Beyond The University Why Liberal Education Matters:

Beyond the University Michael S. Roth, 2014-05-06 In this provocative contribution to the disputes surrounding a liberal education university president Michael S Roth focuses on important moments and seminal thinkers in America's long running argument over vocational vs liberal education [Redesigning Liberal Education](#) William Moner, Phillip Motley, Rebecca Pope-Ruark, 2020-07-07 Redesigning liberal education requires both pragmatic approaches to discover what works and radical visions of what is possible The future of liberal education in the United States in its current form is fraught but full of possibility Today's institutions are struggling to maintain viability sustain revenue and assert value in the face of rising costs But we should not abandon the model of pragmatic liberal learning that has made America's colleges and universities the envy of the world Instead Redesigning Liberal Education argues we owe it to students to reform liberal education in ways that put broad and measurable student learning as the highest priority Written by experts in higher education the book is organized into two sections The first section focuses on innovations at 13 institutions Brown University College of the Holy Cross Connecticut College Elon University Florida International University George Mason University Georgetown University Lasell College Northeastern University Rollins College Smith College Susquehanna University and the University of Wisconsin Green Bay Chapters about these institutions consider the vast spectrum of opportunities and challenges currently faced by students faculty staff and administrators while also offering radical visions of the future of liberal education in the United States Accompanying vision chapters written by some of the foremost leaders in higher education touch on a wide array of subjects and themes from artificial intelligence and machines to the role that human dispositions mindsets resilience and time play in how we guide students to ideas for bringing playful concepts of creativity and openness into our work Ultimately Redesigning Liberal Education reveals how humanizing forces including critical thinking collaboration cross cultural competencies resilience and empathy can help drive our world This uplifting collection is a celebration of the innovative work being done to achieve the promise of a valuable engaging and practical undergraduate liberal education Isis Artze Vega Denise S Bartell Randy Bass John Bodinger de Uriarte Laurie Ann Britt Smith Jacquelyn Dively Brown Phillip M Carter Nancy L Chick Michael J Daley Maggie Debelius Janelle Papay Decato Peter Felten Ashley Finley Dennis A Frey Jr Chris W Gallagher Evan A Gatti Lisa Gring Pemble Kristina Moss Gudrun Gunnarsdottir Anthony Hatcher Toni Strollo Holbrook Derek Lackaff Leo Lambert Kristin Lange Sherry Lee Linkon Anne M Magro Maud S Mandel Jessica Metzler Borjana Mikic William Moner Phillip Motley Matthew Pavesich Uta G Poiger Rebecca Pope Ruark Michael Reder Michael S Roth Emily Russell Heather Russell Ann Schenk Michael Shanks Susan Rundell Singer Andrea A Sinn Christina Smith Allison K Staudinger William M Sullivan Connie Svabo Meredith Twombly Betsy Verhoeven David J Voelker Scott Windham Mary C Wright Catherine Zeek *Why the Humanities Matter Today* Lee Trepanier, 2017-03-08 The humanities in American higher education is in a state of crisis with declining student enrollment fewer faculty positions and diminishing public prestige

Instead of recycling old arguments that have lost their appeal the humanities must discover and articulate new rationales for their value to students faculty administrators and the public Why the Humanities Matter Today In Defense of Liberal Education is an attempt to do so by having philosophers literature and foreign language professors historians and political theorists defend the value and explain the worth of their respective disciplines as well as illuminate the importance of liberal education By setting forth new arguments about the significance of their disciplines these scholars show how the humanities can reclaim its place of prominence in American higher education

In Defense of a Liberal Education Fareed Zakaria, 2015-03-30 NEW YORK TIMES BESTSELLER CNN host and best selling author Fareed Zakaria argues for a renewed commitment to the world's most valuable educational tradition The liberal arts are under attack The governors of Florida Texas and North Carolina have all pledged that they will not spend taxpayer money subsidizing the liberal arts and they seem to have an unlikely ally in President Obama While at a General Electric plant in early 2014 Obama remarked I promise you folks can make a lot more potentially with skilled manufacturing or the trades than they might with an art history degree These messages are hitting home majors like English and history once very popular and highly respected are in steep decline I get it writes Fareed Zakaria recalling the atmosphere in India where he grew up which was even more obsessed with getting a skills based education However the CNN host and best selling author explains why this widely held view is mistaken and shortsighted Zakaria eloquently expounds on the virtues of a liberal arts education how to write clearly how to express yourself convincingly and how to think analytically He turns our leaders vocational argument on its head American routine manufacturing jobs continue to get automated or outsourced and specific vocational knowledge is often outdated within a few years Engineering is a great profession but key value added skills you will also need are creativity lateral thinking design communication storytelling and more than anything the ability to continually learn and enjoy learning precisely the gifts of a liberal education Zakaria argues that technology is transforming education opening up access to the best courses and classes in a vast variety of subjects for millions around the world We are at the dawn of the greatest expansion of the idea of a liberal education in human history

The Future of American Higher Education Joseph L. DeVitis, 2023-07-03 This impressive anthology presents the reader with an introduction to a gallery of public intellectuals through the critical eyes of a wide array of contributing writers from various academic fields Both the latter and the public intellectuals themselves are responding to the state of American higher education Importantly most of them there are a few public intellectuals in the book who cling closer to the status quo do not separate colleges and universities from the political economic and social currents of American society They attack the realities of growing social inequality the intractable presence of institutional racism and the recurrent reliance on the free market as the arbiter of value Public intellectuals assess the impact of these social factors on the organization and practices of contemporary American higher education They force the reader to consider serious challenges to the current arrangement of higher learning and as such they ask us to

assess the efficacy of their respective perspectives Do they present the reader with insight or idealism pathways or dead ends This compendium provides an abundance of ideas for higher education leaders policy makers faculty members trustees and governmental officials as well as social theorists and graduate students interested in higher education careers Richard Guarasci President Emeritus of Wagner College Just as our society is polarized higher education is no less divided as to its mission and purpose whether it should be preparing students for employment or for engagement as citizens whether it should be corporatist and profit driven or promote intellectual curiosity and independent thinking and whether it should pursue a neoliberal agenda or promote a liberal education Whose scholarship culture and epistemologies should be validated Should it be a private or a public good Preserve tenure or erode it What role should colleges and universities play in addressing economic inequality and systemic racism The answers to these questions are critical for the future of our society as our universities and colleges are the nurseries of the values and philosophies that shape it The chapters in this book review the contributions of seventeen public intellectuals who have been at the forefront of these issues and significantly contributed to these debates Each describes the genesis of each scholar s ideas and presents and critiques his or her core insights and arguments The seventeen public intellectuals represent a spectrum of opinion from the conservative to the progressive At this pivotal moment when much of higher education is in economic crisis and public trust in it has been eroded this book offers a robust entry point for considering the options and directions ahead for anyone in a leadership position The book will also be valuable for higher education courses to stimulate debate about these critical issues and introduce readers to the seminal thinkers in the field Public Intellectuals Presented Stanley Aronowitz Michael B rub Marc Bousquet Patricia Hill Collins Lori Patton Davis William Deresiewicz Stanley Fish Marybeth Gasman Henry Giroux Sara Goldrick Rabb Amy Gutmann Russell Jacoby Randall Kennedy David Kirp David F Labaree Christopher Newfield Michael Roth
