Tenenbaum,Piper A. Ranallo,2021-11-18 This textbook

provides a detailed resource introducing the subdiscipline of mental health informatics. It systematically reviews the methods, paradigms, tools, and knowledge base in both clinical and bioinformatics and across the spectrum from research to clinical care. Key foundational technologies such as terminologies, ontologies, and data exchange standards are presented and given context within the complex landscape of mental health conditions, research, and care. The learning health system model is utilized to emphasize the bi-directional nature of the translational science associated with mental health processes. Descriptions of the data technologies, paradigms, and products that are generated by and used in each process and their limitations are discussed. *Mental Health Informatics: Enabling a Learning Mental Healthcare System* is a comprehensive introductory resource for students, educators, and researchers in mental health informatics and related behavioral sciences. It is an ideal resource for use in a survey course for both pre and post doctoral training programs as well as for healthcare administrators, funding entities, vendors, and product developers working to make mental healthcare more evidence-based.

Behavioral Healthcare Informatics Naakesh A. Dewan, Nancy M. Lorenzi, Robert T. Riley, Sarbori R.

Bhattacharya, 2014-03-14 This book will provide an overview of the state of the art in behavioral health care informatics as well as discussing the challenges on the horizon such as organizational issues, human-centered issues, educating healthcare executives about technology issues, educating clinicians about behavioral informatics systems, and consumer issues. In addition to significant contributions by the editors, the book will contain contributions from a small number of acknowledged experts within their respective fields. As daily living becomes more stressful, socio-psychological or behavioral-related problems become more intense. Informatics has the potential to transform the world of behavioral practitioners to enable them to assist people more easily. This book will focus on informatics-related topics that all disciplines connected to the behavioral health will find very useful for their day-to-day practice. *The Computerization of Behavioral Healthcare* Tom

Trabin, 1996-02-22 *The Computerization of Behavioral Healthcare* offers comprehensive advice and practical guidelines on computerization that will fundamentally change the clinical practice, management, and communications of behavioral healthcare. This essential resource is written in easy-to-understand language by experts in the field of clinical practice, healthcare administration, technological change, and public policy. In nontechnical terms, the authors demonstrate how computers and networked interactive information systems help to contain costs, measure and improve clinical outcomes, and make any behavioral healthcare organization or practice more competitive in the marketplace. Understanding the

Behavioral Healthcare Crisis Nicholas A. Cummings, William T. O'Donohue, 2012-03-29 *Understanding the Behavioral Healthcare Crisis* is a necessary book edited and contributed to by a great variety of authors from academia, government, and industry. The book takes a bold look at what reforms are needed in healthcare and provides specific recommendations. Some of the serious concerns about the healthcare system that Cummings, O'Donohue, and their contributors address include access problems, safety problems, costs problems, the uninsured, and problems with efficacy. When students/practitioners

researchers and policy makers finish reading this book they will have not just a greater idea of what problems still exist in healthcare but more importantly a clearer idea of how to tackle them and provide much needed reform *e-Mental Health* Davor Mucic, Donald M.
