Beyond Anthropology Society And The Other:

Beyond Anthropology Bernard McGrane, 1989 This study analyzes the manner in which the perception of human difference has changed from the time of the Renaissance to the 20th century Building on the insights of Foucault and Garfinkel it charts how humanity has become contained within the anthropological concept of the Other **European Conquest and the Rights of Indigenous Peoples** Paul Keal, 2003-08-28 Paul Keal examines the historical role of international law and political theory in justifying the dispossession of indigenous peoples as part of the expansion of international society He argues that paradoxically law and political theory can now underpin the recovery of indigenous rights At the heart of contemporary struggles is the core right of self determination and Keal argues for recognition of indigenous peoples as peoples with the right of self determination in constitutional and international law and for adoption of the Draft Declaration on the Rights of Indigenous Peoples by the General Assembly He asks whether the theory of international society can accommodate indigenous peoples and considers the political arrangements needed for states to satisfy indigenous claims The book also questions the moral legitimacy of international society and examines notions of collective guilt and responsibility Beyond Exoticism Timothy D. Inventing the Thrifty Gene Travis Hay, 2021-09-10 Though First Nations communities in Canada have historically lacked access to clean water affordable food and equitable health care they have never lacked access to well funded scientists seeking to study them Inventing the Thrifty Gene examines the relationship between science and settler colonialism through the lens of Aboriginal diabetes and the thrifty gene hypothesis which posits that Indigenous peoples are genetically predisposed to type 2 diabetes and obesity due to their alleged hunter gatherer genes Hay s study begins with Charles Darwin s travels and his observations on the Indigenous peoples he encountered setting the imperial context for Canadian histories of medicine and colonialism It continues in the mid twentieth century with a look at nutritional experimentation during the long career of Percy Moore the medical director of Indian Affairs 1946 1965 Hay then turns to James Neel s invention of the thrifty gene hypothesis in 1962 and Robert Hegele s reinvention and application of the hypothesis to Sandy Lake First Nation in northern Ontario in the 1990s Finally Hay demonstrates the way in which settler colonial science was responded to and resisted by Indigenous leadership in Sandy Lake First Nation who used monies from the thrifty gene study to fund wellness programs in their community Inventing the Thrifty Gene exposes the exploitative nature of settler science with Indigenous subjects the flawed scientific theories stemming from faulty assumptions of Indigenous decline and disappearance as well as the severe inequities in Canadian health care that persist even today

The Medieval Warrior Aristocracy Andrew Cowell, 2007 A major reconsideration of the relationship between warrior aristocrats epics and heroes in medieval culture The process of identity formation during the central Middle Ages

10th 12th centuries among the warrior aristocracy was fundamentally centered on the paired practices of gift giving and violent taking inextricably linked elements of the same basic symbolic economy These performative practices cannot be understood without reference to a concept of the sacred which anchored and governed the performances providing the goal and rationale of social and military action After focussing on anthropological theory social history and chronicles the author turns to the literary persona of the hero as seen in the epic He argues that the hero was specifically a narrative touchstone used for reflection on the nature and limits of aggressive identity formation among the medieval warrior elite the hero can be seen from a theoretical perspective as a supplement to his own society who both perfectly incarnated its values but also in attaining full integrity short circuited the very mechanisms of identity formation and reciprocity which undergirded the society The book shows that the relationship between warriors heroes and their opponents especially Saracens must be understood as a complex tri partite structure not a simple binary opposition in which the identity of each constituent depends on the other two

Multicultural Politics of Recognition and Postcolonial Citizenship Rachel Busbridge, 2017-07-20 This book examines claims for recognition of cultural difference from immigrant and Indigenous minorities highlighting the ways in which they intersect with ideas of national community Busbridge argues that there is an important albeit under explored relationship between nation and multicultural politics of recognition Drawing on the Australian context the book explores how nation features as a productive if somewhat ambivalent discursive resource in contemporary Muslim and Aboriginal struggles to be recognised In demanding recognition minorities enter into the business of making the nation by positing alternative conceptions of national identity culture and belonging that are more attentive to their differences and claims This dynamic is engaged as an expression of postcolonial citizenship Postcolonial citizenship is imagined in terms of the ways in which minority groups actualise multicultural realities through rewriting ideas of national community It underlines the critical importance of revising the power relations that deem some groups more national and others less so and which in Western multicultural societies are typically tied to notions of the West and its others This book is an important conceptual theoretical and political intervention that brings postcolonialism and multiculturalism into dialogue on the increasingly potent issues of nation and national identity It will be of great interest to scholars and students of sociology politics postcolonial studies culture identity and nation
