Beyond Borders A Cultural Reader 2nd Edition:

Beyond Borders Randall Bass, Joy Young, 2002 This multicultural reader for first year composition courses poses critical questions about American culture and the construction of identity *Beyond Borders* includes both conventional writing essays poems and short fiction and less conventional works photographs advertisements graphic novels and maps The thematically arranged readings raise questions and ideas about both individual and group identity The interactive format shows students how to read and write by freely crossing the borders between writer and reader student and critic and consumer and producer The Second Edition features material on the writing process with writing activities throughout and a focus on research and argument BEYOND Borders, 2004 **Law In and As Culture** Caroline Joan "Kay" S. Picart, 2016-03-04 There are two oppositional narratives in relation to telling the story of indigenous peoples and minorities in relation to globalization and intellectual property rights The first the narrative of Optimism is a story of the triumphant opening of brave new worlds of commercial integration and cultural inclusion The second the narrative of Fear is a story of the endangerment mourning and loss of a traditional culture While the story of Optimism deploys a rhetoric of commercial mobilization and innovation the story of Fear emphasizes the rhetoric of preserving something pure and traditional that is dying Both narratives have compelling rhetorical force and actually need each other in order to move their opposing audiences into action However as Picart shows the realities behind these rhetorically framed political parables are more complex than a simple binary Hence the book steers a careful path between hope rather than unbounded Optimism and caution rather than Fear in exploring how law functions in and as culture as it contours the landscape of intellectual property rights as experienced by indigenous peoples and minorities Picart uses among a variety of tools derived from law critical and cultural studies anthropology and communication case studies to illustrate this approach She tracks the fascinating stories of the controversies surrounding the ownership of a Taiwanese folk song the struggle over control of the Mapuche s traditional land in Chile against the backdrop of Chile s drive towards modernization the collaboration between the Kani tribe in India and a multinational corporation to patent an anti fatigue chemical agent the drive for respect and recognition by Australian Aboriginal artists for their visual expressions of folklore and the challenges American women of color such as Josephine Baker and Katherine Dunham faced in relation to the evolving issues of choreography improvisation and copyright The book also analyzes the cultural conflicts that result from these encounters between indigenous populations or minorities and majority groups reflects upon the ways in which these conflicts were negotiated or resolved both nationally and internationally and carefully explores proposals to mediate such conflicts Balancing Acts Mary Taylor Huber, 2023-07-03 Drawing on interviews with Dan Bernstein psychology University of Nebraska Brian Coppola chemistry University of Michigan Sheri Sheppard mechanical engineering Stanford University Randy Bass American literature Georgetown University and colleagues within and outside their institutions and fields the author looks at the routes these pathfinders

Rereading Schleiermacher: Translation, Cognition and Culture Teresa Seruya,José Miranda Justo,2015-11-30 This book celebrates the bicentenary of Schleiermacher s famous Berlin conference On the Different Methods of Translating 1813 It is the product of an international Call for Papers that welcomed scholars from many international universities inviting them to discuss and illuminate the theoretical and practical reception of a text that is not only arguably canonical for the history and theory of translation but which has moreover never ceased to be present both in theoretical and applied Translation Studies and remains a mandatory part of translator training A further reason for initiating this project was the fact that the German philosopher and theologian Friedrich Schleiermacher though often cited in Translation Studies up to the present day was never studied in terms of his real impact on different domains of translation literature and culture **Facilitating**
