D. Cousins, Daniel Derrin, 2020-11-29 This is the first collection of essays since George Sherburn's landmark monograph *The Early Career of Alexander Pope* 1934 to reconsider how the most important and influential poet of eighteenth century Britain fashioned his early career The volume covers Pope's writings from across the reign of Queen Anne and just beyond It focuses in particular on his interaction with the courtly culture constellated round the Queen It examines for instance his representations of Queen Anne herself his portrayals of politics and patronage under her reign his negotiations with current literary theory with the classical tradition with chronologically distant yet also contemporaneous English poets with current thought on the passions and with membership of a religious minority In doing so it comprehensively reconsiders anew the ways in which Pope increasingly supportive of Anne's rule and mindful of the Virgilian rota sought at first to realise his authorial aspirations **Alexander Pope in the Making** Joseph Hone, 2021 Explores Alexander Pope's early career as a literary author and provides a transformative account of the eighteenth century poet **The Oxford English Literary History** Margaret J. M. Ezell, 2017-09-15 The Oxford English Literary History is the new century's definitive account of a rich and diverse literary heritage that stretches back for a millennium and more Each of these thirteen groundbreaking volumes offers a leading scholar's considered assessment of the author's works cultural traditions events and ideas that shaped the literary voices of their age The series will enlighten and inspire not only everyone studying teaching and researching in English Literature but all serious readers This volume covers the period 1645-1714 and removes the traditional literary period labels and boundaries used in earlier studies to categorize the literary culture of late seventeenth century England It invites readers to explore the continuities and the literary innovations occurring during six turbulent decades as English readers and writers lived through unprecedented events including a King tried and executed by Parliament and another exiled the creation of the national entity Great Britain and an expanding English awareness of the New World as well as encounters with the cultures of Asia and the subcontinent The period saw the establishment of new concepts of authorship and it saw a dramatic increase

Technical Automation in Classical Antiquity Maria Gerolemou, 2022-12-15 Technical automation the ability of man made or god made objects to move and act autonomously is not just the province of engineering or science fiction In this book Maria Gerolemou by taking as her starting point the close semantic and linguistic relevance of technical automation to natural automatism demonstrates how ancient literature performance and engineering were often concerned with the way nature and artifice interacted Moving across epic didactic tragedy comedy philosophy and ancient science this is a brilliant assembly of evidence for the power of automatic theatre in ancient literature Gerolemou starts with the earliest Greek literature of Homer and Hesiod where Hephaestus self moving artefacts in the Iliad reflect natural forces of motion and the manufactured Pandora becomes an autonomous woman Her second chapter looks at Greek drama where technical automation is used to augment and undermine nature not only through staging and costume but also in plot devices where statues come to life and humans behave as automatic devices In the third chapter Gerolemou considers how the philosophers of the 4th century BCE and the engineers of the Hellenistic period with their mechanical devices contributed to a growing dialogue around technical automation and how it could help its audience glance and marvel at the hidden mechanisms of self motion Finally the book explores the ways technical automation is

employed as an ekphrastic technique in late antiquity and early Byzantium **Reading It Wrong** Abigail Williams, 2025-08-05 How eighteenth century literature depended on misinterpretation and how this still shapes the way we read *Reading It Wrong* is a new history of eighteenth century English literature that explores what has been everywhere evident but rarely talked about the misunderstanding muddle and confusion of readers of the past when they first met the uniquely elusive writings of the period Abigail Williams uses the marginal marks and jottings of these readers to show that flawed interpretation has its own history and its own important role to play in understanding how why and what we read Focussing on the first half of the eighteenth century the golden age of satire *Reading It Wrong* tells how a combination of changing readerships and fantastically tricky literature created the perfect grounds for puzzlement and partial comprehension Through the lens of a history of imperfect reading we see that many of the period's major works by writers including Daniel Defoe Eliza Haywood Mary Wortley Montagu Alexander Pope and Jonathan Swift both generated and depended upon widespread misreading Being foxed by a satire coded fiction or allegory was like Wordle or the cryptic crossword a form of entertainment and perhaps a group sport Rather than worrying that we don't have all the answers we should instead recognize the cultural importance of not knowing [The Oxford Handbook of Eighteenth-century Satire](#) Paddy Bullard, 2019 This handbook is a guide to the kinds of satire written in English during the long eighteenth century and it focuses on texts that appeared between the restoration of the Stuart monarchy in 1660 and the outbreak of the French Revolution in 1789 [The Donna Angelica and the British Enlightenment Poets](#) A.D. Cousins, 2024-08-29 The aim of the book is to propose new interpretations of poets who are among the most valued and discussed in the British Enlightenment In fulfilling its aim the book covers English poetry and intellectual history from the Restoration to the later eighteenth century It examines how the myth of the donna angelica the angelic lady ancient in origin but given its best known form within the medieval literature of fin amor lives on beyond the Middle Ages and the Renaissance into the Enlightenment To be more precise it studies how some major Augustan poets appropriate and recreate what for convenience can be called the donna angelica topos or the angelic lady motif They do so for a great many reasons linked with quite diverse circumstances Nevertheless the myth's intellectual richness emotional intensity and inherent ambiguities mean that it offers each of them a powerful way for articulating interpreting exploring refractions of eros whether singly or diversely directed concerned with sexuality or spirituality informing personal or public experience The myth has as many faces so to speak as does desire it is one and yet many Thus the book pursues a particular fable of eros that appears in a multiplicity of texts in a multiplicity of guises It studies how some of the most interesting poets from Dryden to Crabbe bring the angelic lady motif into modernity
