral imperative to make a difference in the world, an awareness of social and educational inequalities, and a strong sense of responsibility to positively influence the life trajectories of students in their charge. Their narratives offer insights on the dispositions and contexts that will help early

career teachers survive and thrive and make a difference in their students lives *Connecting Equity, Literacy, and Language* Althier M. Lazar, Kaitlin K. Moran, Shoshanna Edwards-Alexander, 2023 This book shows literacy professionals how to develop the dispositions and actions associated with advocacy focused teaching While portraits of culturally conscious literacy teachers are now readily available becoming such a teacher continues to be a challenge Drawing from 60 years of experience working with teacher candidates and teachers in the city of Philadelphia the authors argue that becoming an advocacy focused literacy teacher requires making moral commitments to students and developing professional competencies that fuse literacy language and equity studies Recognizing that educators can be overwhelmed trying to match the realities they face daily with the theory behind good practice *Connecting Equity Literacy and Language* packs a lot of big ideas into one readable concise book that is perfect for use in literacy methods courses The text includes definitions and examples of equity concepts relatable teacher vignettes and Pause and Reflect boxes to encourage reflection and classroom conversation Book Features Examines the central problems of students disconnection with school spirit murdering and the teacher education gap Looks at inequities that have become normalized in classrooms and schools through standardized testing literacy teaching routines and structures and deficit laced language about students and families Discusses literacies and languages as cultural practices and the need to be vigilant about the linguistic violence that occurs when students languages are delegitimized Describes critically and culturally centered teaching frameworks Provides vivid examples of advocacy focused teaching *Equity & Cultural Responsiveness in the Middle Grades* Kathleen M. Brinegar, Lisa M. Harrison, Ellis Hurd, 2019-04-01 While developmental responsiveness is a deservedly key emphasis of middle grades education this emphasis has often been to the detriment of focusing on the cultural needs of young adolescents This Handbook volume explores research relating to equity and culturally responsive practices when working with young adolescents Middle school philosophy largely centers on young adolescents as a collective group This lack of focus has great implications for young adolescents of marginalized identities including but not limited to those with culturally and linguistically diverse backgrounds LGBTQ youth and those living in poverty If middle level educators claim to advocate for young adolescents we need to mainstream conversations about supporting all young adolescents of marginalized identities It empowers researchers educators and even young adolescents to critically examine and understand the intersectionality of identities that historically influenced and continue to affect young adolescents and why educators might perceive marginalized youth in certain ways It is for these reasons that researchers teachers and other key constituents involved in the education of young adolescents must devote themselves to the critical examination and understanding of the historical and current socio cultural factors affecting all young adolescents The chapters in this volume serve as a means to open an intentional and explicit space for providing a critical lens on early adolescence a lens that understands that both developmental and cultural needs of young adolescents need to be emphasized to create a learning environment that

supports every young adolescent learner **Social Diversity within Multiliteracies** Fenice B. Boyd, Cynthia H. Brock, 2014-12-05 Using a multiliteracies theoretical framework highlighting social diversity and multimodality as central in the process of meaning making this book examines literacy teaching and learning as embedded in cultural linguistic racial sexual and gendered contexts and explores ways to foster learning and achievement for diverse students in various settings Attending simultaneously to topics around two overarching and interrelated themes languages and language variations and cultures ethnicities and identities the chapter authors examine the roles that multiliteracies play in students lives in and out of classrooms In Part I readers are asked to examine beliefs and dispositions as related to different languages language varieties cultures ethnicities and identities Part II engages readers in examining classroom and community practices related to different languages and language varieties cultures ethnicities and identities **Teaching and Learning about Family Literacy and Family Literacy Programs** Jacqueline Lynch, Esther Prins, 2021-12-30 This book provides a systematic exploration of family literacy including its historic origins theoretical expansion practical applications within the field and focused topics within family literacy Grounded in sociocultural approaches to learning and literacy the book covers research on how families use literacy in their daily lives as well as different models of family literacy programs and interventions that provide opportunities for parent child literacy interactions and that support the needs of children and parents as adult learners Chapters discuss key topics including the roles of race ethnicity culture and social class in family literacy digital family literacies family school relationships and parental engagement in schools fathers involvement in family literacy accountability and employment and more Throughout the book Lynch and Prins share evidence based literacy practices and highlight examples of successful family literacy programs Acknowledging lingering concerns challenges and critiques of family literacy the book also offers recommendations for research policy and practice Accessible and thorough this book comprehensively addresses family literacies and is relevant for researchers scholars graduate students and instructors and practitioners in language and literacy programs **Best Practices in Literacy Instruction, Fifth Edition** Linda B.
